MAN'S FACE

Can be cured with Dr. Williams' Pink Pills

There is not a drug on earth that can cure varicose veins. A great many doctors claim to remove this treacherous disease with various applications and nerve-wracking doses, but they never show any proof of their cures. The reason is plain—they never cure. Varicose veins are the greatest strength-sapping scourge that affects men. Its influence reaches out over the entire vital organism, robbing the nerves of the stomach, the heart and brain of the nutrition which nature sends to them. The cause of varicose veins is a congestion of blood. The circulation is checked and almost stopped. The blood vessels become twisted and distended. The affected parts, thus deprived of life blood, gradually waste away and a general breakdown in the health often results.

The only way to cure varicose veins is to remove the congestion of blood. Drugs don't do that. They never did and never will. The surgeon's knife will do it, of course, but that leaves you just part of a man. The best way is to help nature cure. Electro-Vigor does that. It sends a gentle but powerful current of electric life into the affected parts, decomposes the stagnant blood and cleanses the veins by promoting a vigorous circulation of warm, healthy blood, which carries off all impurities and restores them to their natural healthy condition. Electro-Vigor builds up strength. It increases vitality and power, and makes a man of you in every way. No pain or weakness can exist where there is plenty of electricity. You can have

WORK AND WORRY WEAKEN WOMEN

New Health and Strength Obtained by the Use of Dr. Williams' Pink Pills

It is useless to tell a hard-working woman to take life easily and not to worry. Every woman at the head of a family is subject to more or less worry. These cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible and to build up her system to meet any unusual demands. Her future health depends upon it. To guard against a breakdown in health the blood must be kept rich, red and pure. Nothing can keep the blood in this condition but the use of Dr. Williams' Pink Pills. They strengthen the nerves, restore the appetite, bring the glow of health to pallid cheeks, and renewed energy to listless people. Women can not always rest when they should, but they can keep their strength and keep disease away by the occasional use of Dr. Williams' Pink Pills. Or, if a breakdown has come unexpectedly they can obtain new health through this same medicine. Mrs. M. Thomas, River street, Toronto, says: "For several years I was almost a constant invalid, unable to do my housework and spend much of my time in bed. My nerves seemed worn out and I was so run down that all my friends thought I was in a hopeless decline. I was as pale as a corpse; I was no bloodless; if I cut my finger it would not bleed; my limbs were swollen far beyond their usual size. At the least exertion my heart would palpitate violently, and I frequently had fainting spells. I was under treatment by good doctors, but it did me no good. One day my husband brought home some Dr. Williams' Pink Pills and I began taking them. They seemed to go to the root of the trouble, and in the course of a few weeks the improvement they were making was quite plain. Gradually as I continued taking the Pills the swelling of my limbs disappeared; the weak spells came less and less frequently; my appetite greatly improved, and finally I was completely cured and able to do my housework with ease. Later, my daughter Elma seemed to be troubled with anæmia, and we gave her the Pills with the same good results."

Why suffer in any way when you can begin curing yourself today with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50. Write Dr. Williams Medicine Co., Brockville, Ont.

FIVE HUNDRED THOUSAND GERMANS ARE DEAF

Society in Berlin Formed to Provide More Consideration For Them

Berlin, Sept. 26.—At the first convention of the Society of the Protection of the Hard of Hearing, formed recently, Herr Franz Brodman, an architect, stated that there are 500,000 persons in Germany whose hearing is not normal and that the organization was formed to look after their interests.

Managers of theatres, opera houses and concert halls are to be asked to assign such persons to seats where they can hear, and an effort is to be made to secure consideration for them on trains and in hotels.

A special school for the partially deaf is to be established, and assistance in buying ear trumpets and other devices is to be provided.

The Wants outline many changes that point to painful transactions.
