SPAIN'S CRISIS

No One Wants the Premiership-Opinion Divided on the War Question. Madrid. jority in the Chamber of Deputies. While the military party urges war, the large proportion of the civil popudesirous of peace. lation is pointed out, however, that if the United States insists upon the cession of Porto Rico and the Philippine Islands, the general feeling will be in favor of a continuation of the hostili-ties, many Spaniards believing that the situation in Cuba will enable Spain to prolong the struggle. The government has issued a loan

Important Announcement by of 500,000,000 pesetas in treasury bonds, at 5 per cent, of which amount the Bank of Spain takes 300,000,000 pesetas. The Madrid correspondent of the London Times says: "The crisis hangs fire, the ministers still meet in council and the difficulties of retirement seem even greater than the dif-ficulties of remaining in office. The Conservatives are not prepared to accept office, and it is hard to imagine a Liberal cabinet without an undisputed Liberal leader. The logical conclusion is that Senor Sagasta must accept the responsibility of deciding whether or not to open peace negotia-

tions. The Madrid correspondent of the Daily Mail says: "Senor Sagasta, on being asked whether a decision had been taken regarding peace, replied: 'No: but what remedy can there be but to make peace?" The ministerialists assert that the regular army in Cuba does not object to a conclusion of peace, but that the 20,000 volunteers are determined to continue the war.'

CANADA'S INFLUENCE

A Most Potent Factor in the Imperial Policy.

Special Letter From Ottawa-The Do minion's Bright Outlook-A Campaign of Slander-The Yukon Management.

Special to The Advertiser. Ottawa, July 12.-Canada's fiscal

the returns show big increases, the customs receipts alone being \$2,149,000 in advance of those of last year. The excise department, however, shows a heavy falling off of \$1,300,000. The total revenue on account of the consolidated fund for the year indicates an increase over \$2,000,000, nor has the increase reached its limit yet, apparently, as the figures for June are more than \$9,-000,000 in excess of those of the corresponding month of last year.

The savings banks returns are equally satisfactory, the amount to the credit of the depositors being \$48,577,-000 as against \$47,130,000 a year ago; an increase of \$1,447,000 in the year would not appear to indicate that loss of public favor in the government savings banks which has been so confidently foreshadowed by the Conser-

vative press.

A surplus will be a new experience, for the last was in 1893, while since that date the deficits have amounted to over \$6,000,000. At last the beneare beginning to manifest themselves in an agreeably practical manner.

ficial effects of Liberal administration CANADA THE KEYSTONE. The position which the Dominion took

in the imperial jubilee demonstration a year ago, as the premier colony of the empire, is being maintained and it is freely conceded that fortune has favored us with more than usual bounteousness, it would be idle to pretend that good government and the progressive, up-to-date legislation has not had very much to do with the marvelous advances our country is making, and the high esteem in which she is today held in the empire. The policy of our government, the opinions of our statesmen, the trend of public feeling in Canada, are watched and canvassed today as they never were before; and the influence of Canadian sentiment upon imperial policy is a most potent factor to be reckoned with. With trade increasing \$50,000,000 a year, with the tide of immigration swelling rapidly. with capital and capitalists more and more attracted by the magnificent opportunities offered by our mines, and our vast agricultural and cattle raising facilities, and the government in the hands of men not only alive to the requirements of the hour and needs of the country, but also capable of pro-viding for them it may truly be claimed that, as a nation, our lot is cast in places pleasant.

THE CAMPAIGN OF SLANDER. Not a little amusement has been caused this week by a report in the local Conservative paper of the alleged proceedings at a cabinet council meeting on Thursday afternoon, in which it was stated, under flaming headlines, that the minister of the interior had been severely called down by his colleagues for the alleged misdeeds of government officials in the Yukon, who are under the control of his department. It is scarcely necessary to state that the entire report was evolved out of the reportorial imagination, for, apart from any other consideration, the premier and fully one-half of his colleagues were not present at the meeting at all. A good deal of space has been taken

up in the Conservative press during the last week or ten days by reports of these horrible doings of officials in the Yukon, who, it is alleged, are buying up valuable claims, secured through inside information officially obtained, and holding the same for speculative pur-poses. Such action on the part of public servants would be reprehensible, but it is certainly unfair to condemn any officer without corroborative evidence, which has not been secured at present. The officers who have been named in this connection do not happen to be in positions that would give them the valuable information upon which to peculate. Take, for example, Mr. Wade, who is not, as has been stated, registrar nor inspector of mines, but a clerk of the peace and crown attor- Store.
