

### The Committee To Consider The Soldiers' Question

Hon. J. A. Calder Elected Chairman Yesterday—Advisability of Asking Wider Power from House Deferred Till Monday.

Ottawa, Sept. 19.—The special committee of the house that is to consider the soldiers' question organized this afternoon and elected Hon. J. A. Calder as chairman. The committee was pretty well agreed that the reference to it be postponed until Monday, but the advisability of asking wider power from the house was deferred till Monday, on the suggestion of the chairman. At the outset, Mr. Tweedie inquired as to the scope of the committee. As he understood it, the action started from a resolution by the Calgary G. W. V. A. executive but not wholly approved. The government took the question, the gratuity would be given further. The veterans, however, wished to submit evidence as to bonuses in relation to civilian re-establishment. Presently the committee had abandoned the \$2,000 proposition. He thought they should be heard. Mr. Nesbitt said that anything with regard to the establishment generally would be in order, but gratuities could be considered only as part of the general scheme and not themselves.

Mr. Morphy proposed that the chairman obtain from the different departments a statement of their position in relation to soldiers and from the finance department a statement of financial position. The committee approved the Morphy motion. Mr. Calder moved that the matter be left over till Monday.

### ENGLISH BY-ELECTION

London, Sept. 19.—In a by-election held today in the Pontefract district of Yorkshire, the Coalition Liberal candidate W. F. Forrest, won the seat over J. Burns. Forrest polled 4,540 votes as against 3,450 for Burns.

### Vote Reaching One Hundred Thousand Mark And May Go To Half Million

Inactive Candidates' Names Dropped from List Today—Their Names Will Be Reinstated Together With Vote if They Show Sufficient Activity Before Next Vote Counting—Only One Week More of Contest.

Today's revised vote standing of candidates shows some more big jumps in vote totals and it would seem by the returns of the past week that the real live candidates are now beginning to hit their speed and some very fast time will be made between now and the close of the contest, one week from today. Only one week left in which to decide the winners of the \$10,000.00 worth of valuable prizes. A few weeks ago it looked as though it would take a total vote of about a hundred thousand to win the automobiles in each district, but with the leaders flitting with the one hundred thousand mark one week before the close makes the estimate of a few weeks ago look as though it were only a third or a quarter of what this coming week will bring out for the big totals. Oftentimes, hundreds of thousands of votes come to light during the last few hours or days of a contest and it might be a safe prediction that the candidate who carries off the honors with the greatest vote in the entire contest will poll close to half a million votes.

LIST OF CANDIDATES. District 1. Includes City of St. John. Mr. E. C. Baskin, 48 Celebration street. 97,864. Mr. Louis LeLachour, 24 Pitt street. 96,276. Mr. L. W. Nicholson, 118 Main street. 72,088. District 2. Includes Kings, Albert, Westmorland and St. John Counties (City of St. John excluded) and Nova Scotia. Mrs. Harry H. Morton, Sussex corner, N. B. 92,419. Mrs. Roy H. Little, Assagance, N. B. 92,077. Mr. James C. Petterston, E. Riverside, N. B. 80,826. Mr. R. D. Morhouse, Moncton, N. B. 42,988. Mr. G. M. Sinclair, Moncton, N. B. District 3. Includes Charlotte, Queens, Sanbury, Kent, Northumberland and Gloucester Counties. Miss A. Kathleen Woods, Weldford, N. B. 74,767. Miss Hilda F. Smith, Oromoco, N. B. 74,642. Miss Durling E. Grant, Chatham, N. B. 66,179. Miss Hilda B. Stribley, Bathurst, N. B. 39,872. District 4. Includes York, Carleton, Victoria, Madawaska and Westmorland Counties. Mrs. G. L. Inch, Maryville, N. B. 62,510. Miss Marian K. McLean, W. Florenceville, N. B. 61,809. Miss Minnie B. Parker, Fredericton, N. B. 59,070. Mr. L. Clarke, Conterville, N. B. 46,469. Mr. James Macdonald, Campbellton, N. B. 42,876. Mrs. James Brett, Sparky, N. B.

### Evacuation of Archangel Front

British Are Leaving as Smoothly as Can be Expected in View of Firmly Held Difficulties Attending the Operation.

Paris, Sept. 19.—An announcement was made at 8.45 o'clock this morning of the postponement of the evacuation of the Archangel front. The evacuation was to have taken place at dawn today. The neighborhood of Vincennes Woods, where the evacuation was to have taken place, was put under a strong guard of soldiers from the Thirtieth Artillery Regiment at 6.30 o'clock this morning. A short time after Major Cromer, commander of the troops at Port Vinesnes, and M. Paul, prefect of police, arrived, and a firing squad from the 24th unmounted chasseurs took up positions. The evacuation was to have taken place at dawn today. The evacuation was to have taken place at dawn today. The evacuation was to have taken place at dawn today.

