CANADIANS HELD IN RESERVE, BUT SHARED LOSSES

Nearly Fifty Wounded, Tho Enemy Failed to Press Attack.

TORONTO MAN'S ESCAPE

Private Paterson Tells How German Shell Interrupted Spelling Lesson.

Canadian Associated Press Cable. LONDON, March 22.—Eight more Canadians have fallen in the Canadian Hospital at Shorncliffe, bringing the total number of patients since the institution opened to over two hundred. One, Major Higginbotham, has died.

There is Private Louis Paterson, Toronto, 4th Battalion, who has sharp wounds in his back and one arm, and to use his own words "heardly knows what part of his body has not been hit by shrapnel." He is as cheerful as a cricket, and declares his wounds are nothing to mention.

Private Outhbert of the Patricia's, Winnipeg, who got a bullet in the arm, laconically remarks here were plenty of them to go round. I was not there an hour before I got my dose. It was hit about the same time as a fellow Patricia named Worral from Montreal. Their beds at Shorncliffe are within a couple of yards of each other.

A large number of the wounded Canadians at Shorncliffe were able to go on the lawn yesterday, the weather being so balmy by abrupt change. Many of the wounded Canadian soldiers in a basket chair remarked: "You ought to hear that row from the batteries as they are being fired rather you ought to pray to be saved from hearing it."

The following Canadian wounded have been received into Netley Hospital during the week-end: Privates McDonald, M. McLean, W. Moore, W. H. Dalldorf, T. Prichard, J. B. Bay, A. Chamberlain, Sergeants W. J. St. John, C. Steble, Bugler W. J. J. MAJOR-GEN. STEELE DEFINITELY CHOSEN?

WINNIPEG, March 22.—Report that Major-General Steele has been named as commander of the Canadian expeditionary force has been verified by Gen. Steele's private secretary this morning from Toronto.

BIG INDEMNITY FOR FOODSTUFFS SEIZED

British Prize Court Orders Six Hundred Thousand Dollars Paid. LONDON, March 22, 11:20 p.m.—The prize court today ordered paid \$600,000 on American shipments of flour and wheat detained on board the Norwegian steamers Alfred Nobel, Kim and Bjornstjerne Bjornson, and the Swedish steamer Fridland. So far as is known this is the first money to be paid out by the prize court on American foodstuffs seized.

The steamers Alfred Nobel and Bjornstjerne Bjornson, loaded chiefly with lard, bacon and other products of Chicago packings houses, have been sent into Killybegs November 10, and the Fridland from New York, Copenhagen, with packers' products was sent into Killybegs November 10, and the Kim, loaded with foodstuffs, was detained at Newcastle December 10.

SOCIALIST LIEBKNECHT UNDER MILITARY LAW

He Cannot Write Articles Nor Attend Public Political Meetings. LONDON, March 22.—The Exchange Telegraph Co. has received a despatch from Copenhagen saying that Dr. Karl Liebknecht, the Socialist deputy, has been ordered to place himself at the disposal of the German military authorities, according to the Politbureau of that city. Henceforth he must consider himself under military law. He is not to write articles, nor will he be permitted to attend public political meetings, excepting the meetings and the landtag.

VENTURED IN PROHIBITED WATERS AND WAS SHOT

British Sentry Fired on G. Montgomery of Buffalo in Bermuda Port. BUFFALO, March 22.—George B. Montgomery of Buffalo was shot by a British sentry while he was sailing in the harbor at Hamilton, Bermuda, last Saturday, according to information received here tonight. One of his legs was so badly hurt that the foot had to be amputated. With him in the boat at the time were his wife and a negro pilot.

BELIEVE ENGLAND ENLISTS WOMEN

Credulous Germans Told of Failure of Male Recruiting in Britain. Special Cable to The Toronto World. LONDON, March 22.—The Daily Express quotes the following extraordinary article from The Frankfurter Zeitung, based on the belief that Great Britain, owing to the failure of male recruiting, has now decided to put women in the field. "It is, indeed, painful to see how the English are driven to the last expedients in order to obtain recruits. The supply of eligible men having practically ceased, all eyes are now turned to the women. The suffragettes, it is argued, have given substantial proof of their pugnacious tendencies. If these are in evidence in case of so large numbers of champions of female suffrage, they must equally form part of the character of the great bulk of English women. Hence a propaganda directed upon the auspices of Earl Kitchener is now being actively carried on among the women of England. In one large girls' school not far from Dover, more than 200 wooden rifles were distributed among the pupils, who are now being drilled and practiced. Thus we are faced with an irruption of Amazons on the battlefield of Flanders. Let them come, the heroic virgins. We shall receive them with a thunderous salute of shells. Their sex shall not save them. On the contrary, it will draw against them attacks the more violent by artillery and rifle fire, because we know that for every English woman killed a moral effect much greater than that which the death of six men could produce would recoil on the hands of the English authorities. Let them come, then, these charmers."

