

DIARRHOEA, DYSENTERY, SUMMER COMPLAINT, COLIC, PAINS OR CRAMPS IN THE STOMACH, CHOLERA MORBUS, CHOLERA INFANTUM and ALL LOOSENESS OF THE BOWELS

May be Rapidly and Effectually Cured by the Use of that Old and Sterling Remedy

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

It has a reputation of over 65 years' standing, and never fails to either relieve or cure.

Do not be imposed on by any unscrupulous dealer who wishes to substitute the so-called Strawberry Compound for "Dr. Fowler's," as these no-name, no-reputation substitutes may be dangerous to your health.

DO NOT BE MISLED TO NEVER BE WITHOUT IT.

Mrs. Joe Parrot, Campbellton, N.B., writes:—"During the hot season last summer I had a bad case of diarrhoea. I tried several medicines with no benefit. At last I tried Dr. Fowler's Extract of Wild Strawberry. The first bottle nearly cured me, and the second did. I was so satisfied with the medicine that I made up my mind never to be without a bottle of it in the house in case of emergency."

The original is manufactured only by **The T. MILBURN CO., Limited** TORONTO, ONT. **Price 35 Cents.**

Chiclets

Thousands of people chew Chiclets who would not use any other chewing gum. Dainty morsels of the finest chewing gum, crisply coated with the pearly peppermint. Not the horse-mint or the swamp-mint—but *Mentha piperita*—the peppermint—the true mint—delicately fragrant, cooling and salutary.

Chiclets

REALLY DELIGHTFUL

The Dainty Mint Covered Candy Coated Chewing Gum

Chiclets for Dry Mouth and Throat.—In the dry climate of Canada, singers and public speakers find Chiclets a perfect specific in keeping their mouths and throats moist and preventing huskiness of the voice. Chiclets are used freely by everybody. The refinement of chewing gum for people of refinement.

Look for the Bird Cards in the packets. You will find one beautiful bird picture in each packet of Chiclets. Send us any fifty of these pictures with ten cents in stamps and we will send you—free—our splendid Bird Album.

For sale at all the Better Sort of Stores, 5c, the Ounce and in 5c, 10c, and 25c. Packets

CANADIAN CHEWING GUM COMPANY, Ltd. Toronto

ANOTHER LITERARY FEATURE TODAY AND TOMORROW

"MARTIN CHUZZLEWIT" AT THE NICKEL

Charles Dickens' Masterpiece

Three Magnificent Edison Reels

FOLLOWING CLOSELY UPON OUR OTHER EXCELLENT STANDARD FICTION SUBJECTS, this story will doubtless arouse a great deal of interest among booklovers. It is a most carefully planned picture, consuming a whole hour in the showing of it. Edison's best players delineate the characters with absolute faithfulness to the book and the costume and scenic effects are lavish and true. The story is too well known to refer to it at length. As a source of entertainment and a delightful way of "reading" a charming fiction—though really a life-study—"Martin Chuzzlewit" will send you home pleased and edified.

Miss Betty Donn and Mr. San Souci in Songs

Programmes Start at 2, 3, 4, 7, 8 and 9 P. M.

For use in summer time ice boxes in straw hampers seem quite popular. They come in three sizes, and while they do not keep ice for a long trip they are very good for short runs.

Soft plaid straw collapsible hats, with shingles to match the darkest color in the straw are much used with dust coats.

A very swaggy pongee dust coat is lined with black and white dotted forlaid. The border facing the reverse shows the larger sized dot. The buttons are of pongee with black rim. It is a full raglan model and very stylish.

Dust coats of Italian woven silk are the prettiest ever. They are in the full raglan model and are in all of the best colors. They are soft and clinging and very pleasant to wear.

SPECIAL ATTRACTIONS BOOED FOR EXHIBITION

Aeroplane Flights, Japanese Acrobats and Big Musical and Dancing Acts Features of this Year's Amusement Programme--Bombardment of Tripoli the Fireworks Feature.

Quietly but effectively plans for the annual exhibition in this city have been going on for some weeks past. The executive committee, at which Vice-president O'Brien has been presiding has disposed of a large number of important details and Manager-elect Horace A. Foster is now in the thick of the fray. The publicity department is again in the hands of W. H. Golding. An office staff is at work, the price lists are broadcast over the country and spaces in the buildings are being allotted with most encouraging rapidity.

The intervention of Old Home Week made it unwise to proceed with advertising plans other than the distribution of price lists as managers might have had the effect of nullifying the other. However now that the Old Home Week affair is over a thoroughly businesslike and comprehensive telling of the exhibition story has commenced. The exhibition of 1912 is assured already of success as an entertaining feature, the exposition phase of it depends upon the final reckoning of exhibits and the financial success will be a matter in which weather and fates will play important parts.

