

A. O. MacRAE IN VICTORIA

Striking Addresses Before the Kiwanis and Gyro Clubs.

Dr. A. O. MacRae, principal of West-
ern Canadian College, Calgary, who is
brother of R. J. MacRae of this city
son of the late Rev. Dr. MacRae,
was in Victoria last month and ad-
dressed both the Kiwanis and Gyro
clubs. The following report of his ad-
dresses before the two clubs taken from
"Victoria Times":

In an able talk on Citizenship, be-
fore the Kiwanis Club at luncheon at
Dominion Hotel today, Dr. A. O. Mac-
Rae, principal of the Western Cana-
dian College, Calgary, made a strong
call for greater realization of the ideal
of co-operation and co-operation of effort
and that progress would result for
"community, nation and Empire. In
brief, but forceful address, the
speaker drew a strong contrast with
attitude of Anglo-Saxons to those
of Germans, who he stated had
up their nation to the point it
before the war by a unity of ef-
fort that came from close co-operation
along lines of com-
munity, nation and Empire.

As an Empire, prior to the late war
failed to take cognizance of the
extraordinary co-operation of the
life in Germany. Germany
had the principle that it did, but
it was wrong in spirit. It
through the co-operation in com-
munity, nation and Empire, and
of large loans at low rates of in-
terest, fostered its commerce to its
own progress. It failed though, as
spirit was wrong.

Yet there are many things we could
learn from that country and its
achievement at the time of the war
percentage of people in cities to
be on the land was so nicely bal-
anced that 32 per cent. were in the
land and 68 per cent. on the land. In
land 80 per cent. were in land cities
every 20 per cent. on the land. In
land today 60 per cent. are in the
land and only 40 per cent. in the
land is too much; it will not work
ideally.

The Anglo-Saxon too long has fol-
lowed the training of the intensely in-
dustrial to the exclusion of co-
operation. Every man for himself
and the cry, and it will not do. Clubs
as you are trying to break down
intensely individualistic strain to the
co-operation in civic affairs, in-
ward and Empire matters may
w. The old petty jealousies must
away, and we must get down to
co-operation.

Dr. MacRae spoke of the great ex-
pansion in educational matters which
was stirring reading and thinking, and
issued a warning that unless there was
some ideal there would be trouble ahead.
"Will the proletariat, on getting more
education, break out into class wars?"
asked the doctor.

The speaker then referred to the great
efforts of the medical profession in
curing men of tuberculosis and other dis-
eases, but wondered whether the man
acquiring a clean body had his aspira-
tions satisfied.

Dr. MacRae wondered whether or
not there was any definite aim in the
life of the British Empire at present and
wondered how long nations would
continue to deal with each other by dis-
parity and duplicity.

Has Not Worked Out.
"Nationhood has not worked out, or
we would not have had that awful catas-
trophe that started in 1914," remarked
the speaker.

"As young men if we haven't any de-
finite ideal but dollars, we will be lost
in materialism," warned Dr. MacRae.
The speaker closed his address with
a word picture two thousand years back
when a remarkable people made a re-
markable choice. There were two men,
he said. One typified humanity and the
other was sacred, good and pure. He was
Jesus Christ. The other man typified
forces and violence. He was Balaam.
The people chose the latter, the robber.
"That has been the choice made by
most nations in settling questions all
down the ages to the present," com-
mented the doctor. He added that the
world must find a form that will satisfy
the infinite and aim for brotherhood
and fatherhood and then fill it in."

Instead of doing things today, the
wise man did them yesterday.

without, but ever from the lack of force
or co-operation within. There is a great
call for such clubs as Kiwanis. We have
to bind ourselves together to progress, we
must unite to promote the welfare of the
Empire.

Amazing Daring.
"The spirit of fair play and the
amazing daring is what made the Anglo-
Saxons as powerful as they are today.
The name and fame for fair play won
by the servants of the Empire in every
colony and dependency under the flag
was of infinite value when the day of
trial came. An Englishman's word is
good in Arabia, and that came from the
fair play and truth to their word of the
Britishers there. The speaker here
related how the Arabs had stayed with
the British during the late war in spite
of money bribes offered by the Germans
to induce the natives to oppose the
British advance into Arabia. When
it came to a question of that or German
money," continued the speaker, "that is
the spirit we must have. We must
organize to quicken up citizenship, and
to link education up with the needs
of the day. Our mines and mills are
not the resources of our Empire, but
the people. Historians are not in-
terested in our bank accounts, nor in
our business, they ask 'what kind of
men did you turn out' and that is the
test."

Solid Rock of Character.
"We need leaders, men in public life
who will do something for the people.
It is time we quit playing at politics, we
need leaders to solve our problems— and
our problems are only to be remedied
by the application of the primary de-
cisions of justice to each individual case.
"We must have our possessions on the
solid rock of character and if not
our ideals will have a harder fall than
the did one. We need today more than
ever before to face the problems of
civilization from the broad viewpoint
of citizenship."

