

COMMON COUNCIL

Water Rates Fixed — City Will Pave Both Brussels Street and Marsh Road.

It was decided that the water rates for the city and for the parishes of Simonds and Lancaster would be the same this year as last, at the regular weekly council meeting of the common council, held yesterday afternoon. Several communications were received and the matter of ornamental poles for Douglas avenue given considerable attention. The report of the commissioner of public safety for the year 1920 was received and ordered printed. Mayor Schofield was in the chair and all commissioners were present. Councillors O'Brien, Dalzell, Donovan and Mosher also were present in regard to the water rates.

The report of the commissioner of finance was received and adopted. It showed that bills to the amount of \$117,148.04 had been paid during the last month and recommended that the payment of departmental accounts.

The report of the committee of the whole was received and adopted. It recommended that the permanent paving of Brussels street from Union to Gilbert's Lane, and the permanent paving of the City road as far as the One Mile House, be undertaken.

The section in regard to giving the N. B. Telephone Company permission to rebuild its line in Millidge avenue was referred back to the committee of the whole in order to hear the report of the mayor on the method of installing wires in Montreal.

The report of the commissioner of public safety was presented by Mr. Thornton and ordered received and printed.

Water Rates.

Mr. Jones moved that the water assessment rates of the city of St. John and the parishes of Simonds and Lancaster be the same as last year.

Councillor O'Brien asked that the estimates for the assessment in Lancaster be made available. The city had made its own assessment there. He also drew attention to the fact that the contractors on the Spruce Lake job would not employ any residents of Lancaster who were out of work, saying that St. John citizens were the only ones who could be employed. He asked that this be changed. Mr. Jones promised to furnish the necessary information in regard to the water assessment.

Councillor Donovan said that more water was needed at East St. John and gave his ideas on the subject.

Mr. Bullock said he had been in consultation with the fire underwriters and it was the opinion that the city ought to employ a capable water engineer. More revenue would be needed for this and he thought Mr. Jones ought to secure a comparison of water rates in other cities.

Councillor Dalzell said that the agitation seemed to be for water extension out the Silver Falls road. The people understood they could get the water if they would pay for it.

In reply to Councillor Mosher, Mr. Jones said that the parish rates were somewhat higher than in the city owing to different conditions. Mr. Mosher said he understood the wells were not fit for use.

On the motion being put it carried that the rates be the same as last year.

A letter was received from the Local Council of Women presenting to the city a drinking fountain at the junction of Brussels and Union streets. It was moved that the letter be acknowledged and the gift received. The city will maintain it but provision was made for moving the fountain to a different location in case of necessity.

C. S. Hanington wrote in regard to a property at Green Head. It was referred to Mr. Bullock to bring in a report.

A request from the Victory Cafe to erect an electric sign at 70 Germain street was referred to Mr. Frink and the city engineer.

A request that the N. B. Rolling Mills be heard in regard to the assessment on its property was referred to the mayor with power to arrange a meeting.

The changes in the motor vehicle by-law were given the first and second readings and passed and ordered.

The amendments in the by-law pertaining to examination of electricians were given the first and second readings and passed and ordered.

Mr. Bullock moved that the tender of W. E. Denigins for the painting of the Governor Charlton be accepted, as it was the lowest. The motion was carried after some discussion as to the quality of paint.

Ornamental Poles.

Mr. Frink reported on the matter of poles in Douglas avenue and read correspondence with the various companies concerned. The telephone company had practically no poles in the avenue. The company pointed out that iron poles would be very expensive. The C. P. R. had no poles in the city limits. The Western Union said it would consider any changes that would tend to beautify the avenue. The street railway and telephone company used the telegraph company's poles in the avenue. The street railway was holding a meeting of the directors to consider the matter.

Mr. Thornton, at whose request the report had been made, said he did not think the matter should be allowed to drop. It was not necessary to use iron poles, he said, and told of the use of wooden ornamental poles in other places. Mr. Bullock said that the city should take a definite stand in the matter. It should give notice that all poles should be of an ornamental design. Mr. Frink should bring in a resolution making it compulsory that all poles in Douglas avenue be of a specific design and submitted to the council for approval and that all others be removed.