Has Up-to-Date Equipment.

At the outset the big show has the advantage of having an up-to-date equipment—fruits of the Dominion Exhibition grant. A tidy surplus of that show lessens the stress this year but already large sums have been appropriated for strong free attractions. Toronto has shown out by years of experience that in order to make commercial shows a success, the holiday-making or "circus" element must be strongly featured. With this leaf out of the Queen City's notebook the St. John Exhibition Association has booked up a magnificent line of attractions to be shown in the open air and in the buildings.

The particularly strong card this year will be the aeroplane flights of Monsieur Emil Matusch, of France. This intrepid birdman will fly in his biplane twice daily, at high noon and at sunset, when it is claimed the atmospheric conditions are best suited to flying. He will make two tests, an altitude flight and a distance flight. The starts will be made on the military parade grounds, (barrack green) and will last a considerable length of time. Matusch is well known in aviation circles and despite a couple of serious accidents, continues his hazardous research of the air.

Big Musical and Dancing Act.

Next in the order of first class attractions is the Neapolitan Troubadours.

The Fireworks Programme.

The fireworks section of this year's show goes even a step further than the notable pyrotechnics of the Dominion Exhibition. The piece de resistance is to be called "The Bombardment of Tripoli," a set device over 100 feet long with plenty of action, warships, forts, and terrific detonations. There are seven other set pieces—comic, allegorical and patriotic—besides a list of 53 different kinds of illuminations, showers and a blaze of continuous fiery glory for nearly an hour.

Band concerts, two amusement halls, a big "Ballyhoo"—in other words, the Pike—stock parades, morning and evening, and a variety of other things will fill out the show equal if not superior to any other held here from the standpoint of the patron who is looking for a real good fiddly time. And the management impresses the fact, upon St. John people particularly, that the one price of admission includes all the attractions herein mentioned, except the concession shows indoors.

Work is going on among the buildings and upon the grounds fixing things up generally for the week of August 31-September 1, set device over 100 feet long with plenty of action, warships, forts, and terrific detonations. There are seven other set pieces—comic, allegorical and patriotic—besides a list of 53 different kinds of illuminations, showers and a blaze of continuous fiery glory for nearly an hour.

NEW DEFENCE COUNCIL SURE

Generally Supposed Dominions Will Have Place on Empire's Defence Board—Minimum Contribution Suggested.

London, July 16.—A statement regarding the progress of the negotiations between the Canadian ministers and the Imperial defence committee given out by an apparently well-posted source.

"If the Canadian ministers were in a position to speak, there is not the slightest doubt that they would say that the aims of Great Britain, with regard to naval requirements are modelled to meet German expansion at sea. That has been the keynote of the representations made by the British ministers, which have been presented in such a conclusive manner that the Canadian cabinet is absolutely convinced of the danger in prospect."

"Mr. Borden particularly, it is learned, put a series of questions in order to elucidate the real invariance of the naval menace and the requirements of the Admiralty to meet it. He took nothing for granted, and in a result, voluminously vouched for facts are now in his possession, including technical explanations for naval experts, dealing with the strategic position and structural recommendations with regard to type of ships required."

"It is generally believed in inner circles, that the granting to Canada and the other dominions of a place in a remodelled committee of Imperial defence has been practically settled as a matter of principle, but the details have still to be worked out. Just as the Canadian premier declared that Canada would not be an adjunct to the British Empire, so has he insisted on assurances of the same and especially in connection with the matter of the Dominion representation in the councils of war."

The Pall Mall Gazette, the vigorous tariff reform London newspaper, now edited by John Garvin, publishes an apparently inspired message, which says:

"The naval arrangement will provide for \$7,500,000, as a minimum contribution to the navy."

"In return Canada has not put forward any requests, but it is understood that the British government will do its best to meet Canada's requirements with regard to certain transportation matters such as granting a subsidy towards a steamship line between Canada and the West Indies; and also a subsidy towards the All Red Route steamship line which has already occupied public attention in both hemispheres."

"In the latter case the sum suggested was \$250,000 a year, a contribution that it shall be at All Red Steamship route, and that the money shall not be given to any line now in existence."

RAILWAY COMPANY HAS NOT ACQUIRED EXHIBITION SITE

Report that St. John and Quebec Company Had Taken Over Woodstock Grounds is Denied.

Special to The Standard.

Fredrickton, July 16.—Ross Thompson, chief engineer of the St. John and Quebec Railway Company, this morning said that the report published in St. John papers to the effect that the company had purchased the Woodstock exhibition grounds for railway purposes, was incorrect.

