

## McClary's Kootenay

TOP, bottom and all four sides of the Kootenay oven are evenly heated. That is why it is so famous as a dependable baker. There is a thermometer, too, to tell whether the heat is right or not.

No range is quite so easily managed. Duplex grates clear the ashes at a single turn. Burnished cooking-top never needs blockading. Nickel-plated oven walls are kept clean with a damp cloth. Well-fitted joints and dampers hold the fire—and the oven heat—for hours.

Let us show you the Kootenay.

### AUTHORS HANDICAPPED.

Writers in This Country Have Cause for Complaint.

At the present time Canadian authors are under a distinct handicap as compared with the authors of other nations. It is a well-known fact that to-day moving pictures and phonographs bring the writer's thought to millions who formerly depended on the printed page, yet the Copyright Act of Canada gives no protection against the reproduction of an author's work by means of moving pictures, phonograph records, or music rolls. No matter how popular a song by a Canadian may be, it can be reproduced on phonograph records, without the payment of any royalty to the author, and no Canadian author can prevent the moving picture companies from reproducing his ideas on film without any payment of royalty.

To remedy this state of affairs, the Authors' and Composers' Association of Canada, whose headquarters are in Toronto, have submitted a memorandum to the Canadian Government asking them to adopt the British Copyright Act of 1911, the provisions of which include, among other things, the payment to the owner of the copyright of 5 per cent. of the retail price of each record or roll sold. The memorandum says:

"The United States publishers are now refusing to consider a song by a Canadian writer on account of the fact that they cannot collect any mechanical royalties under their copyright act, because Canada has no such provision in her act.

"Lieut. Gitz Rice (now said to be the most popular song writer on the continent) is a Canadian and a member of the Authors' and Composers' Association. Mr. Robert Service is also a Canadian whose lyrics are being set to music, and he, too, is being very greatly handicapped by our present Copyright Act. Mr. A. E. McNair, of St. John, N.B., who wrote 'We'll Never Let the Old Flag Fall,' is a Canadian. Mr. Morris Manley, of Toronto, wrote 'Good Luck to the Boys of the Allies,' etc. Mr. Gordon V. Thompson, of Toronto, wrote 'When Your Boy Comes Back to You,' 'When You Wind Up the Watch on the Rhine,' and over a dozen other patriotic songs. Miss Irene Humble wrote 'We're From Canada.' Miss Muriel Bruce wrote 'Knitting.' Mr. Will J. White wrote 'Home Again.' All these songs have been reproduced by phonographs and player-roll companies in Canada and the United States without the payment of royalties.

Surely the authors only have to state their case to get this injustice removed. Canadian authors have enough to contend with without being subjected to such a heavy handicap as is now imposed through the fact that our present Copyright Act is out of date.

### Teachers' Salaries.

If "painfully low salaries" are paid teachers now, as Hon. Dr. Cody says, what must they have been a few years ago? There is not really so much advance, however, as there seems to be, and it is well that the Minister of Education has a proper appreciation of the subject. If a teacher just fresh from the Normal School gets a salary of \$550 per annum she can't get her board for probably twice what it would have cost her a few years ago, and everything she has to buy costs her much more than it would some time ago. Then as to male teachers, though there has been an advance in salaries it is probably not equal to the increase in the cost of living. There will be people both in cities and towns, however, who will complain of the high cost of education. Education of the right kind implies a teacher of the right kind. A good teacher is worth a good price.

### Most of 'Em Do.

Widow—What do you think of Ethel's dress?  
Frosh—It does make you think, doesn't it?

### Won by Sweden.

A competitive test of milking machines in England, open to the world, was won by one of Swedish invention.
