Sable Island, southeast wind, 6 miles, cloudy. Point Lepreau, east wind, 8 miles, thick fog at 11 a. m. Highest temperature during last 24 hours, 52. Lowest temperature during last 24 hours, 33. Temperature at noon, 44.

LOCAL NEWS.

Beginning on May 1st, a partial suburban service will come into effect on the I. C. R. A train will leave St. John at 8:15 p. m., reaching Hamble at 7:15. Returning will leave Hamble at 6:50 a. m., arriving in St. John at 7:45 a. m. The full suburban service will be effective on June 1st, and will be the same as last year.

Some days ago the Star stated that Geo. H. Evans was fitting up for F. E. Sayre, a new gasoline launch, which gave promise of being very speedy. The boat was launched in Market slip on Friday last, and those who saw her skimming about the harbor after the launching and on Saturday, have no hesitation in saying that the Star's prediction was correct. Mr. Sayre has every reason to be proud of his boat and Smalley engine.

One of the largest marine gas engines to be brought to this province, is now in the warehouse of Geo. H. Evans, 62 Water street. The engine is a 35 H. P., four cylinder Smalley, and is for the Colonial Copper Co., of Cape D'Or, N. S., and will be placed in their new tow boat. Mr. Evans shipped last week a duplicate engine to A. C. & C. W. Elderkin, of Advocate.

Interest in the unique entertainment in St. David's school room this evening under the auspices and in support of the Free Kindergarten is general. Tickets have been placed at Nelson's, Smith's, Wade's, Travis's, Hawker's, Brown's, Dick's and Padlock's drug stores and at Simonds's and Gilbert's groceries, so that all sections of the city can be accommodated. The entertainment is called a Toy Symphony and Wax Works exhibition in which some of our best known local performers will take part. The object is a most worthy one.

EVERY DAY CLUB.

The Every Day Club has leased from W. S. Barker the Victoria athletic grounds for the season of 1907. The club will endeavor to make these grounds of the greatest use to the greatest number, consistent with raising enough revenue to pay expenses. They are not out to make money, but to promote healthy sport. Doubtless an arrangement will be made with the league of base ball teams representing various church and other associations so that the latter may enjoy the privilege of the grounds. If members of the Every Day Club take hold in earnest they can make these grounds of more value for play and athletic sport purposes than they have ever been in the past, and thus confer a great benefit on the youth of the city.

Repairs to the fences, etc., will not be made until a settlement of the question as to damages has been effected between Mr. Barker and the late lessee.

GRAND BAY PEOPLE WILL OFFER SEVERAL PRIZES

For Competition in This Season's Salmon Boat Races—Meeting of Westfield Association Tonight.

The annual meeting of the Westfield Outing Association, postponed from last Friday, will be of rousing interest. The tennis, boating sports and house committees will be appointed, and already much interest has been aroused. In tennis especially there is a decided boom. The association has secured grounds and arrangements are now being made for filling in and rolling for the courts. There has also been a proportionate revival in boating, and the salmon boat series will be the most exciting races on the river this year. Grand Bay people are alive to this and are offering a bunch of prizes to have some of the races sailed on the bay. A syndicate is being formed for the purpose of securing a boat to compete, this course being adopted partly because an expert sailor is to live at Grand Bay during the summer whose services will be available. Another boat, said to be on speedy lines, but of which little information can be secured will be ready. A prominent member of the R. K. Y. C. will offer a trophy for competition between salmon boats. The cup will be in addition to the regular prizes which the club offer. The Dumfrieswell for competition in 1907 will be on exhibition at the meeting this evening. It is about fifteen inches in height and of a very pretty design.

WON HIGH HONORS

Miss Florence Estabrook, of the West Side, who finished her freshman year at McGill last year with most of the class honors, has achieved a like distinction this year also. Miss Estabrook has come out with the highest general standing for the year, having taken the first rank honors in Latin, first rank honors in Greek, prize in Latin, prize in Greek, prize in English, prize in history and economics, and the Annie McIntosh prize. Miss Estabrook will be remembered, graduated from the St. John High School with high honors, a few years ago, captured the medal at the Normal School, where she took superior license and has also won two scholarships at McGill. She is a daughter of Capt. Estabrook, of Winslow street, Carleton.

LOTS OF LOGS GOT AWAY YESTERDAY

Men at Indiantown and in the Harbor are Earning Good Wages These Days.

