CHILDREN ARE DYING FROM

Two Hundred Thousand Death Rate of Infants in Petrograd.

Paris, April 12.—Hjalmar Fridtjof Nansen, head of the International Food Mission to the Baltic and several other Scandinavian and Swiss have been conferring with the International Allied Relief effort to arrange for the relief of the largest cities of Russia, Petrograd.

A proposition by the Four to send food to Petrograd if the Bolsheviki ceased fighting, was presented yesterday, however, met with serious opposition from the Entente. However, the Entente, to ask General the Don Cossack Government, fighting, even if the Bolsheviki, Dr. Nansen is anxious that food ships can approach the icebergs. He estimates the death toll, directly or indirectly, at starvation. He says the stand idly by and watch children starve. Virtual less than two years in Petrograd, according to conditions and territorial description in the orphan hospitals.

LOCAL MAN INVENTS MILK BOTTLE

One of the most useful market for sale today milk bottle receiver was invented by Mr. S. J. E. Land Avenue, and patented in Toronto, on July 30th article is of two designs from one to three bottles to hold from one to three bottles. It is attached to the alarm running through them, or any other part as the house keeper notifies her that the son is tampering with the milk tickets. It also keeps out of the way of dog children who might be the different steps may be left by the milk.

Inspected By Mr. Pratt has been very curious people who have this invention which is a luxury, but an absolute necessity. He has already engaged have started out on a perfectly good result, will be shown to some of which are a Letters and communications descriptions are being by Mr. Pratt in connection with the wonderful invention, in a very short time, receiver will not only of agents in St. Catharines, town and out of the Dominion are Two prices are contemplated, one for the without the alarm, receiver with the alarm.
