"Army worms" are not very for midable objects to look at singly, bu in the mass they spread destructio with a rapidity which more than jus tifies their title. A Courier man yesterday took trip through the lower end of Bur-

ford Township where most of the de-vastation thus far has been done and a marvellous yet sad sight was pre-sented. Strong evidence of the invaders was first afforded about half mile from Burford village. The in sects were thick on the roadway and attacking the weeds and the grass alongside. They look like caterpillers and range in length from 3/8 of a inch to 134 inches. There is an errone ous idea that they breeed rapidly they don't. They do not propagate their own species at all, in fact there is apparently no sex. In the first place they are deposited as grubs marshy places by a little yellow moth. Another insect usually feed on them to extinction, but this year high water conditions have been suc that they have been able to surviv in portions of this country and to hatch out into worms. From that in stant they march, or rather craw forth, regiment upon regiment, bat talion upon battalion, and woe be

The first premises visited were those of Warden Milmine, who been a very heavy loser. He and hi men were found hard at work try field of seven acres, the party squash-ing worms with every step. The field was practically bare, whereas a few hours before it had a splendid crop of second growth corn, the firs crop having been flooded out in the spring. It might be remarked that this whole district is known as th Kenny Creek flats. Right next to Mr. Milmine's is the farm of Mr. W. Carter. He had twelve acres of ha