### St. John Couple In Needham, Mass. Probate Court

Mrs. Angelen E. Beauregard Tells Court Husband Flourished Revolver Preventing Her from Attending St. John Church—Refused to Return East With Him.

Special to The Standard. Needham, Mass., Sept. 19.—Mrs. Angelen E. Beauregard, of St. John, N. B., in defendant's seat of the Probate Court, told the court that her husband, J. Edward Beauregard, of St. John, was ordered to pay her \$5 a week support. She threatened to shoot her, assaulted her, and stood in the door of her home in St. John, N. B., with a revolver, preventing her from attending St. John church. She refused to return east with him.

### City and County Under Martial Law

Gov. Hobby Proclaimed Censorship of News and Private Despatches from Corpus Christi, Texas, Yesterday.

Corpus Christi, Texas, Sept. 19.—Censorship of news and private telegraphic despatches from Corpus Christi was proclaimed today by Governor Hobby. The city and county went under martial law through proclamation by Governor Hobby. The censors are a civilian and an army officer. Efforts to control the reported death of the Bishop P. J. Nussbaum of the Corpus Christi diocese were unsuccessful today although his name was included in an official statement issued last night by the local censor. He was in New Orleans the latter part of last week.

### Clergymen Strike Was Advocated

New York, Sept. 19.—A nationwide strike of Baptist clergymen was advocated in a statement issued here tonight by Charles A. McAlpine, a member of the National Committee of Baptist Ministers.

### Organization of A Polish Navy

London, Sept. 19.—The organization of a Polish navy, consisting of 100 officers, probably under the command of Admiral Porębski, is proceeding rapidly, according to reports from Polish sources. The fleet will consist of four armored cruisers and twelve large torpedo boats. It will have a personnel of 3,600, including 150 officers, probably under the command of Admiral Porębski.

### Claimed Votes Enough To Pass An Amendment

Republicans in Senate Want United States Given Equal Voting Power With Great Britain in the League Assembly.

Washington, D. C., Sept. 19.—After the covenant of the League of Nations, a part of the German Peace Treaty, had been read today in the Senate, Republican leaders claimed votes enough to pass, probably next week, an amendment which would give the United States equal voting power with Great Britain in the League Assembly. While conceding the amendment would be adopted, the Republicans held that it would not receive the necessary two-thirds vote of the Senate.

### Treaty Given To The Bulgarians

Each of the Twenty-Seven Governments Participating in Conference, Including Rumania, Were Present.

Paris, Sept. 19.—(By the A. P.)—The treaty given to the Bulgarians was presented to the Bulgarian mission at the French foreign office this morning at 10.30 o'clock. After the delegates had assembled, Georges Clemenceau, president of the conference, spoke first in opening the session. He was followed by General Theodoroff, head of the Bulgarian mission. The treaty was signed by the Bulgarian people at the Bulgarian foreign ministry in 1914, were blamed for Bulgaria's entry into the war. The treaty was signed by the Bulgarian people at the Bulgarian foreign ministry in 1914, were blamed for Bulgaria's entry into the war.

### He Confessed To Killing Daughter

Robert Hicks, Aged Seventy-Five Years, Will Be Tried at Springfield, Mo.—Strangled Daughter Twenty-Three Years Ago.

Kansas City, Sept. 19.—Confessed murderer of his 18 year old daughter Louellen, 23 years ago, according to the officer who had him in charge, Robert Hicks, 75 years of age, today was taken to Springfield, Mo., to stand trial. Hicks was arrested at Chehalis, Wash., where he went after his daughter's death. The girl's death had remained a mystery until August 30 last when the aged man is said to have admitted strangling her with a piece of cord. It occurred at Urbana, Mo. A misunderstanding arose according to the statement Hicks made in his cell over the girl receiving young man's attention. Louellen threatened to shoot him, he said, when he objected to her suit. Then he strangled her and fled to Washington, where he since has lived, Hicks said.

### Fall Neckwear Display

Gentlemen! On the one hand, richness, elegance, riot of color, amptuous are the words to use in describing the Fall display of Neckwear ready for your eyes and throat.

On the other hand Gloves, good to have on hand at this season.

Gilmour's, 68 King St. Clothing, Tailoring, Furnishings.

### THE WEATHER

Toronto, Ont., Sept. 19.—The disturbance which was over Western Missouri last night has moved northward to Georgian Bay, causing rain in Western and Northern Ontario. Showers have also occurred in some sections of the West, while in Quebec and the Maritime Provinces the weather has been fair.

### Execution Has Been Postponed

Lenoir Was Charged With Communicating With the Enemy—Condemned to be Shot.

Archangel, Sept. 18.—The evacuation of the Archangel front by the British is proceeding as smoothly as could be expected in view of the favorable conditions attending the operation, including a shortage of shipping and river boats. The difficulties have been enormously increased, also by the fact that in addition to the soldiers thousands of civilians are being moved. Small raids against the Bolsheviks are being continued for the purpose of screening the movements of the troops and keeping the Soviet forces guessing. A number of British troops are now here ready to embark. The men are in high spirits at the prospect of returning home.