Mr. Frink pointed out that the companies had certain established rights and the city would have to assume a conciliatory attitude until the present legislation had been changed.

It was ordered that the correspondence on the matter be filed. Mr. Thornton was voted authority to make arrangements for the renewing of the leases of the stalls in the city market on the same basis as last year. On motion the council adjourned.

mitted to the council for approval and that all others be removed.

Frederickton Lodge, K. of P. ENTERTAINED

Frederickton Lodge, No. 6, paid their first fraternal visit to St. John Pythians last evening, when they met with the city lodges in the Pythian Castle, and the attendance was so large that the upstairs auditorium was used. The third rank, that of knights, was conferred on seventeen St. John candidates. The Frederickton party conducted the ritualistic work which they carried out in an excellent manner. It happened that last evening was the regular convention night for Union Lodge, No. 2, but the meeting was made a joint one between Union No. 2 and New Brunswick No. 1, on account of the occasion. Chancellor Commander Harry Coleman presided and the Frederickton party was headed by C. Herbert Maxwell, son of the late Herbert Maxwell, of St. John. The other visitors were as follows: Oscar Harris, William Nye, A. B. Belyea, J. Brown Maxwell, R. J. Coombs, Fred W. Emms, Burton Davis, Gordon Foster, Albert Belding, George Tennant, C. R. Howie, Harry Gibson, Morris Williams, A. Fowler, George Haviland, C. R. Hochey, George Beatty, Percy Beatty, George Wilks, William MacKenzie, Charles Smith, P. Bearisto and Hazen McClellan.

After the ranks had been conferred the large party repaired to the lower lodge quarters, where an excellent supper was served and pipes and tobacco were passed around. There were several musical selections rendered and the meeting broke up about 1:30 a. m.

MONCTON FOR THE SHIRETOWN

(Canadian Press Despatch)

Dorchester, April 5.—At a special meeting of the municipal council this afternoon held for the purpose of considering legislation asked for by the city of Moncton providing for the separation of the city from the county, the council passed a resolution praying the legislature to amend the Moncton bill so as to make Moncton city the shiretown instead of making it a separate municipality. This action on the part of the majority of the council was satisfactory to the Moncton representatives present.

The Dorchester councillors and two others from the eastern end of the county opposed removing the shiretown from Dorchester.

WILL FIGHT ORDER TO DEPORT COUPLE FROM ST. JOHN

(Canadian Press Despatch)

Winnipeg, April 5.—On the grounds that they are "undesirable socialists," the immigration authorities have ordered the deportation of Mr. and Mrs. Joseph Mallard of Edmonton, according to information received by James Law, secretary of the Canadian workers' defence league. Mr. and Mrs. Mallard went to the old country in December. On March 31 a wire was received from Mr. Mallard to the effect that their right to land at St. John (N. B.), on their return had been challenged and they were being held pending investigation.

Counsel was engaged by the league and on Saturday last a wire was received to the effect that Mr. and Mrs. Mallard had been ordered deported. The case is being appealed by the league. Mr. and Mrs. Mallard, it is stated, have been residents of Canada ten or twelve years.

Ottawa Wants to Know.

Ottawa, April 5.—The department of immigration here has very little information regarding the deportation from St. John (N. B.), of Mr. and Mrs. Joseph Mallard, who, on their return to Canada from England were being held by the authorities as "undesirable socialists." It was announced at the department of immigration this afternoon that a request for complete information had been wired to the agent at St. John.

MISTRESS IN KITCHEN.

Judge on Servant's "Mistress" Attitude to Employer.

London, April 5.—A man servant and his wife, a cook-general who objected to their mistress being in the kitchen, were rebuked by Judge Harrington at Epsom county court today.

They sued the vicar of Christchurch, Sutton, for a month's wages in lieu of notice. They stayed two days, and then the man told the vicar that his wife would not stay in the house "where the lady came into the kitchen."