At the close of his address Dr. Mac-
Rae was accorded an appreciative
ovation.

New Ideal Needed.
That there must be a new ideal,
something which will satisfy brother-
hood and fatherhood, if nationhood is to
be the successful, was the text of a very in-
spiring address delivered before the
Gyro Club at its weekly luncheon to-
day by Dr. A. O. MacRae, president of Western Canadian Col-
lege, Dr. MacRae, who is a Kiwanian,
is in this city on his annual visit. He
has been visiting here for the past fif-
teen years.

The speaker announced that he would
talk briefly on the wide subject of Na-
tionhood, and asked the question as to
whether or not nationhood had not been
weighed in the balance and whether it
had any definite ideals. He wondered
whether or not the British people had
really faced the matter in regard to na-
tionhood.

"What is all this business and com-
mercial enterprise about?" asked Dr.
MacRae. "What does it mean? For
what purpose are we increasing produc-
tion? These are questions which the
Bolsheviks are asking, and while you
and I may delete Bolshevism we know
that it has very definite aims, and the
question comes back, have the young
men of today any definite purpose?"

Dr. MacRae spoke of the great ex-
pansion in educational matters which
was stirring reading and thinking, and
issued a warning that unless there was
some ideal there would be trouble ahead.
"Will the proletariat, on getting more
education, break out into class wars?"
asked the doctor.

The speaker then referred to the great
efforts of the medical profession in
curing men of tuberculosis and other dis-
eases, but wondered whether the man
acquiring a clean body had his aspira-
tions satisfied.

Dr. MacRae wondered whether or
not there was any definite aim in the
life of the British Empire at present and
wondered how long nations would
continue to deal with each other by dis-
parity and duplicity.

Has Not Worked Out.
"Nationhood has not worked out, or
we would not have had that awful catas-
trophe that started in 1914," remarked
the speaker.

RECENT WEDDINGS

Jefferson-Ayer.
The marriage recently took place of
Miss Lennie Dora Ayer, of Moncton,
daughter of the late H. H. Ayer to H.
Bruce Jefferson, city editor of the Syd-
ney Record, Sydney (N. S.). The cere-
mony was solemnized in Truro by the
Rev. William Dean.

Both bride and groom are well known
in Maritime newspaper circles. Mrs.
Jefferson was formerly the right hand
assistant of John T. Hawkes, of the
Moncton Transcript, and in the last
year has had editorial supervision of
the Transcript together with charge of
the ad. contract department.
Mr. Jefferson is one of the leading
newsmen in the Province. He com-
menced his journalistic career on the
Moncton Times, transferred to the
Moncton Transcript and then back to the
Times. Later he went with the
Halifax Herald, and Atlantic Leader.
For the last two years, Mr. Jefferson
has been city editor of the Sydney Rec-
ord—the Canadian Press representative
to the island of Cape Breton.

The marriage is the culmination of
a newspaper romance to Mr. and Mrs.
Jefferson will be extended the con-
gratulations of the Maritime news-
paper fraternity. (Ex.)

RECENT DEATHS

John Kingston.
Kouchibouguet lost a highly respected
resident in the death of John Kingston
which took place at his home there on
Aug. 10. He was born in Bay du Vin
eighty-five years ago and came to
Kouchibouguet to live in his early
twenties. He was a prosperous farmer
and carried on a large lumbering busi-
ness up until the last few years. His
wife, Elizabeth Kingston, died four
months ago. He leaves seven sons:
Richard and John, of the United States;
William, Samuel, Thomas and Harry of
Kouchibouguet; James, of St. John;
also two daughters, Mrs. Percy Graham,
of Kouchibouguet, and Mrs. Hugh Un-
derwood, of Blackville. The funeral
took place on Friday and was largely
attended; interment took place in the
Kouchibouguet cemetery.

MISSING ADA TOWER SAFE

Boston, Aug. 22.—Short of provisions
and with her bottom so foul with marine
growth that she made slow progress, the
overdue four-masted schooner Ada
Tower, of Farnborough (N. S.), was towed
to an anchorage in the harbor yester-
day afternoon, and her commander, Cap-
tain John Pratt, came ashore to meet
his family, whom he had not seen in
months. There was considerable anx-
iety felt for the safety of the vessel be-
cause of her protracted passage, and
many believed she had been lost.
The Ada Tower loaded 900 tons of
salt at Torrevieja, Spain, and left there
ninety-two days ago. She was a full
month overdue when she reached port.

hands each day and see how freckles
and bluish black spots and how clean,
soft and rosy-white the skin becomes.

CHANGE OF WATER WAS THE CAUSE OF DIARRHOEA

People moving from place to place
are very much subject to diarrhoea, on
account of the change of water,