FRENCH AVIATOR FLEW OVER A GERMAN TOWN

Three Bombs Dropped on Mulheim City and Barracks on Sunday. BERLIN, via London, March 22.—An enemy aviator appeared Sunday above Mulheim, Baden, and dropped three bombs on the city and the artillery barracks. Three soldiers were wounded. Mulheim is a German town of about 4000 population situated on the upper Rhine, and it is an important junction in the German system of strategic railways, devised for the defence of the frontier between Baden and Alsace. The destruction of the railway stations at this point would hold up the transportation of reinforcements to Mulhausen. It is about 30 or 40 miles from the lines of the Vosges, which are in possession of French armies.

FIFTY BOMBS DROPPED IN RAID UPON PARIS

Two-thirds Were Explosive in Character and Others Incendiary. PARIS, March 22.—(9:25 p.m.)—Employees of the municipal laboratory discovered traces of fifty bombs thrown from the Zeppelin raiders. Two-thirds of these were explosive, and the others incendiary. A group of deputies has requested an audience with Premier Viviani to discuss under what conditions the Zeppelins were enabled to make the raid.

BIG AVALANCHE COST LIVES OF FIFTY WINNERS

Bunk House of Mine at Howe Sound, B.C., Swept Away. VANCOUVER, March 22.—Fifty miners were killed and as many more injured early today by a snowslide which swept away several bunk houses at the Britannia Mine at Howe Sound, B.C., according to a despatch received here. Besides the bunk houses part of the aerial tramway of the mine was carried away.

MANY WERE INJURED

Few Bodies Recovered by Rescuers Working on Pile of Debris. The mine level is on the side of a mountain and nearly 3000 feet above the shore of the sound. The tramway destroyed extended from the mine to the beach. Soon after reports of the avalanche were received here a steamer with physicians and nurses left for Howe Sound. Details are lacking, owing, it is believed, to the fact that communication with the mine has been cut off, as the telephone wires are down. Britannia is a coal mine employing more than 1000 men. The slide swept away a bunk house containing 150 men, a cook-house containing 10 men and several private houses, in which were a number of women and children. Several men who were going off the night shift at midnight were also killed. At last reports rescuers were working on the pile of debris, but few bodies were found. Fifteen of the injured were being brought to Vancouver tonight by steamer. Owing to lack of communication with Howe Sound except by steamer details are not yet available.

RAID OF ZEPPELINS DID NOT COME OFF

Paris Received Warning, But No Aircraft Appeared in the Sky. PEOPLE DISAPPOINTED Crowds Gathered at Strategic Points to Witness Phenomenon Unrewarded. PARIS, March 22, 11:10 p.m.—Paris received warning tonight of another impending Zeppelin raid, but up to nearly midnight no hostile aircraft had made its appearance. The weather conditions tonight were most unfavorable for an aerial raid, in strong contrast to the weather which prevailed Sunday morning, on the occasion of the last visitation of the Zeppelins. It rained steadily, and at times a strong south wind blew. As on Sunday morning the city was notified quickly, and almost immediately the capital was in absolute darkness. Curiously again seized the residents and all eyes were turned towards the sky. The warning of the authorities of possible danger to those who remained in the city was ignored. Knots of people gathered in front of the restaurants and cafes, in doorways, in windows and on balconies, while others sought vantage points in the open places and on the roofs. But they were unrewarded.

NEED FIRES TO RID SERBIA OF PLAGUE

Sir Thomas Lipton Says Vermin Spread Disease Everywhere. LONDON, March 22, 12:15 a.m.—"Just as it took fire to stop the great plague in London, so fires are needed to clear Serbia of typhus. Infected houses and the clothing of the people must be burned, as the disease is carried by vermin, which is omnipresent," said Sir Thomas Lipton tonight in a statement to the Associated Press, and which he recaptured the appalling conditions in Serbia, where he spent a considerable time in personal investigations.

