PROBLEMS AND PEOPLE

(Montreal News.)
With the close of this war, humanity is going to be faced with some of the most tremendous and insistent problems of social betterment that have ever been known. In the past there have always been problems of a similar nature, although they have not been so serious as the ones now on the way, nor have they been so urgent. Until now, it has been the practice of statesmen and public authorities to drift more or less, to cater for the approval of the voter rather than for the needs of the community, to work on a basis of expediency.

That spirit will have to be eliminated from public life, and the public will be forced, by the stress of the demands that will assuredly be made upon it, to take their responsibility far more seriously than they have done in the past. That, of course, is the only way. Improvement in every way, and it is likely that the country will in the ultimate result derive a distinct advantage from its difficulties. Canada will probably be tried less than any of her neighbors because her available natural resources are far in excess of her population, but that fact will provide its own problem, because all the unexplored labor of Europe will flock across the Atlantic, and the greater portion of it will crowd into this country in preference to the United States. The experience of the latter, its successes and failures in handling the hitherto unprecedented rush of immigration during the last half-century, should provide some invaluable data for the Dominion, although, for obvious reasons, the problem is going to be far greater and more urgent in the case of this country.

What are the people of Canada and of Montreal going to do about it? Are they content to leave it entirely to paid officials or party politicians or civic representatives who represent no other interests than their own? Or will they let themselves be organized a force of public opinion that will make itself heard and feared in every department of national and civic activity? The choice is with them, the future of the country, the future of their country and their native city—rests with them. And the way to assure that future, to take up their share of the burden of honest government, especially in the municipality, is by taking an active interest in the problem as it arises, by looking ahead and building for the future, by making their own part of public opinion alert and efficient in every respect.

All responsibility begins with the individual, and the community is merely the individual on a larger scale. Every hope of progress rests upon the individual, and no man is entitled to say or to think that because he is insignificant in social position, he is for that reason insignificant as an influence either for good or evil. In every sphere of human activity, man is what he makes himself, and his influence upon his neighbors, and upon the creating and moulding of public opinion, is correspondingly great or small, or good or bad. The vital point to remember is that a dishonest administrator invariably accepts indifference on the part of the public as acquiescence.

There are thousands, and perhaps tens of thousands, of citizens whose apparent indifference to the problems of the day arises, not so much from lack of patriotism as from a lack of energy in their patriotism.

MORNING NEWS OVER THE WIRES

Hon. David McKen of Halifax, a former member of the house of commons and a member of the senate since 1896, has been appointed lieutenant-governor of Nova Scotia, succeeding Hon. J. D. MacGregor, whose term has expired. A double fatality occurred at Sydney Mines on Saturday when a horse attached to a carriage bolted in front of a railway locomotive. Angus McLean of Bourardine, who was driving the horse, and Conductor John Arsenault, who was riding on the footboard of the engine, were run over and killed.

WEBBER-HUMBLE
Miss Hazel Emma, daughter of Mrs. Humble of Fredericton and Earle Sydney Webber of Cleveland, Ohio, were married in New York on August 28th.

SIR WILFRID AND HOCHELAGA

(Montreal Daily Star, October 14.)
Sir Wilfrid Laurier is to be warmly commended by Canadians of all parties who realize that the first business of every British community today is to fight and win this war—for the decisive fashion in which he prevented a breach of the political truce in Hochelaga, Sir Wilfrid pledged himself to such a truce when the first German gun was fired, and most loyally has he kept that pledge. He is with those who believe that there should be no civil divisions; no party election—in this country until the war is over, and with him stand, we are confident, all the better and more patriotic elements in the community. He has resisted a contest at this time in Hochelaga, when it is felt by many that the ill-smelling war purchase scandals might have offered him an effective issue. But he believes, apparently—and we think, correctly—that the time is not yet for a discussion of these vital and far-reaching questions before the electorate. Undoubtedly, it is the duty of parliament as at present constituted to discuss them, for this parliament was elected in the name of the nation, the whole country, and the future of the nation, and it is the duty of the nation, the whole country, and the future of the nation, to stand until the war is balanced as the trustee of the nation. The whole country, and the future of the nation, to stand until the war is balanced as the trustee of the nation. The whole country, and the future of the nation, to stand until the war is balanced as the trustee of the nation.

What is probably the largest move heard secured in New Brunswick this year has been shot in the Tobique woods near the Nictaux camps, the grade of Guide Adam Moore, of Scotch Lake. He has eight American sportsmen shooting with him at Nictaux for October, and they have shot four fine moose thus far, one of the heads having antlers spreading sixty-two inches.

BABY'S PICTURE!

Baby days are over all too soon. A good picture, though, will keep the memory of those days fresh through all the years of growth and change. When was your baby's picture last taken?

Do Your Children Drink Safe Milk?

SAFE milk, bear in mind, is milk that is FREE FROM DISEASE.

