The Summer School of Science for the Maritime Provinces will meet at Amherst on July 3rd, and remain in session until July 18th. Over one hundred teachers are expected to be present.

On Wednesday afternoon a very interesting Gymnasium Exhibition was given by the Acadia Athletic Association in the gymnasium building. The building was well filled with spectators, and a good programme was well carried out and much enjoyed by all.

A large number met the 10.30 express at the depot on Thursday morning to bid good-bye to the departing collegiates and others. The platform rang with college songs and shouts. Suitable speeches were made by Messrs. Fooks, Parsons, McGurdy and Routledge, of the College, by J. F. L. Parsons, Drs. Boggs, Todd and others. The train went out amid deafening 'rah, 'rah, 'rah, yab, yab, yab.

The anniversary concert this year was given by the Imperial Quartette and Miss Agnes Hyde, Reader, of Boston; and Prof. L. W. Titus, Vocalist, of St. John. It was not so largely attended as usual, probably owing in a measure to the fact that the price of admission was considered beyond what the merit of the performance warranted.

If the genius of the vicious and indignant correspondent of the Western Chronicle in the last issue of that journal, were not far too free and aspiring to be shackled by the rules of syntax we would suppose that the Kentville Driving Park was not situated at Kentville, and had not, previous to its lease by a "prominent citizen of Wolfville," been known as the property of "Forty Thieves." Were it not for the fact of his stating that we had misrepresented the case we should not have devoted even this short space for the answering of such garbled jargon. If we have been guilty of the crime of misrepresentation we humbly apologize, and would merely say that if the actions which we had hoped the summer residence of his Britannic Majesty was free from for once did take place it was not until after the ACADIAN representative left the "half-acre." We detect in his little "piece" quite alarming indications of the disease commonly diagnosed as "wore head," and would suggest as a remedy that he take a small decoction of "Exhibition broth," diluted with a few drops of the herb most common to the town which is fortunate enough to have with the assistance of which he probably brewed his Choctaw composition. This should, if the directions are faithfully followed, effect a speedy and lasting cure.
