

BOOK TABLE.

In writing to advertisers, please mention the Farmer's Advocate.

The latest addition to our exchange list is the Creamery Gazette, published semi-monthly at Ames, Iowa, with Mr. Henry C. Wallace, a well-known writer, as editor. It is a newsy, well-printed publication. The editor knows a good thing when he sees it too, for he re-prints a lengthy article specially prepared for us by Mr. T. B. Miller, but forgets to give the FARMER'S ADVOCATE the customary credit.

Vol. XIV. of the American Hereford Record has been received from the Secretary, G. R. Thomas, Independence, Mo. It contains pedigrees of entries numbering from 55,001 to 63,000. Like all former issues, this volume is serviceably and attractively bound and conveniently compiled. It also contains a number of fine full-page illustrations of animals from among the best American herds. It is a credit to Mr. Thomas and the Hereford Association.

"Sketches of Wonderland" is the title of a beautiful tourists' book for 1895, issued by the Passenger Dept. of the Northern Pacific Railway Co. Some two dozen page illustrations and three fine maps add to the literary merits of the volume. The chapters on Yellowstone Park and Mount Rainier are most graphically written. Six cents in U. S. stamps, addressed to Chas. S. Fee, St. Paul, Minn., will obtain a copy. Do so before planning your summer tour.

Volume VIII. of the American Clydesdale Stud Book, a substantial, attractive work, has been received from the Secretary, Mr. Alex. Galbraith, Janesville, Wis. It contains the pedigrees of horses and mares from 7001 to 8000, and a vast amount of carefully tabulated data usually found in stud books, in addition to five valuable essays on the Clydesdale horse. World's Fair prize winners, etc. Two of the first pages are illustrated by representations of Prince Patrick 6773 (champion prize stallion in 1893), and Lillie MacGregor 3957 (champion prize mare in 1893).

We have received from Mr. John G. Springer, Secretary, Springfield, Ill., a copy of Volume V. of the American Southdown Record, upon which congratulations may very well be offered. It is a well-printed book of 416 pages, containing 2,000 pedigrees numbered from 3001 to 7000, ewes 1383, rams 622, wethers 13; also a list of transfers, 612 ewes and 261 rams; World's Fair Southdown premium list; State and Canadian fair specials in 1893; extended pedigrees of animals tracing to unrecorded ancestors; indexes of owners, breeders, and animals; papers relating to the breed by Messrs. Frazer, Chapman (Eng.), McKerrow, and Jackson, of Abington, Ont. Among the six illustrations, we note that the place of honor is given to the portrait of a group owned by John Jackson & Son. If this volume is an indication of the condition of Southdown interests, they must indeed be prosperous.

We have received the second and completing volume of Funk & Wagnall's great Standard Dictionary of the English Language. We speak advisedly when we say *great*, because of (1) the amount of expert labor spent upon the volume, no fewer than 217 specialists and other editors having been engaged upon it;—many of these having world-wide reputations for expert knowledge and scholarship; (2) the reputation that has been accorded the preceding volume by leading critics in such universities as Harvard, Yale, and John Hopkins, in this country; Cambridge and Oxford in England, and by the press in the English-speaking countries of the world; and (3) because of the exceeding costliness of the work, it having cost over \$300,000 before a completed copy was ready for the market. It is now five years since the making of this dictionary began. With these two handy volumes at his elbow, the every-day working editor finds the usefulness of the encyclopaedia largely gone, and this, it may fairly be said, is true no matter to what specialty he may be devoted. It certainly stands to-day as one of the very highest achievements of American learning and industry.

NOTICES.

The annual meeting of the American Southdown Breeders' Association will be held in the Secretary's Office, at Springfield, Illinois, on Wednesday, May 29th, 1895.

SIMMERS' SEED CORN.

Planting time is approaching, and this season will doubtless witness the largest area ever under corn in Canada. After thorough soil preparation, the next point is to get good seed corn. Note J. A. Simmers' (Toronto) advertisement in another column.

HOW TO GET "SUNLIGHT" BOOKS.

Send twelve "Sunlight" Soap wrappers to Lever Bros. (Ltd.), 43 Scott St., Toronto, who will send post-paid a paper-covered book, 160 pages. By leaving the ends of the parcel open, it will go for one cent post-free. Remember "Sunlight" now sells at six cents per twin bar.

A NEW ERA IN ROOFING.

With the increasing scarcity and cost of wood for roofing, siding buildings, etc., metallic covering every day grows more and more in favor. Foreseeing this, the Metallic Roofing Co. of Canada established the first factory in 1884, and the results have more than justified the experiment, if such it could be called. The six essentials aimed at in roofs are that they be rain-proof, fire-proof, light in weight, durable, ornamental, and not liable to get out of order. Our readers who desire full information on this important subject will find it in their 1895, illustrated, 100-page catalogue, which may be obtained by writing the Metallic Roofing Co., Yonge St., Toronto, or Craig St., Montreal. It is a most instructive pamphlet, handsomely gotten out.

TESTIMONIAL.

Paisley, April 11, 1895.

Gentlemen, The "Ideal" Sprayer is just to hand. I must say that I am highly pleased with it. I was quite surprised, for it was altogether beyond my expectation, although I had every confidence in dealing with you. I have tried it, and would simply say that it is immense. I have been looking for a good sprayer for five years back, but was lucky that I did not get one until now. Please find enclosed balance due for Sprayer.

I remain, very respectfully yours,

J. B. McARTHUR.

Neuralgia

ATTACKS THE EYES

Makes
THE LIGHT
Unbearable.

PERMANENTLY CURED

BY USING

Ayer's Pills

"My husband was subject to severe attacks of neuralgia which caused him great pain and suffering. The pains were principally about his eyes, and he often had to remain in a darkened room, not being able to stand the light. Ayer's Pills being recommended, he tried them, using one before each meal. They very soon afforded relief, followed by permanent cure. I am a strong believer in the efficacy of Ayer's Pills, and would not be without them for ten times their cost."—Mrs. M. E. DEBAT, Liberty, Tex.

"I have used Ayer's Pills in my family for forty years, and regard them as the very best."—Uncle MARTIN HANCOCK, Lake City, Fla.

AYER'S PILLS

Received Highest Awards

AT THE WORLD'S FAIR

RUSSEL'S

CORN CURE

A safe, sure and effectual remedy for the removal of all Corns and Warts.

It removes those troublesome excrescences without pain or inconvenience, and without the use of the knife. There is no corn or wart that it will not cure, if the directions are strictly followed. Full directions around each bottle.

PRICE, 25 CENTS, POST-PAID.

T. R. MORROW, Chemist & Druggist,

The MODEL SCUFFLER!

We aim to make an implement which will adjust itself to all the varying conditions of soil in the quickest possible manner, and with the least manipulation. We accomplish this by our new patented SHANK FASTENER OR CLAMP. The change is made by loosening one nut half a turn, by which operation the point can be shifted to any conceivable position. This Scuffler is, what many of our customers have already called it, "A WORLD BEATER." It is strong, durable, and of the best material and workmanship. If your local agent does not supply you, write direct to the estate of

T. T. COLEMAN, Seaforth, Ont. 5-om

SOON now you will want a Root Seed Sower and a Scuffler, and we trust you will want a "BELL," because we have them the best. Insist on your dealer placing them to you, or write us direct for catalogue.

B. BELL & SON, ST. GEORGE, ONTARIO.