ANOTHER BRITISH SHIP VICTIM OF TORPEDO

Crew All Saved, Vessel Reported to Be Still Afloat. LONDON, March 22.—The British steamer Concord, of 1825 tons, was torpedoed by a German submarine in the English channel today. The crew of 25 men were rescued by a patrol boat and landed at Dover. The vessel is reported to be still afloat. A daily passenger and mail service between Flushing, Holland, and England, has been resumed, according to a despatch from Flushing to Reuters' Telegram Co. A Copenhagen despatch to The Daily Telegraph says that during a great storm two big German merchant steamers were lost off Denmark.

Spring Overcoats That Have Distinction and Swing

The showing of spring overcoats at Dineen's, 140 Yonge street, is strikingly smart and well suited to appeal to men with exclusive tastes. Some are loose-fitting, others form-fitting, and all cleverly cut. Colors are grays, browns, blues and blacks. You realize the need of a light overcoat for wear at each end of the rather treacherous spring days that are ahead of us. Don't overlook Dineen's showing, for values are superlative and showing really choice.

GERMANS' WAR MACHINE RUN OUT OF FUEL

Men Only Trained to Be Parts of It, Have Reached Limitations. Special Cable to The Toronto World. PETROGRAD, March 22.—There is a universal feeling here that after several months of arduous and increasingly successful warfare against the well prepared German powers we are now on the eve of reaping the harvest of our long sustained and strenuous efforts. Russia, whether she has seven million or ten million men under arms, has sufficient for all the purposes of her strategic scheme. The Germans for months past have been driving in wedges all along the Russian strategic front with the net result of losing thousands of lives on the field without gaining any, but the slightest impression upon the Russians. Thanks to their methods of fighting, the Germans being always the attackers, have put very much more heavily than the Russians, but even supposing the losses were equal, the German case is no better. The German war machinery is worn out, and the German men have only been trained to be parts of the machine. The limitations of that over-ruled war machine have, it is believed, been reached. In the next few weeks a great crisis upon the machine will be made and there is little doubt about the result.

RUSSIA WILL SOON CALL ON MANHOOD OF NATION AGAINST ENEMY

RUSSIA TAKE ANOTHER TOWN

Special Cable to The Toronto World. PETROGRAD, March 22.—Russian troops continue successfully to prosecute their invasion of East Prussia by way of Tannenberg and after considerable resistance in which they won an engagement, they captured the strategic town of Gumbinnen. The Russian troops today captured a quantity of engineering stores. Elsewhere on the front from the Vistula to Memel no important changes are recorded. The claims of the Germans that they have recaptured Memel is not taken cognizance of by the Russian war office. It is believed here that the Germans are inspired to encourage the German people.

Advantages in Carpathians

The Russian appear to be gaining a decisive advantage everywhere in the Carpathian fighting. Stubborn resistance is being put up by the Austrians and Germans against the Russian advance on Bartfeld. This is being conducted on the Bartfeld roads the Chovany and Lobod, the valleys, and on the left bank of the San, and progress is being made in all these movements. The Russians continued to advance in the night, and defeated with trifling losses in attacks on the Russian positions at Kosselphaze, Oravicki, and Kohutkawa.

French Warship Ordered To Take Place of Gaulois

PARIS, March 22.—(6 p.m.)—The French battleship Jaureguiberry, which carries among her armament two 12-inch and two 14-inch guns, was ordered today to join the French squadron operating against the Dardanelles. The Jaureguiberry will replace the French battleship Gaulois, which was badly damaged along the waterline by shells from the Turkish forts. The Jaureguiberry was one of the warships representing France at the Quebec tercentenary celebration in July, 1908.

