Ald. Nelligan asked if the conditions of the by-law had been fulfilled; if not, would the Council be justified in conveying to the company the land in question.

Ald. Colquboun suggested that as there was a feeling on the part of the citizens that the amount of money represented had not been spentlupon the grounds it would be well to allow the clause to be referred, the City Engineer to make an estimate of the value of the work done in the meantime.

On motion of Ald. Hall, seconded by Ald. Witton, the clause in the report of the Finance Committee of Dec. 12th, relating to H., G. & B. first mortgage bonds, was re-considered.

Ald. Hall then moved that the clause be referred back to the Finance Committee for further consideration.

Mayor Stewart explained that the object of referring the clause back was to take steps in regard to the free road. The company, he said, had promised in good fight that a certain free road should be maintained. That promise had never been reduced to writing, and the desire, now that the company is seeking concessions, is to have an agreement entered into so that the city may always have a free road.

Ald. Colquhoun introduced a by-law to amend the by-law on polling districts and another to amend the by-law fixing polling places.

The Blenheim Lands the Body at Halifax.

The Body Will Not be Exposed to View Discoloration far Advanced-The Order of the Funeral Procession Fixed.

Halifax, N. S., Jan. 2 .- H. M. S. Blenheim, with the late Premier's body, arrived at the mouth of the harbor at 10.30 yesterday morning in a rain storm. Senator Sanford, who accompanied the remains from Portsmouth, was on the deck of the Blenheim when the steam launches bearing the relatives and officials came alongside. He advised securing the services of an embalm er to examine the body before it was taken ashore, and in compliance with this request the staff officer commanding signalled to shore that the landing would not take place until 2 o'clock.

At 2 o'clock part of the after deck of Mr. MacKelcan replied that the smelting works' land is mortgaged, one mortgagee residing in Toroxtor the other in Barrie. The two mortgagees are, he said, clamoring for their money and threatening to sell the land. If they did so it might complicate things somewhat. If the city gave the company a conveyance the city would still have a string on the land and it would revert to the city, if, the \$400,000 was not expended, or unless the members of the company paid the city \$35,000 and interest.

Ald. Hall—In case we convey the land to the company and that company mortgages it, will the mortgagee have a claim prior to the city.

Mr. MacKel an—No. The company will only haw a conditional title and it cannot give a better title than it possesses.

Ald. Nelligan and Milne withdrew their amendment, which after another half hour's discussion was carried by a grate of its test and the formed a guard of honor to the right amendment, which after another half hour's discussion was carried by a grate of its test and the formed a guard of honor to the right and left of the corpse, and the funeral procession, headed by the magnificent band of the King's Regiment formed a guard of honor to the right and left of the corpse, and the funeral procession, headed by the magnificent band of the King's Regiment formed a guard of honor to the right and left of the corpse, and the funeral procession, headed by the magnificent band of the King's Regiment formed a guard of honor to the right and left of the corpse, and the funeral procession, headed by the magnificent band of the King's Regiment formed a guard of honor to the manufacture of the more and the funeral procession, headed by the magnificent band of the King's Regiment formed a guard of honor to the more and the funeral procession, headed by the magnificent band of the King's Regiment formed a guard of honor to the funeral procession, headed by the magnificent band of the King's Regiment formed and the funeral procession was carried by a function of the company and the city \$35,0 the warship was removed and the

SKATING ON THE BAY The Principal Amusement for Young and Old Yesterday.

Old Yesterday.

The hockey match which was arranged to take place on the bay yesterday morning between teams selected from the Thirteenth Battalion did not materialize. At 10 o'dock, the hour fixed for the tommencement of the game, a large number of hockeyists assembled on the lee but for some reason or other could not get started in any kind of form, and the result was a case of "Everybody chase the puck," The ice was in good condition, although the open water about on a line with the James street wharf made getting far out of bounds rather a serious matter.

Judging from yesterday's showing skating is going to be a very popular amusement this winter.

Bewildered by the array of pretty faces, the boys have taken to picking out girls by their headgear, so, girls, you who want to be "right in it" be sure and get out the noblest and most unique cap or hat you-can procure when you go skating on Hamilton Bay in the afternoon.

rou go skating on Hamilton Bay in the intermoon. There is a good track at present from he foot of Singue street to Bay View, ce-boats were numerous yesterday, and wing to the foolhardiness of some of heir owners, many people in the crowd of skaters had narrow escapes from being run down, lee yachtsmen should have sense enough to keep out in the oten.