### All Ore Carrying Vessels To Tie Up

Cleveland, Sept. 19.—Complete tying up of all ore carrying vessels in the Cleveland district which includes six other lake ports between Erie and Sandusky will go into effect at six o'clock Monday morning unless the proposed walkout of steel workers is deterred, was the ultimatum issued today by George Martin, union business agent of the Lake Seaman's Union in the form of a vote of 2,300 sailors to support the impending strike of steel workers.

### HOSPITAL SHIP REACHED HALIFAX

Passengers for This Military District Expected to Arrive on Six O'clock Train This Morning. Charles Robinson, secretary of the Returned Soldiers' Aid Commission, advised last night that the hospital ship, S.S. Araguaya had arrived at Halifax with the following passengers: Lieut. Riddie, Newcastle; Lieut. Smith, 238 Lancaster street, West End; Nursing Sister Wilson, Vancouver; Pte. Myers, Hampton; Pte. Holmberg, Campbellton; Pte. Sherry, Richibucto; Pte. Savoy, Dalhousie; Serent. Weston, New Horton, Albert county.

### FATAL ACCIDENT AT GLACE BAY

Sydney, N. S., Sept. 19.—As a result of an automobile accident at Glace Bay this morning, one man is dead and another badly injured. One of the men named Harriet, passed away this evening at St. Joseph's Hospital. The town motor truck was running along Cotlette street with two boys, Harriet and Duchivier, standing on the running board. In trying to avoid a tree which projects on the street the car ran into a ditch. Harriet was caught between the car and a telegraph post and very badly injured.

### FROM FRANCE TO AUSTRALIA

Paris, Sept. 19.—(Havas).—An air plane from France to Australia will be attempted shortly by the Excelsior tourist. The airplane is to start on September 25 from Paris with Melbourne as destination. The Excelsior tourist is a biplane of the type used by the French army in the Balkans. It is a four-engine plane with a maximum speed of 150 miles an hour. The flight is expected to take about 100 hours.

### U. S. FLAGSHIP AT VANCOUVER

Vancouver, B. C., Sept. 19.—According to a wire received yesterday by the U.S. Navy, the American dreadnaught New Mexico, flagship of the United States Pacific fleet, accompanied by the destroyer Anthony and the minesweeper Albatross, is expected to arrive here Saturday afternoon to participate in the welcome to the Prince of Wales.

### Health Notes

Our country where the seasons are so sharply differentiated, winter, spring, summer and fall, has for long been noted as a very rough way, certainly, apparently, have favorite diseases, pneumonia, bronchitis, rheumatism and others are of frequent occurrence in winter, early spring than at any other time, especially late summer with us, is a special time for intestinal disease in young children, while the typhoid disease of the end of summer, autumn, and beyond, doubt, typhoid fever.

In some of these instances it is difficult to understand why certain diseases peculiarly affect certain seasons. Smallpox, for example, appears rapidly in winter than at other times because of the more crowded conditions of living. The cold weather compels a greater retention of doors of the family, and this causes an accumulation of germs. And, again, the cold induces a need of ventilation, indoor gatherings, recreation, while at this season the winter business is in full swing and the consequent intimate attention in camps actively predisposes epidemics of this disease.

Pneumonia and other acute diseases are also more prevalent in the winter and spring weather; the acute diseases of indigestion, such as cholera, and typhoid, induced largely by the multiplication of injurious bacteria, owing to combined action of heat and moisture, are not so easy to determine, however, nor is it nearly so easy to explain typhoid should be a disease so peculiarly wedded to the autumn. Libraries of books have been written about it, but the immediate explanations of this fact, but none of them are altogether convincing in call. The reasons and theories advanced are much too technical to be upon in note like this.

Whatever doubt, however, attaches to the cause of the autumn prevalence of typhoid, there is a fact at all as regards the immediate cause of the disease, its mode of propagation and its general course.

Its cause is a small vegetative growth, so small as only to be seen by a high-powered microscope, a bacillus which lives principally in liquids more especially water. It can only live, for any length of time in a quantity of water polluted with some animal substance and this is one of the greatest reasons for insisting upon the purity of drinking water. It is only in water that even polluted water containing this germ, but if the germ does not access to such water it will live multiply to an extraordinary degree for some time and create many persons who are susceptible to the disease, and who may drink water, milk, or the contrary, not requiring any further contact with typhoid. The writer has some knowledge of an epidemic of typhoid in milk, in which the milk was obtained from a cow which was kept apart from this one farm. It obtained access to the milk from an old used to wash the cans, and was multiply to an extraordinary degree for some time and create many persons who are susceptible to the disease, and who may drink water, milk, or the contrary, not requiring any further contact with typhoid.
