SOWING FLAXSEED

The Proper Quantity of Flax seed and When to Sow-Prof. Saunders' Report.

In a bulletin on flaxseed issued in April 1908 by the Dominion Experimental Farm, Prof. Saunders says : "The production of flaxseed in Canada has not yet been sufficient to meet the demands of the oil mills Hence large quantities are imported from the United States and from Ar- Mrs. Hugh Maclean of Camden, pas gentina. Besides this a large quanti- sed through to Banfi, on this morncould be profitably made here if the crop of home grown seed were suffi-ciently large. The Canadian government has, in the interests of Canaas long as the demand so largely ex-Johnson's contribution runs as folducement for farmers to take up the sowing of flaxseed on a large scale. "Judging from the crops produced and the quality of the seed grown it is evident that the conditions in the North-West provinces of Canada are favorable for the production flaxseed. As in the United States the greatest development of this in dustry is in the Northwest. In tha

untry, with its annual product varying from twenty-five to nearly thirty-five million bushels, North Dakota produces about one half of the entire crop, while if the product o South Dakota and Minnesota be added these three States contribute more then three-fourths of the total pro made at the experimental farms o

Brandon and Indian Head using 4 acre, seem to indicate that when flax is sown for seed only the sowing o 40 pounds to the acre does not always produce so heavy a crop a when 80 pounds is sown. The yield of seed per acre is sufficient. Wit regard to the best time for sowing in the North-West, from the middle Kidneys to the end of May is usually recommended. The seed selected for so nded. The seed selected for sov ng should be plump, well developed, of good color and free from the seeds sown the seeding is usually done vith a drill."

Seed sown at the experimental he quantity of seed sown being 80

perienced flax growers hold that it is safe to sow flaxseed as late as June 15, and the good results have been obtained sowing even later, but the general opinion seems to last two weeks of May and

FEDERAL BUSINESS COLLEGE Bank of Ottawa One month's salary pays the entire cost

It is not necessary, nor is it wise for young people to spend years of the best portion of their lives in preparing for professions which are not so remunerative as is the work for which they may prepare in a few months. The majority of our graduates receive as much for their services in one month as would pay the total amount of their college fees. Our courses form a short cut to business success. During the last six months the Regina Federal Business College has placed more than sixty students in excellent situations; with initial salaries ranging from \$50 to \$60 per menth. Every capable student is guaranteed a good situation upon graduation. The Federal Schools are open the year round and students may enter for instruction at any time. Free catalogue. Write today GEO.
