PRONUNCIATION OF FRENCH NAMES

In the right-hand column all the vowels, whether long or short, have their ordinary English sound, except in the case of *en, an, on,* and *in.* These are called nasal sounds in French. The force of *an, en,* and *on* is very nearly that of *on* in the English word *wrong,* while the sound of *in* resembles that of *en* in the English word *strength.* These nasal sounds will be indicated by *italics.* *J* in French has the sound of *z* in *azure,* and may be represented by *zh.*
