

GOING IT BLIND ON POWER QUESTION.

(Continued from Page 1.) motion will likely be enlarged until Thursday. The plaintiff has also issued a subpoena for the examination of Mayor McLaren and City Clerk Kent.

While the Power Committee was in session yesterday afternoon Traction Manager Coleman, of the Dominion Power & Transmission Company, called on Mayor McLaren to enquire about the complaints that the inter-urban companies were hauling freight on Hess and King streets. The company has been handling fruit cars on King street, bringing them up as far as the Terminal Station and sending them down Main street to connect with the C. P. R.

The Mayor said the city did not wish to interfere while the berry season was on, but he warned the company that it must live strictly up to its by-laws and apply in the proper way for any additional concessions it might want.

A ten-room addition to the north of the present Victoria avenue school and the closing of the old Wellington street school are the recommendations the Building Committee decided last night to make to the Board of Education. It will also advise that the teaching of classes on the third floor of the Victoria avenue school be discontinued as soon as convenient. The Board at its last meeting referred back a recommendation to tear down the Victoria avenue school and replace it with a new twenty-room building. The proposed ten-room addition will cost about \$50,000 and will necessitate the purchase of some property to the north of the school. Chairman Allan announced that the assurance of the Finance Committee had been received that the Council would authorize the issue of debentures to the extent of \$50,000 for enlarging the Barton street school.

Rev. Dr. Lyle and F. J. Leishman, representing the Board of Directors of the Hamilton Art School, last night met a sub-committee of the Board of Education, and formally ended the negotiations begun some time ago to have the local department of education take over the school. Dr. Lyle explained this morning that the meeting last night was merely a matter of courtesy in ending negotiations begun before the school was closed. All that remains to be done now is to wind up the affairs of the school. The directors hold certain funds in trust and they will fulfil their obligations regarding these as they are legally bound to do.

The following building permits were issued today: Stewart & Witton, brick addition to the Chapman-Holton factory, Mary street, \$7,000. Stewart & Witton, alterations to the Watkins building, King and Hughson streets, \$1,000. James McNaught, two brick houses on King street, between Sophia and Dundurn, for Thomas W. Hand, \$1,800. Munro & Mead, brick addition to house on Aberdeen avenue, for Mrs. Hendrie, \$4,500. James McNeil, brick house on Robinson street, between Bay and Caroline streets, for Mrs. McNab, \$3,000.

City Solicitor Waddell this morning received notice of a continuance of the injunction to restrain the city from entering into a contract with the Hydro-Electric Commission from Monday until Thursday.

The health report for the week shows six cases of scarlet fever, ten of whooping cough, five of measles and one each of chickenpox and typhoid fever.

DRY WAVE

Lessens Consumption of Liquor in Milwaukee.

Milwaukee, July 3.—The decrease of the business to brewers and distillers through the dry wave is indicated in the report of the local internal revenue officer for the year ending June 30th, this report showing a reduction of the internal revenue amounting to \$322,000 for that period. Practically the entire loss is due to the falling off in the output of beer. This year's receipts were \$3,852,848 for beer alone, as against \$4,174,103 for the preceding year.

Refrigerator Sale.

For the next two or three months the refrigerator will be a very necessary piece of furniture in the home and to give everyone a chance to enjoy the benefits of having one, the Frank E. Walker company is advertising a special sale. This great housefurnishing firm has a very large stock on hand of all sizes and at prices to suit any purse. The Walker firm gives the customer the cash price on the weekly payment plan, a system that has proven a great success. They also carry all kinds of verandah chairs, carpets, rugs, stoves, gas ranges, etc., and guarantee quality and prompt delivery. See Walker if you need anything in his line.

MAY BE HERE.

(Special Despatch to the Times.) London, Ont., July 3.—The police are looking for George Heiskos, on a charge of inhumanely treating his 15-year-old daughter. Heiskos left the city suddenly last night, it is believed, or Hamilton or Toronto, and took the child with him. He is said to have pulled her hair out in handfuls and to have beaten and kicked her unmercifully.

SUCCESSOR TO BUELOW.

New York, July 3.—A Berlin despatch says that Die Militaerische Politische Correspondenz, a news agency, states that Count Heinrich von Bernstorff, the German Ambassador in Washington, is now on the list of possibilities as successor to Prince Von Buelow as chancellor of the Empire.

FIRE PANIC.

Detroit, Mich., July 3.—Half a dozen women were severely injured today when a cry of "Fire!" caused a panic in Kresge's five and ten cent store while the place was jammed with people. One child is said to be fatally hurt.

"Rastus," said the sollicitous employer, "didn't I warn you against the dangers of intemperance?" "Yassir." "Didn't I tell you not to drink anything stronger than ginger ale?" "Da's de word dat done binger me. I couldn't remember dat gerale part. I done my best, but all I could remember were de first, buttable."—Washington Star.

The annual outing of Central Presbyterian congregation and Sunday school will be a picnic to Niagara Falls next Wednesday.

