VARIETIES OF GRAIN CROPS TO GROW

For twenty-six years the Dominion experimental farms have been experimenting with grain crops at the various stations distributed over Canada, trying to learn which varieties give the best results in the different provinces. Not only have the best known varieties produced at other places been grown side by side but at the central farm at Ottawa new varieties have been bred and when found desirable, perpetuated and distributed to growers.

For the information of the Canadian farmer the more important results of the season of 1913 at the different farms have been put together in summarized form and issued in Bulletin No. 74. There are included in this book recommendations as to varieties to grow and methods of production to follow that should prove of great service to growers in all parts of Canada.

Referring to "Marquis" wheat which was bred at Ottawa the bulletin says:—"Marquis produces very large crops, has usually good straw and is more resistant to rust than most of the common varieties." A large edition of this bulletin has been printed so that all who desire copies may secure them by applying to the Publications Branch Department of Agriculture at Ottawa.

AMERICAN FLAG AND MOVIES

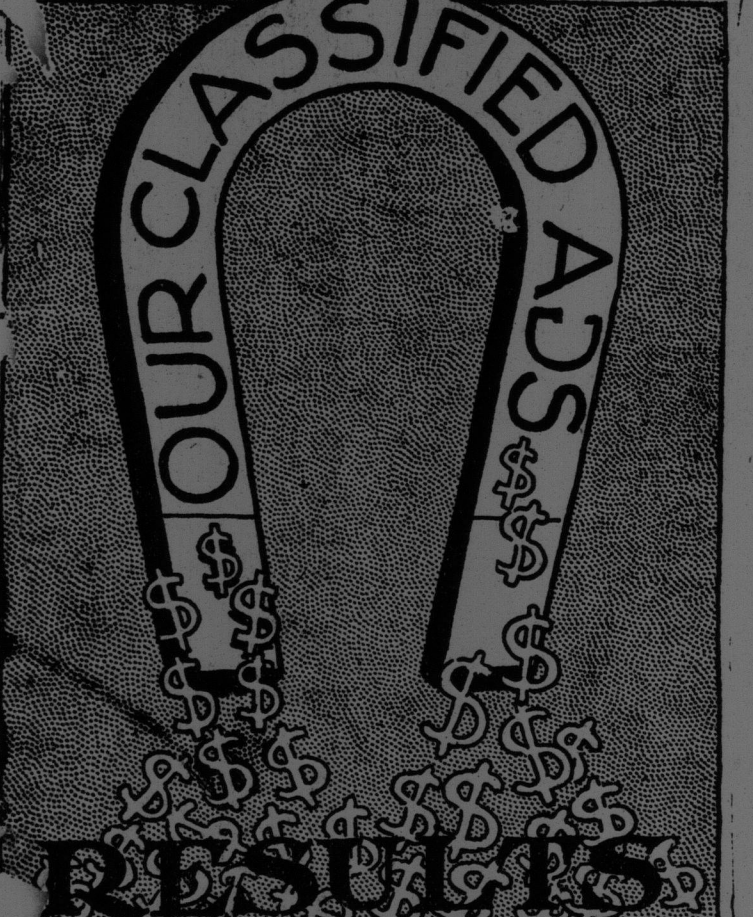

To the Editor of the Times:
Sir—I read in your Evening Times that some officials in public life object to the American flag being shown in ring picture shows to young people. I seem to think that it is not right to do so. Now, Col. Sam Hughes is trying to bring every young man in Canada to have some knowledge of military and to defend the flag, his army and home, and every per-

son that is acquainted with military life knows that the first duty of a soldier is to respect all flags, and I believe it should be taught in the schools to respect all flags, and fear for the cause of justice. No distinction there. You will find the same native Indian in Canada as in the United States, and the forefathers of the American and Canadian are from the same lands of old; and our own brothers and sisters and children help to populate that country as the Americans do Canada. I do not believe it is right to create ill feeling. The flag is a harmless piece of silk and does not, say a word, but it is the ill-feeling in people that does the mischief. Yours truly

LAW SUITS OVER THE SALE OF CAMPOBELLO

Eastport, March 22.—The affairs of the Campobello Land Co. are in litigation and Howard Grimmer, barrister at law, of St. Andrews, has recently been appointed receiver to take charge of the assets. It looks now as though the island would revert to the former owners, as Alex. Porter, one of the first promoters of the island as a summer resort, holds a large claim against the company. It is not expected that the affairs of the company will in any way interfere with the opening of the Inn at Westpool this season, as this property is now owned by private interests and is in no way connected with the affairs of the land company.

Man's Misery Promptly Banished
(From "Man's Maladies")
A certain sort of misery which causes a man to become ailing in manner, timid, suspicious and nervous without real warrant, can be readily banished by a systematic nerve treatment which can be followed out in the privacy of home and restoration of a normal or natural condition speedily ensues.

A man feels and knows when he is not getting out of life all that it holds, and this knowledge makes the misery which occurs with such symptoms as unsteady gait, weak voice, drooping eyes, cold extremities, loss of flesh, loss of self control, lack of self esteem, pains in the back and back part of head, shooting pains, heart palpitation, nervousness, hollow eyes, sunken cheeks, colorless lips, dizziness and trembling.

The requirement to overcome these dreadful symptoms is a restoration of power and strength to the nervous system which has been poorly nourished, or abused by thoughtless eating, drinking or social duties, perhaps superinduced by over-work. Keen, strong, sensitive nerves which carry every sensation or emotion to the brain centers of consciousness can and should be the possession of every living individual.

Let this prescription be used and the results will surely reward the efforts. Obtain of any good druggist, three ounces of syrup sarsaparilla compound, in a six ounce bottle. Add one ounce of compound fluid hallowort, shake and let stand for two hours, then add one ounce of tincture cadomene compound (not carbanum) and one ounce of compound essence cardiol. Mix. Shake well and take a teaspoonful after each meal and one when retiring. The three last named ingredients are specially prepared and powerful concentrations, much used in various prescriptions, but contain no opiates to harm the system.
