HOLDS AGREEMENT BINDS GOVERNMENT TO BUILD CONVEYOR

Declares Delegates Appeared
Fearful of Offending
Cabinet Ministers

SAYS PORTLAND HAS
ONE AT EACH BERTH

Suggests if City Build Con-
veyor Government Must
Pay For It

"The Minister of Public Works at the meeting in City Hall on Tuesday, when reminded of the necessity of supplying a grain conveyor at No. 16 berth, pointed out that Montreal did not have conveyors to every berth. "But what about Portland?" asked a citizen of the Telegraph-Journal yesterday. "Portland, the terminal of the C. N. R.," he said, "has a grain conveyor at every berth, and it is Portland, not Montreal, that we are competing against. Montreal has a large passenger steamer business, with the result that many of the berths of that port would not be available as grain berths. The delegation which discussed the matter with the two Ministers appeared too anxious not to offend or embarrass them." He brought up the question of the tripartite agreement, saying that it had hardly been mentioned at the meeting, although under it, the Federal Government covenanted to supply additional

no grit
Dissoles film completely as it foams between the teeth and into every crevice. No scouring necessary. Not a trace of grit. Safe. Try it!

Minty's tooth paste
It why pay more?

To make meals pleasanter—

THERE'S nothing quite like having enough silverware! It removes annoyance in serving the meal and makes the eating of it more agreeable.

And to try to get along without enough silverware is quite unnecessary. For in 1847 Rogers Bros. Silverplate you can provide all you need quite reasonably. Tea spoons in the beautiful Old Colony pattern, or in any other, cost only \$3.75 the half dozen. The other pieces—table knives and forks, dessert spoons, salad forks—are priced on the same moderate scale.

A sensible scheme is to purchase now the pieces you need most, and to add others in the chosen pattern from time to time. In the newer patterns your dealer always will be ready to supply your wants. Remember that "1847 Rogers Bros." is made to last a lifetime. It leaves nothing to be desired in durability or guarantee.

Send for "How Much Silverware," a new booklet which is a faithful guide to reasonable silverware purchases for families large and small.

A LESSON IN FIRE PREVENTION

AUTOMOBILE CAMPS STARTED THIS FIRE
HIGHER LUMBER PRICES—\$4000 TO CHECK IT
HIGHER TAXES
THE CAMPERS WHO STARTED IT ARE BEING SEARCHED FOR
ARE YOU THE SAME CARELESS CITIZEN
OR WILL YOU PREVENT THE DESTRUCTION
OF TIMBER VALUES AND SCENERY
PREVENT FOREST FIRES—THEY DESTROY

Here's a sermon in fire prevention far better than any fire marshal or fire chief could preach. This sign, erected by the U. S. Forestry Service in the Konikow National Forest in Idaho, shows the havoc one careless camper unwittingly wrought. It ought to be a good reminder to others.

facilities whenever it was obvious that they were needed.

"Hon. Mr. King," he said, "certainly admitted that there was no question about the necessity of a grain conveyor at No. 16 berth, but as nothing had been placed in the estimates to provide it, said it would have to be passed up this year. The Government engineers admit its necessity and in the face of this it would seem that the Government is bound to supply it, if it is to live up to the tripartite agreement."

Build It Anyway, He Suggests.
"Would not St. John," he said, "be warranted in constructing this conveyor as it is badly needed for the winter traffic and thus whether the harbor was put in commission or not, the Government would be bound to honor its solemn covenant. In the tripartite agreement we have a contract in full force and effect at the present time. Nearly \$5,000,000 was spent previous to the war in developing our harbor and since the war we haven't pressed the Government to extend the facilities until recently."

"Harbor commission," he said, "would mean the scrapping of the tripartite agreement. Most people, he thought, even in St. John, were in entire ignorance of this agreement, while he doubted very much if most members of the present Government had ever heard of it, because if it were not brought to their notice by the people of St. John, they certainly would not trouble to look it up."

RUM SHIP "CAP"
CUTS BOAT CABLE

Cape May, N. J., Oct. 31.—A disgruntled skipper of a French run-ner is believed deliberately to have cut the New Jersey, Delaware and Maryland cable of the Coast Guard service, which lies in Delaware Bay from Cape May Point to Lewes, Del. The break was being repaired today by the coast guard ship Pequet, and those who saw the broken ends declared it had been torn by a mud-bug.
It was remembered that a French run-ner had tried to bribe Coast Guard Captain Christopher Beetham, of Townsends Inlet, by offering him \$20,000 to "play blind" while 10,000 cases of Scotch whisky were landed.

