THE DAIRY INDUSTRY The Department of Agriculture a Ottawa is making every effort to bring about a profitable change in the diary industry in the manitime provinces, and to place these provinces in the same enviable position which Ontario holds in the dairy markets of the world. This province which a decade ago was practically unknown as far as her inthe dairy market went, is now the leading dairy province of the Dominion, and her products in the European markets have a standing than they had in past years. second to none in cheese and second to Denmark only in butter. This

change has been brought about solely by enterprising dairymen, assisted instruction has been the foundation of Denmark's greatness, it has built Ontario up from a province scarcely supplying her own demands to the position she now occupies, and there is no reason why New Brunswick, Nora Section and Prince Edward In the province of Nova Section and Prince Edward In the province of population was 9,824.

That increase is divided among the denominations as follows: Nova Scotia and Prince Edward Island will not feel the stimulus if the farmers but rouse themselves to a recognition of their capabilities.

The newer members of the confederation have advanced rapidly in industrial tife. Prince Edward Island had 5,757 employes in 1881 and 7, 906 in 1891—an increase of 37 per cent, in the ten years. Manitoba has increased from 1,921 in 1881 to 4, 375, in 1891—an increase of 127 per cent. This, though a great gain absolutely, is relatively to population, less than the gain in population, owing no doubt, to the fact that the farm possesses greater attractions in the prairie province than factory and workshop.

Mr. Johnson sums up the results is a number of statements as follows:

From "Wheeling Register" of Monday, May 16th:

"The funeral services of Mrs. William F. Campbell. of the Island, took place yesterdby afternoon at 3 o'clock at St. Luke's P. E. church. A large number of the friends of the family were present and the impressive service was conducted by Rev. Jacob Brittingham, the rector. The choir during the service sang sweetly "When Our Heads are Bowed with Woo" and "My God, My Father When I Stray." The palk-bearers were A. L. White, Frank Hoge, L. E. Sands, James P. Rogers, Lucius Hoge and W. D. McCoy, The remains, accompanied by her husband and his father, Dean J. Roy Cambbell, and a friend of the family, Mr. Playlor, were taken on the 4.20 train to Dorchester, New Brunswick, the former home of Mr. Campbell, for burial. Mrs. Campbell's death which occurred on Saturday, is quite a sad one. She was only twenty-one years old, and a woman who possessed the highest and most lovable traits of character. She leaves one child." From "Wheeling Register" of Monday, May 16th:

that a country without a tariff has a hard show with the rest of the commercial world. In a recent speech he said: Foreign nations are adopting protection; they are excluding us from their markets and trying to kill our trade. The free trade doctrine may be neble but it is not business like. We live in an age of war tariffs. The important point is that while nations are negotiating to obtain each others commercial favor, none are anxious about the favor of Great Britain because Great Britain has stripped herself of the armour and weapons with which the battle is to be fought. The free trade doctrine may be noble but it is not business like.
