The Portia Here.

The S. S. Portia, Capt. T. Fitzpatrick, arrived in port at 9 a.m. yesterday from the westward. The ship left here on the 1st September. It was the ship's Fermuse trip but owing to their being a wrecked crew in Renewa, at the request of Hon. M. P. Cashin, the vessel called at that place to take the 20 men of the crew and Captain Bond, the master of the vessel to their homes in Belloram, with their clothes and effects. The vessel went ashore two weeks ago Tuesday night past. The Portia got the passengers aboard at 7 p.m. when a high southerly wind blew she could not hold Renewa and had to start for Trepassey. Two hours after leaving a fierce storm of wind from the S.S.E. with torrential rain was experienced and Captain Fitzgerald thought it prudent to lay in Trepassey Bay until the weather moderated. She made Trepassey at daylight next morning with a strong breeze of N. W. wind blowing and a big sea running. She left again at 4 a.m. that day and had it fine up the coast excepting for a thunder storm which was experienced Sunday forenoon at Burn. The ship arrived at Bonne Bay at 6 a.m. Thursday and left at noon on the return. She left Bay of Islands the same day at 7 p.m. and arrived at Sydney at 4 p.m. Friday after making a fine run to that port. She took there her full complement of bunker coal and arrived at Port aux Basques Saturday morning at 10, and leaving at 11 had a remarkably fine run down the coast, arriving at Placentia at 8 p.m. Monday. She left there 2 hours later with the wind S.W. to S. and thick fog and arrived at Trepassey at 1 p.m. Monday. Here she took 160 men to go to work on the Trepassey branch railway, and reached Fermuse at 4.30 p.m. and was obliged to remain there owing to dense fog. At 6 p.m. Monday they landed the railroaders at Bay Bulls, and on leaving there as the ship was terribly laden with coal and other cargo and with a heavy S.E. wind and a big top she got a good "watering" on the run to port. Her passengers were: Messrs. S. R. Collier, G. Harris, J. Nunns, Jas. Baker, F. Gillard, Fowler, Leary, Pitcher, M. Murphy, Power (2), H. Pedigrew, T. Walsh, Clatney, J. Bates, Way, Barron, Gillis, R. Byrne, Meadames, Fitzpatrick, Griffiths, Jackman, Kehoe, Dalton, O'Brien, Way; Misses J. Parsons, Jordan, G. Elsbary, Fitzpatrick (3), Lambert, Shannahan, Mahoney, Brophy, Williams, Ellis, Pride, Decline, Duffy, Hussey, Quinn, Duggan, Smith, Murphy, Doherty, Kavanagh (2), Maunder, Master Ellis, and eight-nine in stowage.

PEKIN, Sept. 13.
An Imperial edict, issued yesterday, says that the ring-leaders in the disorders in the Szu-chuen province intend to proclaim its independence. As a consequence the Chinese Government ordered the Viceroy to destroy the rebels to the last man. The Viceroy's attention having been called to the fact that many of those taking part in the disturbances were misguided, the Government instructed him to distinguish between them and the actual rebels in the imposition of punishment. If the rebellion is not promptly suppressed, it is likely to spread to other provinces, where there is much discontent. The Japanese legation has received a despatch indicating that Chinese troops were among the rebels who besieged Chengtu.

BILBOA, Spain, Sept. 13.
The strike situation in this city is growing worse. A state of siege has been proclaimed, and reinforcements of 5,000 troops are on the way here. Business is at a standstill, the stores are closed, whilst the tramways and railways are stopped. Encounters between the strikers and the troops are constant. Soldiers fired on mobs, wounding many striking miners at Oviedo, who were dynamiting a railroad bridge in order to prevent transportation from collieries, where the men refused to strike.

LONDON, Sept. 13.
In many towns and villages in England, as a result of prolonged drought water is entirely absent. The farmers are not only without water for stock, but are finding it almost impossible owing to the total absence of grass, to obtain enough food for their animals to keep them alive. Root crops are an entire failure. The prospects for stock keepers during the coming winter are grave.

The lava stream which crosses the railway line encircling the volcano, is approaching stations to the North, and especially threatening the depots at Molo and Alcantara, both of which were abandoned to-day.

Why should I buy a roofing that needs to be painted every little while to keep it tight, when, for the same money or less, I can buy AMATITE which needs no painting?
The outer surface is composed of real mineral matter, which makes painting unnecessary.
With an Amatite Roof on your building you end your roofing troubles. When you buy a roofing that requires frequent painting you begin them.
Smooth roofings that require painting are a nuisance and an expense. When you buy them, you buy trouble—not protection.

Cascarets Insure Inside Cleanliness

The million of Cascarets users never have Headache, Constipation, Billiousness or Sick Stomach.
It is more necessary that you keep your Bowels, Liver and Stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.
Are you keeping clean inside with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil. This is important.
Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the decomposed waste matter and poison in the intestines and bowels.
No odds how badly and upset you feel, a Cascarets tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.