The milk question is far too serious to be treated, or thought of lightly, for it is so intimately connected with the health, milk being one of the most important articles of daily food.

You cannot be too careful to have definite knowledge on matters of this kind, especially in view of the fact that the Dorchester TYPHOID epidemic has been traced to milk supply, and that typhoid has made its appearance in the city.

PRIMECREST FARM MILK is produced and cared for under strict conditions of cleanliness and sanitation, being GUARANTEED ABSOLUTELY FREE FROM DISEASE—STRICTLY FRESH—PERFECTLY CLEAN.

COME OUT TO PRIMECREST FARM AND SEE FOR YOURSELVES.

The Family Trio

In England, our Mother Country, Beer, Ale and Porter are as common in the homes as tea or coffee. Such beverages are regarded as quite necessary for the safe-guarding and promoting of health.

Many Canadians are adopting this custom and keep a supply in the home ready for guests or own use.

We make a specialty of catering to home trade and can supply the finest old English style Ale and Porter brewed in this country.

Will our prices interest you?

In Barrels or Cases. Write, Phone, or Call today.

Children's Week now on at the Reid Studio. Bring your children and receive a large \$2 photo free. The Reid Studio, cor. Charlotte and King.

ST. JOHN MINISTER.
A Montserrat paper says:—A large number of the citizens of Montserrat will be delighted to learn that we have been successful in getting one of the ablest preachers in the conference to preach at our anniversary services on Sunday, November 14. Rev. R. S. Crisp of St. John, who was a former pastor of this church, and also of Central Church, will preach at both services on anniversary Sunday, November 14.

What is probably the largest move heard secured in New Brunswick this year has been shot in the Tobique woods near the Nictaux camps, the grade of Guide Adam Moore, of Scotch Lake. He has eight American sportsmen shooting with him at Nictaux for October, and they have shot four fine moose thus far, one of the heads having antlers spreading sixty-two inches.

In taking this stand, Sir Wilfrid will have the support—not only of the saner sections of his own party—but of the less partisan portions of the Conservative party as well. He may not get his best need of praise from sycophants.

At a meeting of the executive of the Women's Canadian Club on Saturday at the home of Mrs. H. A. Powell, Queen Square, various matters of interest were discussed, and preparations made for the annual meeting. It was decided to leave to this meeting the matter of the exhibit of war trophies secured by the club, as this was deemed sufficiently important to be left with the society in general. The matter of the fund for Canadian war prisoners in Germany was reported on by Mrs. R. O'Brien.

A feature of interest was the appointment of a committee, with Mrs. L. P. D. Tilley as convener, for getting out a supply of little red muslin stockings to be filled with articles of interest for the soldiers at the front and in hospital, for Christmas. It is hoped that each member will take at least one, while the expectation is that others outside the club will also be anxious to get them. A small stock of stockings, which the club will also be anxious to get them. A small stock of stockings, which the club will also be anxious to get them.

The matter of tendering a reception to Lady Borden on her visit here tomorrow was discussed, and it was decided that the matter was too short to allow of the curbing suitable rooms and of sending invitations, to hold a reception at which all the members of the various patriotic societies could be present. In consequence it was decided that a reception should be tendered her by the executive of the Women's Canadian Club with the executive of the other women's patriotic societies in the city. Lady Borden is honorary president of the Women's Canadian Club in Ottawa and has taken an active interest in patriotic endeavor since its outbreak of war. It is hoped by the Canadian Club executive that members

of executives of other women's patriotic societies in the city will take this as an invitation to be present at the reception which is to be held tomorrow at 4.45 o'clock in the Manor House, Glen Falls.

Two former Cumberland men, Dr. Huxley Johnson and his brother, Dr. George R. Johnson were the guests of honor and two other former Cumberland men, T. M. Twissell, M. F. P., and Dr. E. B. Rosch were among the hosts at a dinner given at the Jullier hotel in Calgary, a few days ago. The doctors were honored by a little group of old college friends as men who are giving up good practices to go to the front with the Canadian forces. Dr. Huxley Johnson, whose wife was formerly Miss Cove, of Montreal, is attached to the medical corps and Dr. George Johnson is surgeon with the 15th Mounted Rifles and holds the rank of captain. Both doctors have been on duty at Camp Sarcee, near Edmonton for some time.

A few years ago both the doctors were students at Mount Allison. Among their fellow students were Mr. Twissell, Dr. Rosch, formerly of Nappan; Benjamin Pascoe, H. A. Allison, son of Dr. David Allison of Halifax; and H. A. Sinnott, recently Mayor of Calgary. It was these five men who honored their old college friends by tendering them a dinner in one of the private dining rooms of the Jullier, formerly of Nappan; Benjamin Pascoe, H. A. Allison, son of Dr. David Allison of Halifax; and H. A. Sinnott, recently Mayor of Calgary.
