TAMMANY RULE.

Mr. Richard Crokes, the famous Tanmany "bess," of New York, was interviewed list year on the subject of boodle as a factor in politics. Mr. Croker frankly stated his adherence to the doctrine that to the victors hel-long the spoils, and with equal franksigheld the use in election camthe resources of civilization." citizens of the greatest busimess capacity and the greatest wealth would have the minimum politics, and therefore the convol of the dections fell into the hands of persons who were sahled to influence of one kind or another, and not averse to personal gain. If they were to exert themselves to bring about the success of one party or the other

they expected to be paid for it.

The record of Tamman, as it is being disclosed at the present investigation into the agains of New York city government illustrates very well the application of the Groken theory.

Mr. Croker was himself called before the Mazet committee last week and admitted that candidates for judgeships have to put up large sums of money, and when elected are expected to appoint the referees and other officials nominated by the Tammany bosses. Ex-Judge Daly confirmed this by stating to the committee that he had at different times contributed \$10,000, and was finally dropped because he insisted on making appoint ments to suit himself. Mr. Croke need not look for a re-nomination Another ex-judge testified to having paid \$10,000 to Tammany.

. It was shown by Mr. Croker's own evidence that on auction firm in which he is a narbner has since 1892 got nearly all the sudicial sales. This patronage went to them through the judicial selections of Tammany Tammany elected the judges, the judges appointed Tammany referees, and these gave the business to Tam many auctioneers. When asked if i selecting a man for a judicial nomi-nation he was not working for his own pocket, Mr. Croker, tersely responded, "All the time."

It has been brought out in this in vestigation that Mr. Croker's son took \$17,000, worth of stock vin alcomp that was looking for city contracts and was paid \$2,500 a year as secre tary of the company, though he is only twenty-one years old and knes nothing whatever about the business. The young man also stated in his evidence that he had \$6,000 stock in a newly formed construction company, for which he had not paid any-

The investigation is still in proand promises to be a very searching one. Mr. Croker has one consolation. If he is put on the rack by an investigating committee he is still the master of the New York democracy, with power to nominate and elect mayors, judges, public contractors and other great men.

Have you ever thought that your chronic constipation caused all your other wretched feelings? Perhaps your hands and feet sie cold. Or, you feel dill and heavy during the day. You can hardly Reep awake after a hearty meal. Your skin is either a muchy sellow or covered with uosightly pimpi-s. Perhaps you feel blue, without energy, and generally iniserable; or your tood doesn't taste good. Yet, perhaps, you feel sometimes hungry, at other if ne no appetite at all. This is because the waste matter, which should be promptly thrown out, is kept in; it poissans and disorganizes the whole system. Chronic Constipation is particularly had at this this time of year. The body should be now getting rid of the accumulated poisons and retuse of he winter. If it does not succeed it means a low state of health all summer. It cannot succeed unless the bowuls are open and regular.

Chronic Constipation comes from a liver which, is diseased and so cannot produce the necessary Bile. The Bile is Nature's Purgative. Artificial purgatives can asver outs. The more you use them the more you have too. They usually do much harm. Notice how weak they make you feel. You cannot keep on draining your system like that without suffering for it.
