"By Love Serve One Another."

This is a divine injunction. It is also a fruit of the Spirit, and a test of Christian life and character. If we love God we shall love one another. If we do not love one another then it is certain we do not love God. But love is active. It must work. And it will manifest itself. How will it do this? The Apostle tells us that we are to bear one another's burdens. So shall we fulfil the law of Christ, that is, be like Christ. And if we are like Christ we are like God. Again, we are to be kindly affectioned one to another in brotherly love—even putting others before ourselves. We that are strong are to bear the infirmities of the weak, and not to please ourselves. This is a hard lesson to learn. We are so accustomed to think of ourselves first that we find it very difficult to put another's wishes before our own.

The Apostle tells us another way by which we are to serve one another in love, "Brethren, if a man be overtaken in a fault, ye which are spiritual restore such an one in the spirit of meekness." In doing this we are to consider that we ourselves may be tempted and fall, and need just such offices of love. How much we need to remember this! And yet how common it is for Christians to indulge in harsh words and judgments! Better that we keep in our minds those blessed words of the Apostle, "Let him know that he which converteth the sinner from the error of his way, shall save a soul from death, and shall hide a multitude of sins." Let us try then, "By love to serve one another."—*Parish Visitor*.

On Teasing.

It seems to me that one of the most annoying traits of character which one can possess is a disposition to tease; for when that disposition is freely indulged, there is nothing that can cause more unhappiness to others. To be obliged to spend one's life with an inveterate tease is like living in a bramble-bush, or suffering constantly from the torture of innumerable pin-pricks. To be sure, one pin-prick is nothing much; but when one has to bear ten thousand of them, it is quite another matter.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly furnished frame."—*Civil Service Gazette*.

TIMELY
Suggestions

SUGGESTION I.—
WE hold the exclusive agency for Toronto of the Roy Watch Case Co. of New York, for their photo-miniature process, by which any photograph may be indelibly placed upon the inside of your watch case. The miniature is first photographed upon the gold or silver case—as the case may be—then painted and burnt, thus making a perfect and permanent likeness.

SUGGESTION II.—
IN our Fine Stationery Department we engrave calling cards, crests, monograms, coats-of-arms, etc. A box of really fine stationery, embossed with either the initial, monogram, crest or residence, makes at once a sensible and unique Christmas present at a moderate cost.

We offer these suggestions now, as both the photograph and stationery orders entail some delay in the filling, and to be satisfactorily done should be ordered before the usual Christmas rush.

THE SEMI-TONTINE RETURN PREMIUM PLAN
Provides that should death occur prior to the expiration of the Tontine period, the whole of the premiums that may have been paid will be payable with, and in addition to the face of the policy—thus securing a dividend of 100 per cent. on the premiums paid, should death occur during said period.

THE COMMERCIAL PLAN.
The large number of business and professional men who have taken out large policies on the Company's Commercial Plan, show the demand for reliable life insurance relieved of much of the investment elements which constitutes the over payments of the ordinary plans, is not confined to men of small incomes, but exists among all classes of our people.
