

WOMAN IDENTIFIED AT  
WATERTOWN

Watertown, May 6.—The final chapter in the story of the late visit of Mrs. George Smith to this city Monday, when she left on the steps of Samuel Zeitlin of 241 State street, a ten-days-old child, has been unfolded through the activities of Capt. Wm. Edgill, of the local police force, who has brought to light the fact that Mrs. Smith was in reality Florence Estella Purcell, of Pulisville, Ont.

Capt. Edgill, noting further into this case remembered that a woman had visited the city in March, 1914, and had also left a baby here at that time, a child who is now in the care of Mrs. L. A. Kellogg of this city. Capt. Edgill went to the residence of Mrs. George Valley, of 326 State street, who keeps a boarding house, where the woman stayed Monday night, and compared notes with Mrs. Valley. It was then ascertained that this same woman had come to this city from Brockville, Ont., on March 23, 1914, and had left a baby at the New York Central station in this city and had then gone back by way of Morrisville. She had remained at the Valley residence that time. No trace of her had been found until her visit here this week.

The woman on having the straight facts of the case laid before her confessed to her crime and she was taken to the county jail where she will remain for the grand jury on a charge of violating section 481 of the penal law by leaving a child without care.

## BASEBALL

## Town Again Victorious

In the short time between the dismissal of the A. H. S. at four and the six o'clock supper bell, a full game of baseball is impossible but a five-inning game is aimed at. If it falls short of this the cause is probably a long inning. These games provide excellent practice for the players who will play in the league games.

On Thursday the town team won from the school by a score of 13-6. At the end of the third inning the town had 4 and the school 3. The former ran in 9 in the fourth and held their opponents to three. The bright sun shining in the eyes of the fielders made hard work for the outfielders but errors were not very numerous in spite of this.

SHERWIN-WILLIAMS  
PAINTS & VARNISHES

The paint that protects the outside of a house should not be the same as the paint for a floor or a door or a wall. Different surfaces require different finishes. There should be but one thing in common—Sherwin-Williams quality—the quality that makes each paint, varnish, stain, enamel or other finish just right for its purpose.

If you know the paint and varnish you are using on your house or in your home are made by the same maker in the same sure, careful, painstaking way as the paint used on iron bridges, steel buildings, railroad cars and automobiles, we believe you will have more confidence in them.

## Railway Must Refund

If the railway companies in Canada fail to refund the price of unused ticket within thirty days from demand on one class of ticket, or sixty days on another, they are liable to a fine of \$25.

The Railway Commission has so ruled. An order just issued by Chief Commissioner H. L. Drayton and concurred in by his brother Commissioners reads as follows: "That every railway company subject to the jurisdiction of the board repay to every holder of a ticket over its railway within thirty days from demand in the case of a single-line ticket, and within sixty days from demand in the case of a joint ticket, the cost of said ticket if unused in whole or in part, less the regular fare for the distance for which such ticket may have been used."

"That every such railway company failing to comply with the foregoing regulation be liable to a penalty of a sum not exceeding twenty-five dollars (\$25) for every such failure."

## FARMER'S ESCAPE NEAR CARDINAL

John Anderson, a farmer residing a few miles back of Cardinal, near a creek, died at 11 o'clock Monday morning when a train of box cars was driving over him. A freight train, Anderson had come to Cardinal with a load of pigs. After disposing of the pigs, he turned back to his home and was on the track when the freight engine, pulling five cars, backed into them at full speed. One horse was killed and the other seriously injured. Both were badly mangled by being dragged over the roadbed. The wagon was reduced to splinters. Anderson was dragged a distance of 70 feet. His body, face and hands were gashed and torn, but he sustained no internal injuries. Physicians hurriedly summoned dressed his injuries and he was able to return to his home later. His escape from death was miraculous.

## No Demonstrations on King's Birthday

Ottawa, May 5.—A message from Right Hon. Lewis Harcourt, Secretary of State for the Colonies, has been received by the Government in regard to the celebration of the King's birthday. The cable states: "It is his Majesty's wish that on the occasion of his Majesty's birthday this year that flags should be flown, but no dinners, reviews, salutes or other celebrations should take place."

Instructions have been sent out by the Militia Department to officers commanding divisions and districts to carry out the King's wishes throughout their respective commands.

## VILLAGE COUNCIL

Regular meeting, May 8, 1915

At this meeting the subject of Road construction was dealt with at some length regarding the best way of dealing with certain streets, especially Isaac street hill and Charleston road hill. These are important streets leading into our town and are hard to keep in good condition, so it was thought advisable to deal with them similar to the County Road System, using the roller, also the tank for sprinkling.

The following accounts were ordered paid and orders for same issued upon the Treasurer:

M. Ritter, digging grave, \$1.50  
John Bigelow, salary, 1 month, \$6.25

The Village Officer was also instructed to see that motorists do not exceed the speed limit in order to minimize the number of accidents in the village.

A. M. Len, Clerk

There is less prospect now of a time election, but the question is still there to be one in September.
