

dustrious and intelligent class of population who will be willing to work at a moderate rate of remuneration. Agricultural produce of all kinds is raised in the district, and wood for fuel, and for the requisite machinery, &c., is abundant.

The climate is remarkably healthy and favorable for working at all seasons, being neither so hot in summer nor so cold in winter as in most other parts of the province. In case it were thought desirable to use coals instead of wood for fuel to the drilling engines, a supply could always be obtained cheaply and expeditiously from Nova Scotia or Cape Breton which are at no great distance from Gaspé Bay.

I have the honor to be,

Gentlemen,

Your most obedient servant,

CHARLES ROBB,

*Mining Engineer.*
