Reported missing since August 27, Flight Lieutenant H. M. Corbold was killed while flying over the German lines. Corbold was but 19 years of age, and his home is at 82 Wells Hill road. On September 24th Pte. Albert E. Smith, 195 Holland avenue, was killed in action. Smith was drafted to the 12th Battalion when the 92nd was split up in England.

Advices the Use of "Fruit-a-tives,"
the Famous Fruit Medicine.

MR. ROSENBERG.

559 Casgrain St., Montreal.
April 20th, 1915.
"In my opinion no other medicine in the world is so curative for constipation and indigestion as 'Fruit-a-tives.' I was a sufferer from these complaints for five years, and my sedentary occupation, music, brought about a kind of intestinal paralysis, with nasty headaches, belching gas, drowsiness after eating and pain in the back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives,' and now for six months I have been entirely well."

"I advise anyone who suffers from that horrible trouble—chronic constipation—with the resultant indigestion, to try 'Fruit-a-tives,' and you will be agreeably surprised at the great benefit you will receive."

His wife lives at 233 Wilton avenue, and her husband worked at St. Catharines before donning khaki.

Only a few weeks in the trenches, Pte. J. W. Rollinson has been wounded the second time. He was drafted from the 74th Battalion to the Mounted Rifles in France. Rollinson has a wife and 3 children living at 2059 Dufferin street.

Pte. Robert Grainger wrote his parents at 747 Carlaw avenue from a hospital, stating that he had been wounded by shrapnel in the head and neck. He was a member of the 35th Battalion.

Another first contingent man from Toronto has been wounded for the first time. Pte. J. B. Conroy went over with the 19th Battalion and has been wounded in the thigh. His home is at 34 Coxwell avenue.

THAT QUICK STOP MEANS SAFETY.

Can the numerous auto accidents be minimized? They can be by using the only real quick-stop anti-skid tire—Dunlop "traction" tread. Is your car equipped with tires which help your brakes to answer quickly and surely?

Law Regulating Catching of Salmon and Trout Amended.

The Dominion regulation making a closed season for salmon-trout between Oct. 5 and Nov. 5 in inland lakes, where netting is prohibited, has been amended to permit anglers to catch not more than five in all other waters than the big and little Rideau lakes, where three is the limit. A number of protests against the regulation which went into effect late last fall were received by the provincial department of game and fisheries, which forwarded representations to Ottawa.

INFANTILE PARALYSIS IS LOSING ITS GRIP

Fewer Cases This Month Than in September, Says Dr. J. W. S. McCullough.

DEATH PERCENTAGE HIGHER

Advices Parents to Keep Small Children Away From Possible Contagion.

Dr. J. W. S. McCullough, provincial medical officer of health, received word from the medical health officer in Montreal yesterday, that there are 16 cases of infantile paralysis in Westmount. All those who have come in contact with the cases are being kept under strict quarantine. Still the medical officer of health gives it as his advice that "people with small children had better stay away" from possible contagion.

The disease is apparently losing its grip on Ontario. There are fewer cases this month than last, but the percentage of fatality is higher. To the 19th of this month, 19 cases and six deaths have been reported. Last month there were 78 cases but only seven deaths.

NORTHERN ONTARIO

The Land of Clover, Opens a Permanent Exhibit in Toronto.

"Show your wares" is the slogan that has been adopted by the colonization branch of the Ontario Government in promoting settlement in Northern Ontario.

"Show your wares," they believe, is to see and be convinced. And with this thought in mind a permanent exhibit—small but representative—of the field products of Northern Ontario has been arranged in the government immigration office, 172 Front street west, Toronto, opposite the Union Station.

The exhibit, while it conveys to newcomers at once some of the possibilities of the "Land of Promise," is worthy of the attention of those who have heard but never ascertained for themselves what Northern Ontario means to the province as a whole.

The richness of the soil is emphasized on every hand, first by a collection of samples of fodder crops, such as clover, alfalfa and alsike, and then by a number of native grasses (also good for fodder) that grow in profusion in Timiskaming, Nipissing, Algoma, Thunder Bay, Rainy River and Kenora districts. These, with sheaves of fall wheat and oats with large heads and straw five in length, is declared proof that Northern Ontario will not yield to any other part of Canada first place in grain production. The cultivation of flax for seed and for fibre is being encouraged by the Dominion flax commissioner, with results which, he states, are exceeding his hopes.

The office breathes the free and optimistic spirit of the north. Information of every conceivable nature concerning the country is available. Enthusiasm is characteristic of the staff, which is trained to understand the needs of newcomers. The reception room is cheery and comfortable, with proper facilities to accommodate women and children.

Few people are perhaps aware that in the midst of this city is maintained by the government an institution that is something more than a turnstile through which settlers pass to their new heritage. It is a school where many things are taught to the profit of settler and citizen.

The department extends an invitation to every person to take advantage of the innovation and know more about Northern Ontario.

THE FALL WEATHER
HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby drive. The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Luster to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.
