

• RHEUMATISM. •

SYMPTOMS :

**Thirst, Fever,
Severe Pains,
Quick Pulse, Stiffness,
Swollen Joints,
Free Perspiration,
Derangement of Bowels,
Kidneys and Skin.**

THIS disease is a blood disorder with a strong tendency to inflammation surrounding the joints. When acute it is usually called inflammatory rheumatism. There is in the acute form great pain, heat, redness and swelling of the parts affected, and the whole system is deranged by fever, costiveness, and wrong action of the kidneys. Chronic Rheumatism differs from the acute form by the fever being absent, and little, if any, redness or swelling being present; it may follow an attack of acute rheumatism, or may develop slowly and last for years. Lumbago is chronic rheumatism of the back. Sciatica affects the hip and thigh, and closely resembles both rheumatism and neuralgia.

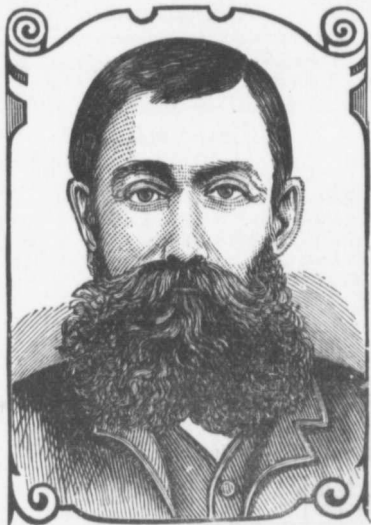

CURE.—(1) Always wear flannel next to the skin, and change damp or wet clothing without delay; (2) Regulate the stomach, kidneys and bowels, and correct the acidity of the fluids while arousing the liver and skin to remove the offending impurities. At the commencement of an attack give a purgative dose of Burdock Pills, and follow it up by using Burdock Blood Bitters, which acts upon the liver, kidneys, and skin, and regulates the bowels and stomach, thus purifying the blood and carrying out of the system the acid humors and impurities which cause rheumatism. To relieve pain there is nothing equal to Hagyard's Yellow Oil; it should be well rubbed in, and always gives great relief. Dropsy often occurs in rheumatic subjects, and this B. B. B. will remove by its perfect action on the urinary secretion.

RHEUMATISM CURED.

Hard to Pay Doctors' Bills.

GENTLEMEN.—I had rheumatism a great deal, generally lasting three or four days at a time, and was often unable to go up or down stairs without help. I found it hard to pay doctors' bills, but hearing B. B. B. cured Rheumatism I got a bottle, which gave great relief, and after finishing three bottles I am now perfectly well and able to work.

MR. T. A. HOROX.

The Best Remedy.

GENTLEMEN—About a year ago I was suffering from rheumatism in the legs; and after having tried various medicines, a friend induced me to take a bottle of B. B. B., and a better remedy for rheumatism I have never heard of. I think it a pleasure to recommend this excellent remedy.

T. A. HOROX,

Rheumatism Entirely Cured.

GENTLEMEN.—I can say that B. B. B. has entirely cured me of rheumatism in my knees and ankles. The first bottle gave great relief, and after taking three bottles I was entirely cured.

MRS. DAN. McDOUGALL,
Komoka, Ont.

Inflammatory Rheumatism Cured.

GENTLEMEN.—After suffering for some time from inflammatory rheumatism, I got a bottle of B. B. B., which, I am glad to say, cured me, and left me with good appetite and health. I can recommend it both for impure blood and rheumatism.

Arkwright, Ont.

A Double Cure.

DEAR SIRS.—About four years ago I was troubled with rheumatism in my hips and feet so that I could hardly walk. By a friend's advice I got two bottles of B. B. B., and before I had taken the last one I was all right. About six months ago I got a queer sleepy feeling in my arms, and they pained me very much at night. I thought it arose from my blood, so got another bottle of B. B. B., which cured me, and I have never had it since. I think that Burdock Blood Bitters cannot be too highly spoken of.
