

CRIPPLE FROM RHEUMATISM

NOW IN PERFECT HEALTH THANKS TO "FRUIT-A-TIVES"

Vancouver, B.C., Feb. 1st, 1910. I am well acquainted with a man, known to thousands in Vancouver, Victoria and New Westminster, who for nearly a year was practically a cripple from Rheumatism. He was so tormented with the disease that he found it difficult to even turn over in bed. His heart appeared so weak that he could hardly walk up stairs.

Last June, he received a sample of "Fruit-A-tives". He used them and dates his recovery from that time. To-day, there is no man in Vancouver enjoying better health.

Mr. E. E. Mills, (Assistant postmaster at Knowlton, Que.) also writes: "I honestly believe that 'Fruit-A-tives' is the greatest Rheumatism cure in the world." Try it yourself!

Mr. E. E. Mills, (Assistant postmaster at Knowlton, Que.) also writes: "I honestly believe that 'Fruit-A-tives' is the greatest Rheumatism cure in the world." Try it yourself!

See a box, 6 for \$2.50, trial size, 25c. At dealers, or from Fruit-A-tives Limited, Ottawa.

TRY TO DEPRIVE WEST OF MEMBERS

(Continued from Page 1)

Unionists interests have thrown their powerful influence into the campaign to defeat the project. In addition to the anti-reciprocity bureau started some time ago in Ottawa, a similar centre has been organized to operate from Toronto, while a third will be headed by its headquarters at Montreal.

The fourth has also been arranged for and will be located at Winnipeg, whence it is hoped to deluge the west with literature. In this connection it is also hoped to organize a "boom" campaign for Mr. Borden's western tour, the arrangements for which have been committed to the hands of Hon. Robt. Rogers, of the Manitoba Provincial Government.

The corporate and financial interests opposed to reciprocity are confident that the present proposals can be defeated, there will be no revival of any tariff reduction proposals in Canada for another two decades.

With this hope the campaign is being financed and operated, but the indications are that will of the people will triumph emphatically, and the government acquiesce in the endorsement of its project to develop Canadian trade and secure for producers more adequate returns for all their products.

STAFF CHANGES IN MARINE DEPT.

Ottawa, Ont., June 2.—Several important changes in the staff of the department of marine and fisheries have been announced. R. M. Venning, superintendent of fisheries, who has been in poor health for several months, will be Mr. M. F. Poirer, who has been assistant superintendent of fisheries and who is well qualified to fill the post.

Mr. Poirer has been acting commissioner for the past year. Mr. Venning, retiring superintendent of fisheries, has been in the service for forty years. He has a wide knowledge of international law and was one of the Canadian legal advisers in Behring sea negotiations. Mr. H. Martel, of the department will succeed Mr. Poirer as assistant commissioner of fisheries.

The retirement of Mr. Martel has been acting commissioner of fisheries. Mr. G. McPhail, who since the marine department inquiry which involved the retirement of Mr. Martel, has been acting commissioner of fisheries. Mr. McPhail having charge of maintenance of lights and Colonel Anderson will be in charge of the construction. A. H. Gulon, of the records branch of the department, has been appointed assistant wreck commissioner.

TO REPARTRATE WORTHY SCOTS.

Edinburgh, June 2.—Andrew Carnegie is developing a new scheme for repatriating Scotland. Some time ago, it will be remembered, he established a fund, which old Scots who had fallen on evil times in other countries were sent back to the land of their birth, and allowed a pension—some amounting to \$4 a week. The scheme now under consideration is more ambitious. It is proposed to extend assistance to any able-bodied Scot whose conditions of employment in England, Wales or Ireland threaten to render him a burden on the ratepayers, or on any philanthropic organization. If it can be shown that he is a man of good character, anxious to work, he will be provided with a plot of land, which, it is calculated, will enable him to get a living free from the embarrassments that follow casual employment in big industrial centres.

IRON MOULDERS THREATEN STRIKE

London, June 2.—London iron moulders are asking for a nine-hour day and ten hours pay. They now receive 25 cents an hour and they want 27 1/2 cents and an hour less of labor. The shop affected are the Hartman and Ward Mfg. Co., the Gordon Foundry Co., F. Leonard & Sons and the Vulcan Iron Co. The men threaten an immediate strike.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For Sale by Dealers everywhere.

NEW POST OFFICES ESTABLISHED IN EDMONTON POSTAL DIVISION

The following changes in the Edmonton postal division are announced: New Post Offices Established.

New Lindsay—S. E. 22-47-1-w. 4, semi-weekly from Lloydminster; Grande Prairie—Sec. 23-71-6-w. 6, monthly from Beaver Lodge; Leighton—N. E. 15-53-1-w. 4, weekly from Marwayne; Rodino—S. Jackson resigned; Looma Vista to John Globe, vice P. J. Heath resigned; Spruce Grove to H. Umbach, vice D. Brox resigned; Sedgewick to H. S. Purvis, vice C. Purvis, deceased; Names Changed; Harker to Eldorado.

ALBERTA SCHOLARS WILL RECEIVE PRIZES FROM STRATHCONA FUND

With the object of improving the physical and intellectual capabilities of the school children of Canada by inculcating habits of neatness, orderliness and obedience, and at the same time, inspiring the boys with a spirit of patriotism, Lord Strathcona has donated the sum of \$500,000, which has been placed with the Dominion government and drawing interest at the rate of four per cent. per annum, thus yielding an annual income of \$20,000 to be devoted towards the above object.

The administration of the trust has been placed in the hands of an executive council composed of representatives from each of the provinces entering into the agreement and representatives of the millinery, and thus be in a position to give such instruction when necessary. Arrangements will also be made, as opportunity presents itself, whereby the teachers in the smaller towns and in the rural districts will have an opportunity of taking such a course.

The course of instruction in millinery, such as has already been given, will be continued under the supervision of the executive council of the Strathcona trust. For the convenience of millinery teachers many of whom will no doubt desire to take a course, arrangements have been made whereby the course in physical instruction, and male teachers who pass a satisfactory examination will receive a certificate representing the Strathcona Trust has arranged for the instruction of such a course.

The Strathcona Trust has arranged for the instruction of such a course. The course of physical exercises which has been adopted in the syllabus of physical exercises for public elementary school, 1908, approved by the Board of Education, England, and with such modifications as have been found necessary. Copies of this syllabus will be distributed as soon as the revised edition can be issued.

WHY WOMAN SHOULD BE IN THE PRICE OF CREAM AND BEAUTY

At thirty to thirty-five a woman should be in the prime of charm and beauty, and yet many women begin to fade before then. Wrinkles appear and the complexion grows sallow. Dark rings surround the eyes, and headaches follow, with backaches and low spirits. The cause of this is simply need of blood-nourishment. Good, pure blood is the life of a woman's beauty and health. It is good blood that brings the glow of health to the cheek, brightness to the eye, and elasticity to the step, and the general happiness of good health. When woman feels faded and worn out her blood supply needs attention, and the waste, dispels disease and restores the brightness and charm of womanly health.