DUELIST REVILES FELON HE SHOT

New York, Oct. 31.—Because he "squealed" on the pal with whom he and four others escaped last July from the Eastern Penitentiary in Philadelphia, Thomas Gillen, Pennsylvania bank robber, is at the point of death at Bellevue Hospital.

In the same ward, and only a few feet away, Joseph F. McLean, who says he is a bootlegger, called out to the dying man for hours yesterday, cursing him and shouting: "I hope you die, you dirty, squealing dog! You ought to kick off, you traitor!"

If Gillen heard this abuse he gave no sign. He first had given a fictitious name to the police, but after he was fingerprinted and identified as the escaped convict he admitted he was the fugitive, and asked that his mother in Philadelphia be sent for. He refused to tell detectives the details leading up to his grim pistol duel with McLean on the ninth floor of the Hotel Langwell, 123 West Forty-fourth street, yesterday morning.

TO SAIL SATURDAY.
Ottawa, Oct. 31.—Hon. Rodolphe Lemieux, Speaker of the House of Commons, expects to sail this Saturday from Montreal on the Ansonia for Cebu, France, and will be absent until about the beginning of December.

Re-organize Civil Service Pay Plan
Toronto, Oct. 31.—General salary re-organization of the civil service that was slated to take place this month and for which the service has been anxiously waiting, has been postponed by the Government for a short period. Premier Ferguson stated this morning that all increases made, however, will be retroactive from Nov. 1.

For some time the civil servants have complained that many irregularities existed. Two men doing the same work, it was pointed out, in many cases received different salaries.

3-CENT INSULIN FOR POOR FOLKS
Indianapolis, Oct. 31.—Insulin, the specific for sugar diabetes, a recent discovery, is now in production to meet the world's needs at a price intended to make it available to the poorest.

Inquiries for insulin are coming in from all quarters of the globe. Between 25,000 and 30,000 diabetic patients are under the insulin treatment. Insulin is made from the extracts of the pancreatic glands of healthy slaughter-house animals. An Indianapolis firm of manufacturing chemists, which has obtained exclusive rights to make the preparation, has set a price of 3 cents a unit.

BRODEUR SWORN QUEBEC GOVERNOR
Quebec, Oct. 31.—Hon. L. P. Brodeur, at noon today was sworn in as Lieutenant-Governor of the Province of Quebec, to succeed the Rt. Hon. Sir Charles Fitzpatrick, whose term of office had expired.

The oath was administered by Chief Justice Lafontaine of the court of appeal, and the royal commission presented by J. E. Lemire, clerk of the Privy Council.

The Quebec Legislature has been convoked for Dec. 17.

WESTCLOX
Night and morning
MOST of us put off going to bed, just as we would like to put off getting out of bed in the morning. After a too short sleep whatever wakes us receives a grumbling response. That has caused some abuse of alarm clocks. But no one abuses his Westclox at night. He sets it to wake him, and sleeps soundly, confident of its punctual call. Westclox have a reputation for dependability. Folks who must be up on time choose clocks with the trade mark Westclox on the dial and tag.

PLEAD FOR LIVES OF TWO ESKIMOS
Ottawa, Oct. 31.—Cabinet will meet for the first time this week on Friday afternoon. It is understood that one of the matters which will occupy the attention of the ministers is the case of the two Eskimos who will unless the governor-in-council intercedes, be executed on December 7 next.

A widespread demand for a stay of execution evidenced by the circulation of petitions to the minister of Justice has resulted in a decision to reconsider the case, and it is now considered quite possible that a reprieve may be granted.

WOMAN IS GIVEN 2-YEAR SENTENCE
Sarnia, Ont., Oct. 31.—Found guilty last week of attempting to perform an illegal operation on a seventeen-year-old girl, Mrs. Lucy Hawke, of Sarnia, was sentenced to three years in Kingston penitentiary by Judge A. E. Taylor in the County Court here this afternoon.

75% of children's sickness caused by wet feet
Throughout Canada school nurses and other health authorities in all cases emphasize the importance of wearing rubbers. The danger of wet feet cannot be exaggerated. It causes most of the colds in children, and it has been said 75 per cent of winter sickness is caused by colds originating in wet feet.

No footwear so thoroughly protects the feet from the cold and dampness of Autumn mud and Winter snow and slush as well-made, well-fitting rubbers and overshoes.

Wet muddy shoes mean extra work in the home—wear rubbers and lessen mother's worries.

Active, scuffling, heedless little feet of boys and girls give rubber foot-wear its severest test. All DOMINION brand rubber footwear is made with the wear quality and durability to withstand the hardest kind of wear and tear—to protect the feet and health of children and grown-ups.

Because of their splendid wearing quality DOMINION brand rubbers are the most economical to buy.

They are not Dominion Brand unless they carry this trade-mark.
