

MISCELLANEOUS.

CON.—If one of our people in the East be found kissing a Turkish lady, can he be charged with embracing Mahomedanism?

A GOOD SNOR.—A physician who resides in the southern part of London, visiting a patient at the extreme north, was asked by the sick man, if he did not find it very inconvenient to come such a distance. "Not at all, sir," replied the son of Esculapius, "for having another patient in the next street, I can kill two birds with one stone." "Can you, sir?" replied the invalid; "then you are too good a shot for me," and the M.D. got his walking ticket.

HONOUR OF THE BENCH.—A Scotch judge, on passing sentence on a man who had been convicted of stealing a donkey, expressed a hope that the penalty awarded might impress on the prisoner's mind the injunction, "Thou shalt not covet thy neighbour's ass." "Not anything that is thy neighbour's," interposed another on the bench. To the latter, the prisoner replied, "It will be time enough to tell me that, when I come back." "You had better make the most of your first interview," rejoined his lordship; "it's by no means safe to cultivate our acquaintance."

BAD HABIT.—"Frank," said an affectionate lady the other day, to a promising young American, "if you don't stop smoking and reading so much you will get so, after a while, that you won't care anything at all about work." "Mother," replied the hopeful, leisurely removing a long cigar, "I've got so now."

THE ORDER OF CLEANLINESS.—"Go to Bath."

LEGITIMATE SPORT.—Those who fish for compliments deserve to get a bite.

AMERICAN ODDITY.—The Americans have strange names for their settlements. Mr. John Davis, when travelling in "the States," met a lad in the wilderness, and asked him "How far, my boy, is it to Frying Pan?" The boy replied, "You be in the Pan now."

A WONDERFUL WOMAN.—A governess in her advertisement stated, that she was "complete mistress of her own tongue." "If that's the case," said a caustic old bachelor, "she can't ask too much for her services."

THE newspapers state that the employes at the Mint are busily engaged in striking off a number of sovereigns. We trust that the Emperor of Russia will be the first to undergo this process.

WHAT articles of dress do twins resemble?—A pair of kids. Why is a kiss like creation?—Because it is made of nothing, and yet it is something.

QUACK doctors are considered drivers of the "last stage" of disease.

A WESTERN editor wishes to know whether the law recently enacted against the carrying of deadly weapons, applies to doctors who carry pills in their pockets.

BONNETS appear to grow frightfully less, and before winter sets in, it is probable, that a large routine fired on the back of the hair will take their place.

A FEW days since, an advertisement appeared in a morning paper for a "liver woman." Did any of our readers ever see a woman of that frail material? And is it any thing similar to what the niggers call a cotton girl?

An idler meeting with one of the strolling organ players, was inclined to engage in conversation with him, and asked him, "What part in the grand drama of life do you perform?" "I mind my own business," was the brief and pointed reply.

A RELIEF.—The gentlest task-master we ever heard of was a blacksmith who used to say every evening to his apprentices, "Come, boys, let's leave to work, and go to sawing wood." That blacksmith must be a brother of the farmer down east, who, one season, when he was building a new house, used to try to get his hired men out with him to play "dig cellar by moonlight."

THE CHANNELS OF AFFECTION.—A sentimental chap intends to petition Congress for an act to improve the "channel of affection," so that henceforth the "course of true love may run smooth."

SEARCH FOR WIVES.—Where do men usually discover the women who afterwards become their wives, is a question we have occasionally heard discussed, and the custom has invariably become of value to young lady readers. It is certain that few men make a selection from ball-rooms, or any other places of public gaiety, and nearly as few are influenced by what may be called showing off in the streets, or by any allurements of dress. Our conviction is, that sixty-nine hundredths of all the fiery with which women decorate or load their persons, go for nothing, as far as husband-catching is concerned. Where and how, then, do men find their wives? In their quiet homes, at the fireside, where the domestic graces and feelings are alone demonstrated. These are the charms, which most surely attract the high as well as the humble. Against those all the fiery and silt in the world sink into insignificance.

DOCTOR HOOFLAND'S CELEBRATED GERMAN BITTERS, prepared by Dr. C. M. JACKSON, German Medicine Store, No. 120 Arch St., one door below Sixth Philada.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cases attest, in many cases after skilful physicians had failed. These Bitters are worthy the attention of Invalids. Possessing great virtues in the rectification of the liver and lesser glands, exercising the most searching power in weakness and affections of the digestive organs, they are vital safe, certain, and pleasant.

Testimony from Maine. CAPT. DANIEL ABBOTT, Brooklyn, Maine, July 16, 1845, says: "I was taken sick one year ago last April upon my passage from Havana to Charleston, S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of 'Hooiland's German Bitters' in it, I sent for some immediately. This was about 10 o'clock at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me, that I had a good appetite for supper, and rested well that night, and the next day found me a well man. I have not been without your medicine since, having been sailing between Baltimore, Charleston and the West India Islands ever since. I have now given up going to sea, and reside in this place where you should have an agency, as you could sell large quantities of it."

WILLIAM CLARK, Salmon Brook, Aroostook Co., Me. You should bear in mind that these Bitters are ENTIRELY VEGETABLE, thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally.

HOLLOWAY'S PILLS.

ERYSIPELAS OF EIGHT YEARS' DURATION CURED. Copy of a Letter from Geo. Sinclair, Esq., of Paris, Canada, dated the 18th July, 1854.

Sir,—I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your inestimable Ointment and Pills. For eight years I suffered unceasingly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which affected me both night and day, rendering life a misery to me, as well as to all around,—so severe was the attack. I used several reputed remedies without deriving the least cessation to my misery. At last, I determined to try your Ointment and Pills; after taking them for a few weeks, a visible improvement took place, and I feel considerably better;—in three months, by continuing with your medicines, I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for me to request secrecy.

I am, Sir, yours respectfully, (Signed) GEO. SINCLAIR.

ULCERS IN THE LEG.—REMARKABLE CURE. Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

To Professor Holloway. Sir,—My sister, Miss Jane Tomkinson, suffered for a great number of years from a bad leg; which when there were several deeply seated and old wounds, defying the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unsuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length, she had recourse to your Ointment and Pills, and after using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

I remain, Sir, your most obedient servant. (Signed) EDWD. TOMKINSON.

A BAD BREAST CURED WHEN AT DEATH'S DOOR! Copy of a Letter from Mr. Henry Malden, of Three Rivers, Canada West, dated July 9th, 1854.

To Professor Holloway. Sir,—My wife suffered most severely after the birth of our last child with a bad breast. There were several nodes in it one as large as a hand; all the devices and stratagems I tried would not heal them, but it assumed an aspect more frightful than before, and horrible to behold. As a last resource I tried your Ointment and Pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effected.

I am, Sir, yours truly, (Signed) HENRY MALDEN.