FALL OF PRZEMYSL WINS CAMPAIGN FOR RUSSIANS

Failure of Desperate Attempts of Austro-Germans in Carpathians To Relieve Town Led to Surrender—Several Thousand Austrians Captured at Lupkow. BY FREDERICK RENNETT. Special Cable to The Toronto World. PETROGRAD, March 22.—At dawn today the Russian infantry struck the last breath from the defence of Przemyśl, and the commandant, General Kusmanek, surrendered the fortress and garrison to the Russian army. The position of the defenders had been hopeless since Friday, when a sortie of the best Honved division was cut to pieces eastward of Przemyśl, where the Russian guns from behind a crest 400 feet high were smashing the inner citadel. Death, wounds, sickness, destitution and loss in prisoners reduced the garrison until it was unable to defend the 25 miles circumference of the forts. Big Coup Sunday. The Russians made progress yesterday from the southwest, struck thru the inner circle from the right bank of the River San and secured cover for a decisive coup. At dawn they burst the passages between the last forts, making further resistance utterly useless. Through yesterday the inner forts conducted a tremendous cannonade in the direction of the Russian outer lines without damaging the abattis positions that had been seized over night. General Kusmanek ordered a last desperate sortie to the northeast, before dawn Sunday, but it was driven back with terrible losses. Tried to Relieve City. The Austrians in the Lupkow Pass and the Germans in the Kosmoska Pass yesterday responded to a wireless signal of despair and struggled furiously to the right of the San valley in a forlorn hope to raise the siege from the south. The Russian trenches, however, met each wave with merciless rifle volleys and towards dusk they charged with the bayonet. Thousands Surrendered. There was great bloodshed, especially among the Germans on the Lupkow road. Several thousand Austrians surrendered at Lupkow. It is believed that Gen. Dimitrieff asked permission four times during the earlier period of the siege to storm and capture the fortress, but the supreme command decided that it was unnecessary to incur heavy losses seeing that the besieging army was not then required for other operations. The fall of the stronghold, coming close upon the utter failure of the Austrians to initiate a campaign in eastern Galicia and the terrible losses inflicted on the Austrians and Germans among the outposts passed in the Carpathians means that the Russian Galician campaign is crowned with complete victory. There is nothing left for the Austrians and their German support but to give up the lines of the Danube to permit the Russian advance on Oranov.

THREE CAPITALS HAPPY AT FALL OF PRZEMYSL

Petrograd, London and Paris Celebrate Another Turning Point in War. PETROGRAD, March 22, via London, 11:05 p.m.—The Przemysl garrison, which capitulated to the Russian army today, surrendered without a fight. The holding of the white flag over this fortress, which was said to be on the point of surrender on a number of occasions, caused little surprise, as it was generally known that it was in a terribly weakened condition, without food or ammunition, and its endurance was only a question of days. War office advices reports that nine Austrian generals were taken, as well as more than 300 officers and 50,000 men. The Russian general commanding the investing army has been decorated with St. George's Cross. Enthusiastic Demonstrations. A heavy snowstorm failed to check the enthusiastic demonstrations in which the civil and military populations united when the fall of Przemysl was announced. The crowds, flooding in deep drifts, which tied up street traffic cheered the officers and soldiers, who remained to participate in the celebrations. The strains of the national anthem swelled in volume as the crowd gathered, while from other points throughout the city, mystaciously hidden behind the dense curtains of falling snow, music burst forth and added to the general spirit of enthusiasm. The most effect of the victory on Russia will be very great. Of Great Importance. The ending of the long siege is of great importance. GENERAL SELIWANOFF HERO OF PRZEMYSL

London Had Thought Bulgarian General Dimitrieff Was in Command. LONDON, March 22, 11:30 p.m.—The mention in the Russian official statement of the decoration of Gen. Selivanoff as commander of the army besieging Przemysl, has created considerable surprise in London, as it was understood the Bulgarian General Radko Dimitrieff was in command. Where he was transferred or was removed is not known. The London paper prints eulogies and the picture of Gen. Dimitrieff as "the hero of Przemysl."

ABANDON SEALING SHIP IN NOTRE DAME BAY

Steamer Eagle, One of Eight Jammed in the Ice, in Serious Plight. ST. JOHN'S, Nfld., March 22.—Further misfortune to the sealing fleet was reported tonight when word came that the steamer Eagle, one of the eight jammed in the ice off the eastern coast of Newfoundland, was in a serious plight in Notre Dame Bay. Captain Ethelap of the vessel sent a wireless to the owners, that arrangements had been made to abandon the ship. Her boats, tents, and supplies of food and fuel were taken out on the ice alongside, so that they might not be carried down should the ship sink suddenly. Veterans of the seal hunt here expressed the belief that the crew of the Eagle would be forced to make the trip over the ice floes to Twillingate, the nearest point in Notre Dame Bay. Capt. Bishop in his message said he was preparing for such an emergency.
