November 24, 1941

The Hon. T.A. Crerar
Minister of Mines and Resources
Ottawa Canada

MR. CROMARTY

Dear Sir:

I regret extremely that the notice of the ceremony of the unveiling of the tablet to Sir Wilfrid Laurier and the formal opening of the Laurier House at Saint Lin, Que., did not reach me in time to enable me to be present on that memorable occasion.

I can only express my pleasure that the birthplace of this famous and well-beloved Canadian statesman has been preserved for the people of Canada.

I trust that it will become a repository of many articles associated with his life, and that the house and its contents will be an inspiration to future generations of Canadians.

Sincerely yours

Chairman, Historic Sites and
Monuments Board of Canada

Mr. Sharp
