STEAMER ASHORE.

Foughkeepsie, N. Y., Sept. 29.—Three hundred passengers of the steamer Mohawk, of the Manhattan Navigation Company, were transferred from the vessel early today after she had gone hard aground on the embankment of Hyde Park, seven miles north of here. The boat struck shortly before midnight, but it was after two o'clock this morning when the transfer of the passengers had been effected. Most of them resumed their journey to Albany over the New York Central railroad. In the panic which followed the grounding several passengers were slightly hurt. Many had been thrown from their berths by the impact. The Mohawk's bow sustained a great jagged hole, and she forced herself nearly thirty feet on the river bank, almost to the New York Central tracks. Officials of the line said today that the accident was due to a break in the steering gear.

Varicose Veins and Itching Piles

Usually Arise From Same Cause—Relief and Cure Effected by Dr. Chase's Ointment. Nearly everybody knows of Dr. Chase's Ointment as the most effective treatment for piles or hemorrhoids that medical science has been able to compound. So much suffering and misery arises from this ailment that one is not long in telling his friends when he has found an actual cure. This accounts for the enormous sales of Dr. Chase's Ointment. Many suffer from this trouble not knowing the comfort to be obtained by the use of this great soothing ointment.

CLOSING STOCK LETTER.

(P. B. McCURDY & CO.) New York, Sept. 29.—The market opened quiet and as a rule but little changed from Saturday's finish. Some early strength was shown in Union Pacific on the theory that the executive committee would meet today, and that some announcement would be given out in regard to the extra dividend. Its strength was short-lived, however. Heavy selling started throughout the entire list, and prices broke quite easily. Union Pacific itself lost about 2 1/2 points in a few minutes. The greatest pressure was in Steel, based on talk of increased competition from Europe as soon as the entire list yielded, but the pressure ceased at the lower level and after the first hour the market became very dull. It failed to rally at any time during the day with any vigor, however, prices ruling most of the time only slightly above the forenoon. In the last half hour, fresh selling pressure was exerted against the general list. Steel once more led the decline and prices in the final trading were at the lowest of the day. From one to two point losses were recorded on the day's trading, with heavier declines in some issues. E. & C. RANDOLPH.