The quarterly meeting of the Board of Trade will be held on Monday at 4 o'clock. The annual general meeting fixed by statute for that day will be adjourned till January in accordance with resolution adopted by the board last year.

While alighting from a car near her home last night, Elizabeth Clark, 29 Strachan street, was knocked down by a buggy, driven by William Warren, 90 Wood street east. Two wheels passed over her body, but without doing her any serious injury. No blame is attached to Mr. Warren.

WALKER AND KERR.

Favorites in the 100 and 220 Yards Events Respectively.

London, July 2.—C.A.P. Cable.—Walker, of South Africa, is a strong favorite for the sprint championship to-morrow, while Bobby Kerr is as strongly fancied for the 220 yards. The abominable weather has been against both for training, though it is possible that Cartmell might upset anticipations in one or the other event. The papers testified to the popularity of the Canadian, who is a good sportsman and the spectators will be disappointed if he fails to win at least one race.

The Hamilton Driving Club will renew the weekly matinee next Wednesday afternoon at Market and Leary Park, when a fine card will be presented. In addition to races in classes A, B and C a pony race will be held. Six entries have been made in this. The entries in all the events will appear in Monday's paper.

The selections for to-day's races at the H. J. C. track appear on page 9.

Chicago, July 3.—Jack Johnson returned to the city yesterday and will depart next week for Cedar Lake, Ind., where he will train for his battle with the middleweight champion, Stanley Ketchel, to be held in Colma, California, in October. Johnson has rented a cottage at Cedar Lake and intends to do considerable work and roving on the lake. He believes this will tend to reduce his weight so that when he goes west about a month before his fight he will not have to do much hard training.

EDUCATORS.

Morning Proceedings of the Convention In This City.

(Yesterday's proceedings are reported on page 7.)

This morning at the Business Educators' meeting several addresses were delivered and the report of the nomination committee was handed in.

Mr. J. McKinty, of the International Harvester Co., spoke on "What a Typist Ought to Know." He contrasted the past system of letter writing and copying with the present. A stenographer should know when and when not to talk. He or she must inevitably come in contact with the personal affairs of business men and the private affairs of the business. A stenographer should also employ all his capital, not only the nimble-fingeredness of his fingers and his physical powers, but his common sense also, for a man is rated from the standard of his contributions to his employers. Next to a man's wife and baby he appreciates his stenographer most.

Mr. P. McIntosh, Toronto, developed a few points on the "New Features in the New Ontario Companies Act." The protection of "the innocent subscriber" was the subject of his address, and the object of some of the more important clauses of the new sections. Control and the abuse of control seem to be the causes that make this protection a necessity.

The speaker dwelt on the shareholder, the problems and experiences he meets with, the needs and requirements which the new act aim to meet. He, J. H. Smith, Inspector of Public Schools of Wentworth, addressed the members on the subject of education. His subject, he said, was found in the book of experience, "To do the right thing at the right time, in the right way." The difference between looking and seeing was that the former is a physical act and the latter a mental one. One of the great mistakes men make today was to try to fit men's thoughts on children's minds, with the result that the young minds of the nation were not being developed as they should be. If the boys and girls were properly trained the future of Canada would be assured, and she would be one of the most important countries of the English speaking race. The hand should be taught to work, the head to think and plan and the heart to govern and control.

The election of officers took place at noon today, and resulted as follows: President—J. W. Westervelt, jun., London. Vice-President—R. E. Gallagher, Hamilton. Secretary-Treasurer—W. H. Stapleton, St. Thomas. Examining Board—A. E. Warner, St. Catharines, chairman; J. W. Westervelt, sen., London; W. E. Brown, Galt.

Sentence Sermons.

Conceit deceives only its owner. No man ascends above his ideals. Every man's life depends on the size of his god.

No man has any rights that lead others wrong. The man who has no piety to spare has none to save.

It is easy to mistake self-approbation for reformation. All the stiffness in a man's neck is taken out of his back.

Piety adopted because it pays costs more than it is worth. It is all too easy to idealize the real if you realize the ideal.

A life is holy in the measure that it makes lives really happy. Resources for to-morrow depend on reserves made to-day.

The best proof of a great religion is its use on small occasions. The only way to digest a good sermon is to do what it suggests.

The pessimist always puts his best corns forward in a crowd. Some folks try to get rid of a man's faults by advertising them.

You never succeed in changing the factor of man in terms of the dust alone. Every man knows just how to play the game until he goes to the bat.

This would be a dreary world to some if their neighbors were all good. Faith is always foolish to those who have their eyes on the feet though.

Making old men out of boys often means making bad men out of them. A sunny disposition does not come by talking moonshine about sunshine.

Work for folks you do not like is good training in a heavenly disposition. The only comfort in this world we know have become ours when seen through tears.

Anyone can understand the divine love when it is in terms of human kindness. He must be shortighted who thinks he is lifting himself by turning up his heels.

It is not necessary to rake over a man's reputation before you begin to sow the seeds of kindness. Some men think they are faithful because they would rather fight for old forms than face new facts.
