15. How many hundredths are equivalent to one-tenth? how many tenths to one unit? how many units to one ten? how many tens to one hundred?

16. One hundred is equal to how many tens? one ten to how many units? one unit to how many tenths? one tenth to how many hundredths?

17. Read the following :

3.07, 25.17, 100.09, 45.75, 101.11.

18. Write in figures :

Seven hundredths; two, and nine hundredths; forty-three hundredths; seven units, seven-tenths and seven hundredths.

109. One-tenth of $\frac{1}{100}$ is $\frac{1}{1000}$ and is written .001 in decimals.

110. A fraction that expresses tenths, hundredths, or thousandths, etc., is called a **Decimal Fraction** or a **Decimal**.

111. The following table shows the relation of the places to the right and left of the units' places. Thus the place of tens is first to the left of the units, the place of tenths is first to the right of units; the place of hundredths is second to the right of units, etc.

4 Thousands.	3 Hundreds.	2 Tens.	1 Units.	. Decimal Point.	2 Tenths.	3 Hundredths.	4 Thousandths.

EXERCISE 134

1. Read or write in words .7, .07, .007, 7.7.
2. Read or write in words .45, .37, .71.