There is a possibility, Mr. Thompson said, of a local company being formed at Woodstock which will purchase the property on a speculative scheme, sell the right of way to the company and also whatever land the railway needs for its purpose, at a price pro rata with that paid for the whole property, and then cut the rest of the land off and sell it.

"If that is not done," said Mr. Thompson, "we will expropriate what property we need."

RESUMPTION OF ARCHBOLD CASE SAVES PRESIDENT

Resolution Rebuking Taft for Attitude on Lorimer Case Shelved by Consideration of Other Impeachment.

Washington, July 16.—Senator Bailey's resolution to put the Senate on record as rebuking President Taft for his attitude and public utterances on the Lorimer case, was kept from a vote in the Senate today by the resumption of the Archbald impeachment case, after Senator Bailey in a two hour speech had arraigned the President severely.

Brodie's Handy Ammonia

Lightens the work of keeping kitchen, bathroom, closets, woodwork, windows and dishes clean and sanitary. Delightful in the bath. Be sure you get Brodie's—the cloudy Ammonia in the big bottle.

A. W. HUGHMAN LIMITED, Montreal.

Who Can Tell What Grandpa Dreams?

MERCER AND TORONTO PLAY DRAW

Philadelphia, Pa., July 16.—Scoring 320 runs for the loss of only five wickets in the second innings, the Mercer Cricket Club eleven today succeeded in making a draw of their match with the Rosedale team, of Toronto. The Canadians had scored 300 runs when they finished their first innings today, while the home team has only accumulated 100 on the previous day in their first innings. Being a two day match, the game was drawn.

DINNER AND CARNIVAL AT STOCKHOLM

Stockholm, July 16.—The palace tonight was the scene of a state banquet which proved a fitting ending to the main part of the Olympic meeting. King Gustav entertained 400 guests in the grand hall. The King and Queen and the Crown Prince and Crown Princess were seated at the head of the hall, the guests occupying two long tables below. The 400 included the members of the Olympic committees of the various nations, the foreign diplomats, the members of the Swedish cabinet and all the visiting officers.

The King in the guards uniform of light blue walked about and conversed with many of the guests. One of the interesting features to the foreigners was the strange regalia worn by the court officials and servants. Those standing behind the royal family at the table wore uniforms of the Swedish colors, blue and yellow. The costumes of the attendants of lower rank suggest a Russian ballet, their headgear being surmounted by plumes and feathers four feet tall.

Meanwhile the public were entertained by a water carnival. All the ships in the harbor was illuminated and there was a display of fireworks. Tens of thousands of residents and many country people crowded to the water side to witness the spectacle.

The points for the individual jumping contests were announced as follows: Carion, France, and Von Kersch, Germany, 186 each; Deblommsert, Belgium, 185. On the jump off Carion was declared the winner.

The total scores for swimming and diving as officially announced are: Germany, 22; Sweden, 17; Australia, 14; Great Britain, 12; United States, 9; Canada, 6; Austria, 1.

Most of the German and Swedish points were scored in diving, in which Australia was not represented. Thus Australia is easily the first swimming nation.

Do You Feel Moody, Irritable, Depressed? When that Languid, Lagg, Easily-Tired Feeling Comes, Your Liver is Slow.

TELLS HOW TO CURE QUICKLY.

"Even when I was young I was not robust and healthy like other girls. I suffered from headaches, and had sort of blue feelings that deprived me of the joyful spirits and pleasures of other girls seemed to get. After I married I found I could not throw worries off like other women and those full feelings of despondency and weariness made me very unhappy. There was no cause to feel so, and my doctor said my liver was sluggish, and this accounted for my poor color, my tiredness, languor and despair. The pills the doctor gave me were too purgative, made me weaker because they were too active for my constitution. Doctors of my friends recommended Dr. Hamilton's Pills, and they were so mild and helpful that I never used a pill that acted so quickly as Dr. Hamilton's. They were so comfortable to use, I was afraid they might not help. But in a week I knew they had been actively engaged in cleaning up my system. They did the work of a tonic and blood medicine combined. I improved to a marvelous degree with Dr. Hamilton's Pills, and I now maintain the most perfect kind of health by using them just once or twice a week."

It is Mrs. E. V. Erlanger, well known at Gloucester, who relates the above experience. She proved what you and all others, men and women, can prove—that Dr. Hamilton's Pills are best for restoring health and best for keeping the system in perfect running order. Don't be misled into using anything but Dr. Hamilton's Pills, 25c a box, five for \$1.00, at all druggists and storekeepers, or post-paid by the Cathartine Co., Buffalo, N. Y., and Kingston, Canada.

GRITZ Porridge Does Not Heat the Blood in the Warm Months of July and August.
