All's right with the world. -{BROWNING

London, Wednesday, Feb. 10. ENGLAND WILL NOT TRAMMEL HERSELF.

The following cablegram was received from London, Eng., to-day:

"In the House of Commons last night Mr. Lowther offered a motion in favor of denouncing the favored nation clause in treaties with Belgium and the zollverin countries in order to enable the establishment of preferential commercial relations with the colonies.

with the colonies.

"Sir Michael Hicks-Beach, president of the Eoard of Trade, replied that the Government was disposed to go a great way to establish a real zollverein with the colonies, but the proposal was impossible without sacrificing portions of treaties highly beneficial to Great Britain.

"The motion was negatived." Unrestricted Reciprocity was adopted he would double his factory, and would employ 600 hands instead of 300 as at present. And why not? Are not Canadian men and women just as good workers as the men and our business men have as much brain power as their neighbors over the border? No 'The motion was negatived

This answer, and the fate of the resolu tion, shows that Great Britain is not disposed to sacrifice any of her opportunities to trade with other countries for the purpose of entering into a trade arrangement with her colonies. The fact is that both the great political parties in Great Britain have learned the advantages of trade free-dom, and are not prepared to transmel the country with any scheme that would increase the cost of the living of the people, and thus prevent them from being able to maintain that pre-eminence as world-wide traders and money-makers which their system of free exchange has brought them.

That is the meaning of the Conservative Minister's reply, that is the meaning of the manner in which the subject was shelved.

A correspondent asks if it is true that Mr. Carling has applied for a charter to establish a Good Templar lodge in the cellar of his brewery ?
