

able relations exist between teachers and pupils. All suitable efforts are employed that may tend to the highest moral and intellectual culture and to the development of such qualities of mind and manner as become young ladies and gentlemen.

BOARD.

Parents who are obliged to send their sons and daughters from home to receive an education will find Simcoe High School very desirable from an economical point of view. Every necessary accommodation may be obtained in private homes at rates varying from \$2 25 to \$8 00 per week. When parents or guardians wish it, the Principal will exercise a kindly surveillance over students and will assist them in selecting suitable boarding-houses.

CONCLUSION.

This announcement is respectfully addressed to the Parents and Teachers resident in those parts of the county not included in the districts of the sister High Schools of Ports Dover and Rowan. The Board feels that it can, with perfect confidence, invite and urge parents to send pupils to Simcoe, where, under the care of an efficient staff of teachers, they will receive every attention, assistance and encouragement in the prosecution of their studies and in the development of character. A year or more from home spent at school amongst one's equals in age and attainments has proved in the majority of cases to be invaluable.

Any further information desired can be obtained by applying in person or by letter to the Principal.
