A HEARTLESS CASE.—A few days ago a little girl, aged five years, was brought hurriedly to and with great appearance of consternation to the Montreal Hospital, sick with small-pox, and after depositing in care of the door-keeper the parents departed in great haste without giving their name or address. The poor child succumbed to the disease not long afterwards and the heartless parents had not once called to inquire after its welfare, had given no intimation of their place of residence, and it seemed hard to bury it as an "unknown." A Friend in Need.—Dr. Wistar's Balsam of Wild Cherry is a friend in deed. Who has not found it such in curing all diseases of the lungs and throat, coughs, colds and pulmonary affections, and "last, not least," consumption? The sick are assured that the high standard of excellence on which the popularity of this preparation is based, will always be maintained by the proprietors.

It is a rare thing that physicians give

It is a rare thing that physicians give any countenance to a medicine, the man-facture of which is a secret. About the only exception we know of is Johnson's Anadyne Liniment. This, we believe, all endorse, and many of them use it in their practice with great success.
