by big commission houses weakened the corn market today. Temporary declines in sterling counted somewhat in favor of the bears, and so, too, did an advance in ocean rates on foodstuffs from the United States to Great Britain. Besides, it was asserted that corn prices were above the feeding value of the cereal. Opening quotations, which ranged from half cent decline to a like advance, were followed by moderate setbacks all around.

Oats lacked support. After opening 1½ to 5½ lower, the market sagged a little more before beginning to react.