The ice and rapidly rising water in the river broke down a large quantity of logs yesterday, and the Indiantown and harbor boatmen made excellent pay picking them up. Some of the boats followed the logs through the falls and landed their catch along the shore, but a great quantity of the lumber drifted out to sea. At Indiantown during yesterday morning one boatman gathered in no less than 100 fine logs for which he will receive about twenty cents each.

The water today is rising slowly but still a large number of logs are running. Persons picking up logs below the falls will please deliver them at the wharf where Mr. Day will take charge of them. Those caught above the falls will deliver at Marble Cove to Henry Logan.

HOUSE AT TORRYBURN BURNED THIS MORNING

It Was Owned by G. H. Peters' Sons and Was Insured for \$700—Had Just Been Vazeler.

About 1:30 o'clock this morning W. E. Newcombe, Proprietor of the Clairmont House at Torryburn, was awakened by a man who was driving past who told him that a house in the rear of the Clairmont was on fire. Mr. Newcombe aroused the neighbors. The burning building was the property of G. H. Peters' Sons. The flames had gained such headway before the fire was discovered that the little crew on duty could not save the place, and in about an hour only a pile of smouldering debris remained on the place where a pretty two story pitched roof dwelling had been. The building had been occupied by R. D. Taylor who removed the greater portion of his furniture to Renforth, on Saturday. Among the articles that were consumed in the fire were two bicycles. The barn which stands near the house was saved as the wind blew in the opposite direction. The occupants of the Clairmont House were kept busy for a time preventing the hotel from catching fire, as the burning cinders covered the little court on the roof. The property was insured in the Commercial Union for \$700.

MAKING THINGS HUM IN LUDLOW ST. BAPTIST CHURCH

Rev. E. C. Jenkins Said to be a Hustler—New Members and Lots of Money are in Sight.

Rev. E. C. Jenkins, of the Ludlow street United Baptist church, does not believe in religious advertising, but from some members of the church the Star has learned that during the past few months Mr. Jenkins has met with a large measure of success in his work. He entered upon his pastorate late in December, and at once set about improving the financial condition of the church on which he found a mortgage of \$1,200 and a floating indebtedness of about \$200. A campaign was organized for the raising of funds, and in a very short time sufficient was secured to pay off the floating debt and to form the nucleus of the mortgage fund. Following this, Mr. Jenkins began a series of special services to which he has for the past seven weeks devoted the greater part of his attention, being compelled on this account to somewhat neglect his financial matters. The special services came to an end a week ago, but during the time they were carried on, twenty-three were added to the membership of the church through baptism, while half a dozen others joined by letter. There will be baptism next Sunday's service. Since the special meetings came to an end, Mr. Jenkins has, with the assistance of a number of church workers, resumed his collecting business, and it is announced that on May 15th the mortgage will be burned. There is no reason to believe that there will be any shortage in the amount subscribed.

THE LAST PASSENGER STEAMER CAME IN TODAY

C. P. R. Liner Montreal Brought 1088 Immigrants from Antwerp.

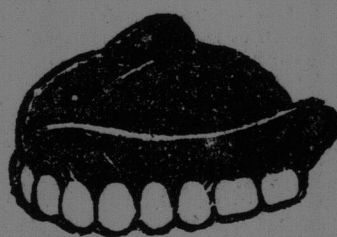

The C. P. R. steamship Montreal arrived outside the island at 10 o'clock this morning. She docked at Sand Point shortly after one o'clock. The Montreal came direct from Antwerp and brought 1,388 steerage passengers, all of whom will go west, with the exception of about twenty-five, who are bound for the States. The arrival of the Montreal brings the C. P. R.'s passenger service to a close for this season. No more passenger boats will arrive. Among the 1,388 passengers, little sickness is reported. It is expected that the passengers will get away on a special train early this evening. They were landed at two o'clock.

DEATHS.

HUSTON—In this city on the 29th inst. Kennedy Huston, at his residence, 43 Marsh Street, leaving a wife and two children to mourn their sad loss.

NORTH END PEOPLE IN THE WEST

It is understood that Rev. David Long, formerly pastor of Victoria street Baptist church, North End, finds it necessary to remove from Calgary, Alberta, to the Pacific coast because of his wife's health. Letters to friends in St. John state that Mrs. Long's health has not been at all good since her removal to the western climate. It is also stated that James R. Andrews, formerly carriage builder in North End, will shortly come east again. It is said to Toronto. Mr. Andrews left for Calgary last fall with his family, including wife, two daughters and son. North End people will be very well pleased if the popular exhibition will decide to return to this city. Mrs. Frank Alward, of 101 Victoria street, will shortly leave for the west to join her husband who has been in that territory for over a year.
