**Lemon Cheese-Cakes**.—Rasp the rind of a large lemon with four ounces of fine sugar, then crush and mix it with the yolks of three eggs, and half the quantity of whites, well whisked; beat these together thoroughly; add to them four tablespoonfuls of cream, a quarter of a pound of oiled butter, the strained juice of the lemon, which must be stirred quickly in by degrees, and a little orange-flower brandy. Line some patty-pans with thin puff-paste, half fill them with the mixture, and bake them thirty minutes in a moderate oven.

**Preserve Puffs**.—Roll out puff-paste very thinly, cut it into round pieces, and lay jam on each; fold over the paste, wet the edges with egg, and close them; lay them on a baking sheet, ice them, and bake about a quarter of an hour.
