

# SCHOOL TRUSTEES WANTED FULL AMOUNT OF ESTIMATES

### Asked City to Provide the \$10,000 Cut Out of Their Estimates—City Council in Short Session Yesterday Afternoon.

A delegation from the Board of School Trustees waited on the city commissioners yesterday afternoon and asked what was to be done in regard to the \$10,000 which the city commissioners cut from the school estimates. R. B. Emerson, M. Coll and A. G. Leavitt spoke in favor of the city giving the \$10,000. It was pointed out to the delegation that the estimates had been sanctioned by the legislature and in order to use the \$10,000 the money would have to be borrowed. It was felt that the trustees could make an overdraft as well as the city.

The government will be asked to abolish the position of city recorder. Hon. J. B. M. Baxter, K. C., will be retained by the city as solicitor on a retainer of \$1,500 a year. It was pointed out by several of the commissioners that Mr. Baxter did not want the position but on the urging of the commissioners he had decided to accept it.

Commissioner Wigmore thought that \$4,000 would be plenty for repairs. He would be sorry to believe that the school buildings were in such a state that they needed repairs to the extent mentioned.

Before leaving the room Mr. Emerson asked if they were to understand that if an overdraft were made that the city would take care of it?

Mayor Frink said an overdraft was not unknown to the trustees and the money would have to be borrowed anyway. The trustees may as well borrow as the city.

Mr. Emerson: "We will take it then, as a suggestion of this council that we borrow and the city will assume the responsibility."

Commissioner Potts: "No such a thing. That was only an individual opinion."

The delegation then retired.

### Lancaster Water.

Land owners in Lancaster asked for improvement in the water service there. They suggested a stand pipe and other improvements. The petition was referred to the commissioner of water and sewerage.

Fred Ramsey asked to be reinstated in his position which he left to enlist. The letter was ordered filed.

The claim of ex-Sergeant Finley charging unwarranted dismissal from the police force was again considered. The recorder reported that he did not see that the city was liable and the claim was filed.

The McClary Company wrote in reference to field kitchens.

The commissioner of public works was authorized to buy 70 barrels of refined tar.

The Ross Drug Company was given permission to erect an electric sign over the store in King street. The usual agreement will be signed.

The council then adjourned.

### Those present at the meeting were:

Mayor Frink, Commissioners Wigmore, Russell and Potts.

The minutes of the last meeting were read and approved. The regular order of business was suspended in order to hear the delegates from the School Board.

R. B. Emerson was the first speaker. He explained that the delegation was present on behalf of the School Board in order to call to the attention of the commissioners the fact that the full amount of the estimate made for school purposes should be provided by the commissioners. When the estimates were made up every cut possible was made. The salaries could not be cut and the buildings had to be repaired so that there would be no damage suits against the board. He felt that the School Board was handicapped by the taking away of the \$10,000 from the amount asked. He thought the commissioners should give the full amount required. The trustees were supposed to carry out the terms of the school act.

Mayor Frink: "You are aware that the assessment has already been made?"

Mr. Emerson: "Yes."

Michael Coll, another member of the School Board, also spoke. He favored the giving of the full amount. There would have to be an overdraft unless the city gave the \$10,000.

### Thought Cuts Could be Made.

Commissioner Russell thought that the trustees could make cuts that would be no great hardship to them as citizens. The repairs could be curtailed. It was pointed out by the trustees that the amount asked for schools was \$3,800 below the amount sanctioned by the legislature and \$38 less than last year.

Commissioner Potts: "At the meeting down in the Board of Trade Mr. Emerson favored the cut in the estimates and he said to me that the citizens could walk over had sidewalks for one year anyway. I believe it is a reflection of the trustees if the school buildings were in such condition as indicated by the words of the chairman. If the buildings are in such condition that accidents are probable the sooner the citizens know about it the better. I would suggest that the trustees resign if they cannot carry on the work with the money available and let the commissioners run the schools. You have a lot of waste room in the buildings bringing in nothing that we could do something with."

"The commissioners have cut the estimates in their departments and we are up against no worse proposition than you."

City Not Responsible.

Commissioner Russell, as a former member of the School Board, knew that no board in the city did better work but he thought there could be curtailment in the way of repairs. The new furniture could be left over till another year.

To-day 7500 people are daily employed to keep pace with the ever-increasing public demand. The great popularity of their famous brand—BUDWEISER—due to quality, purity, mildness and exquisite flavor, has made its sales exceed those of any other beer by millions of bottles.
