by modern Food Science, because the mineral elements, without which the human body cannot be soundly built, have been refined out of them by removing the fat-containing germ, the bran, the rich, brown flour. They contain mostly starch, which cannot build either muscle, bone, blood, brain or nerves. But they can, and do turn the blood acid, a very dangerous and un-natural condition, which induces disease.

Dr. Jackson's ROMAN MEAL

is a real food, made from whole wheat, whole rye, flaxin and bran. It is rich in mineral salts and has every element your body needs in the exact propor-tions needed, and it has no element that your body does not need. It builds bone, muscles, blood, brain and nerves, and aids heart action.

Add Roman Meal to your daily diet, in addition to green vegetables and fruits, and keep gloriously fit and well.

Roman Meal is the most strengthening and the best body-building food in the world, therefore of the utmost advantage to the run down and to the child from the 10th month, and also for nursing and expectant mothers, because of its growth-promoting properties. It prevents indigestion and posi-

tively relieves constipation.