The vicar said the man was incompetent, aggressive, and unpleasant from the start, and he dismissed him for insolence and insubordination. The judge said it was monstrous for any servant to forbid his or her mistress being in her own kitchen and gave judgment for the vicar.

PRINCE NOT SLAIN

Paris, April 5.—The Greek legation here today denied reports that Prince Andreas of Greece, brother of King Constantine, had died from wounds received while fighting in Asia Minor. Prince Andreas has not left Athens, the legation declared.

NEW BUILDINGS ARE RECOMMENDED

Commissioner of Safety, in Annual Report, Urges Action on New Municipal Building and Erection of Central Fire Station.

The annual report of the commissioner for public safety, presented to the common council yesterday afternoon by Mr. Thornton, did not go closely into details, as the reports of the heads of the various departments under his charge gave complete information and he referred citizens to those reports.

The report of the chief of police showed the great amount of work done by that department and was considered most satisfactory by the commissioner. The force was now thoroughly equipped to carry on its work. It was thought essential that the policemen should wear badges in the future. Co-operation was asked of the citizens in assisting the police in carrying out the law.

The report of the chief of the fire department also was satisfactory and Mr. Thornton, in his report, recommended the carrying out of suggestions made in it, particularly in regard to overhead wires and permanent firemen. The loss from fires during the last year was the lowest for several years.

Mr. Thornton called attention to the need of a central fire station at the corner of Carmarthen street and King street east, and asked that the council give earnest consideration to the erection of such a station.

A tribute is paid, in the report, to the salvage corps for the valuable services given during the year.

Further progress has been made in compiling a new building law and he hoped that this work would be completed and presented to the council this year.

Speaking of the city electrician's work, the report said the public was becoming educated to the necessity of this valuable work, which was eliminating many fires formerly caused by defective wiring.

In regard to street lighting, no contract had yet been made with the New Brunswick Power Company, the present arrangement being the same as last year. It was hoped that the city will procure lighting at a lower cost when the electrical development at Musquash has been completed. Additional lights had been placed during the year and there were

It was hoped that the city will procure lighting at a lower cost when the electrical development at Musquash has been completed. Additional lights had been placed during the year and there were

now 379 are lights and 116 one hundred watt lights. Provision had been made for further additions as needed.

The revenue from the city market was the largest in its history, the total receipts being \$21,707.62. Owing to painting and installation of additional equipment, however, the net earnings were not so large. When the market had been equipped with new windows, sashes, doors, etc., in Charlotte and Germain streets, the building would not require any further great expenditure for some time. Other buildings under the department of public safety had received considerable repairs.

The department of militia paid the city \$12,000 in settlement in regard to the exhibition buildings. Extensive repairs have been made to the foundations and the buildings generally. About \$10,000 had been expended on this work.

The commissioner recommended that when the cost of labor and material was reduced arrangements should be made for the erection of a municipal building on the old court house block, sufficient to accommodate all civic departments, according to plans that have been prepared.

The free public library building has been painted, sashes and doors overhauled and painted and the copper roof repaired at an expenditure of about \$1,100.

He expressed his appreciation to the non elective heads and employees of this department for their assistance and co-operation.

NEGROES FORM A KU KLUX KLAN

Dallas, Tex., April 5.—Anonymous letters were received by local newspapers and the sheriff of Dallas county, today, saying that an organization of negroes had been formed here under the name of the "Black K. K. K." to retaliate for the whipping of Alexander Johnson, a negro bell boy, last Friday night, by members of the white Ku Klux Klan.

The letters threaten death to any white man who attempts to molest negroes.

Johnson was taken into the country, Friday night, severely whipped and the letters K. K. K. branded on his forehead with silver nitrate, following the filing of charges against him in a local court for alleged relations with a white woman.

breaks, initiated them into the history and causes of world revolutions.

"The course of world revolution," Mrs. Webster stated, "was always called reaction."

It was ridiculous to say that in opposing revolution one was opposing labor. The fact was that those against revolution were fighting with and for Labor against a great conspiracy.

England, she added, had become the objective of world revolution because she was the great bulwark of civilization.
