

bestowed upon it his utmost skill, are minutely accurate portraits of the different birds themselves, and are equally as good as preserved and mounted specimens, or even better, as these last take up generally more room than most people can spare. The letter-press of the work is, throughout, based upon the Author's personal observations in the Canadian field between the years 1860 and 1876, and is filled with new and original facts relating to the distribution, habits and nidification of these birds. It also contains the observations of recent American writers on several species concerning which there has been much controversy.

The Intercolonial. A Historical Sketch of the Inception, Location, Construction, and Completion of the Line of Railway uniting the Inland and Atlantic Provinces of the Dominion, with maps and numerous illustrations. By Sandford Fleming, C.E., Engineer-in-Chief of the Newfoundland, Intercolonial and Canadian Pacific Railway. Imperial 8vo. Price \$3.00.

This book is not only a Treatise on Railway Engineering, but it contains the only extant full and detailed account of the process, extending over many years, by which a large territory was taken from Canada, and finally handed over by the Ashburton Treaty to the State of Maine. All necessary illustrative matter in the shape of maps and extracts from treaties is given, so that the work is really a valuable contribution to Canadian History, showing how the distortion of the Canadian frontier was effected, and how the present unintelligible frontier was evolved.

THE CIVIL LAW OF THE PROVINCE OF QUEBEC.

The Province of Quebec alone, among the British Provinces of America, possesses, through the French, the precious inheritance of the Roman Civil Law. This system of Law has been condensed into a Code, which, for clearness and compactness, is not equalled by the Code of any other country in the world.

The Civil Code or System of Law, and the Code of Procedure are contained in the two undermentioned volumes. They are beautifully printed on paper specially made, and in very clear type. The volumes are so small that they can both be carried easily in the pocket.
