THE BRITISH CONTEST

By a vote of five to one, the House of Lords took the very bold step of rejecting the budget of the Asquith administration. Whether the House of Lords has the constitutional right to reject the budget is a mere incident now in the consideration of the whole matter, for what will now happen will be an appeal to the constituencies of the United Kingdom to decide whether or not their Lordships are to be sustained by the people in ejecting this particular budget at this time as well as any budget at any time. If the peers are sustained by the popular vote their branch of parliament will have won an important victory one which will increase their power and strength to an almost unlimited extent. For their right to interfere against the popular branch will have been established by vote of the people. It is almost impossible to conceive of such a result. If they are not sustained, the consequence will be a very great diminution of their house as a branch of the national legislature and possibly its extire abolition If they are sustained there will be sad evidence of the progress of the once sturdy British to a decline and fall. It is not necessary however, to speculate. We may expect a very bitter contest in the mother country, an uprising of hostility aginst the peers, against which they have been duly warned by the more mederate of their fellows.-Globe

A PULPWOOD PROTEST

The American paper trust sends a copy of the Philadelphia Evening Item of Nov. 19, containing a long editorial saying that the Canadian government must not place an export duty on pulpwood We quote a part:

'Pulpwood is vital to American paper-makers under present methods of manufacture. While a change in method may be brought about at any moment it would seem the part of good government for Canada to ake the course described in this despatch that it will take.

What Our Trade-Mark Means to You

IT means that the flour contained in bags and barrels so trade-marked is decidedly whiter, a great deal stronger and more nutritious than other flours.

It means that the flour has been properly aged to mature its full strength.

"More bread and better Bread" and better pastry, too.

It means elimination of uncertainty-"your money back" if Purity fails to give entire satisfaction.

Being a general etore-keeper, I was selling a good many "Pruit-a-tives" to my customers and, remarking how pleased they were with the results obtained from using "Fruit-a-tives," I decided to try them and, I might say, the effects were almost magical. Headaches and bilitiusness disappeared and to-day I recommend "Fruit-a-tives" to my customers as 'An ideal remedy.

President Roosevelt has declared Garry Owen' to be 'the greatest fightng tune in the world.' It has certainly done wonders not only for Irshmen (it is particularly a Linerick man's song) but for many of the British regiments. When during the Peninsular wars the battle of Tarifa was fought it was 'Garry Owen' which saved the day for the British. The French having made a breach in the walls of the town to which they laid seige for some time with ten thousand men endeavoring to force their way in; but the gallant Sir Hugh Gough advanced to the breach, where drawing his sword and throwing his scabbard from him he called on his men the famous 'Faugh-a-Ballaghs' to stand by him until the enemy should walk over their bodies. The heart-cheering air of 'Garry Owen' was instantly struck up, and the firmness and courage of his brave followers proved irrestible. The French were repulsed with great slaughter.' And at Waterloo, the Connaught Rangers sang the same song-they sang and they conquere again.
