Na-Dru-Co Tasteless Preparation of Cod Liver Oil is a splendid tonic and "builder-up" for weak and sickly children. It gives them better appetites, rosier cheeks, steadier nerves and more energy. It Worked in Pittsburg.

There was an anti-cigarette clause out into the contracts of the Pittsbugr players last year which worked being that they would not smoke as much if they confined themselves to cigars. This worked out all right, as it was a logical notion, but it did not win the Pirates pennants. I do not believe, of course, that the club would have won pennants anyway. I have been told that the men used to smoke cigarettes when they were in out-of-the way places, that is, those who were inclined to the habit. Therefore, the whole restricting system seems to sift down to this, the players must be in condition. McGraw says that if they smoke a district of the condition of the most promising young pitchers I have ever seen and he was liked by all the men who got acquainted with him. Many of the regulars did not know him well, and a few of them had never seen him alive because he was confined to his room almost continuously after the squad of veterans arrived. His death cast a gloom over the camp.

A Wise Limitation. George Stovall, the latest manager of the St. Louis Browns, had made a

vise move in regard to tobacco. He has forbidden the use of it before breakfast. There are few ball players who smoke before breakfast anyway, as it is usually only the veteran smokers who feel the need of a "pill" before the morning meal. Physicians assert that this is injurious to the stomach and a ball player must have a good stomach above all things. Most of them have, as you would observe

What Matty Does Himself. As for myself, for about six weeks or two months each spring I stop smoking before going south, and I do not take it up until after the season has started. In this way, I work sort of spring housecleaning, and it seems to set me right for the whole year. I smoke mostly cigars, and in moderation. This year I made a wagfall. That is the reason. He also goes mar, an officer in the Bank of Washer with a friend of mine, named Delquickly in a game when he begins to ington Heights, where most of the tire. But "Red" has practically cut Giants keep their rolls, that he would out cigarettes this year, and he is smoke before I did. At last report working like a soldier to get into we were both tied. I do't know why he stopped unless it is to get into condition to count the players' share of the world's series receipts next fall when the Giants' bank the winner's portion. I only mention this because I get innumerable letters from

It's Good Advertising. Once more there is a crusade t stop the baseball players writing for the newspapers. Have any of the ball players tried to stop the newspaper writers playing ball? Well, anyway it is good advertising for the stuff.

Lacrosse

In order to meet the changed situ ation one of the proposed amendments for the approcahing convention of the Canadian Lacrosse Association is the change of name to the Central Lacrosse Association, or the Ontario Amateur Lacrosse League. Under the new title the entire lacrosse membership in the province can be enrolled, making one body for Ontario in the Dominion body, the Canadian Amateur Lacrosse Associa-

Another proposal is to adopt the O. H. A. principle of not permitting clubs to play in the name of a comnercial organization.

President Kelly proposes that the overning body should receive ten er cent. of the receipts at district ies and semi-final games.

Another suggestion is that lubs should be entitled to representation and voting rights whenever assed by the Executive, instead of ot until after the convention, as at present.

Brain fag begets irregularities of the stomach and liver and the best remedy that can be used is Parmelee's Vegetable Pills.
