

The annual public thanksgiving service was held at the Hospital on the afternoon of April 7th, Rev. Dr. C., Rev. P. McF. Macleod, Rev. H. M. P., Rev. H. J., and others. addressed the meeting, after which refreshments were served by the Committee. The meeting was profitable to all present.

We close the record of this year of Hospital work with sincere gratitude to God in our hearts. We have received larger sums of money than ever before, and an increased number of donations of every kind, and we look out upon the responsibilities of building and furnishing our new Hospital, and caring for double the number of children as at present, without fear or misgiving, feeling sure that "the Lord will provide."
