# CURED ONCE

Dodd's Kidney Pills Make No Halfway Work of Kidney Disease.

J. McDonald Had Rheumatism and Dropsy, Was Cured by Dodd's haney Fills and Has Had No Return of the Trouble for Five Years.

Windsor, Ont., Nov. 19 .- It has been acknowledged for some years that Dodd's Kidney Pills would cure any case of kidney disease, and of late those interested in medical science have been watching those cures to convince themselves that they were permanent. Gradually the conviction is forced that Dodd's Kidney Pills cure once and for all. One more proof of this is furnished by John J. Mc-Donald, a well-known farmer, now residing at 130 Langlois avenue. Five years ago he was troubled with rheumatism and dropsy. For two years he suffered terribly, and the different medicines he tried failed to relieve His legs were swollen and the pains he suffered were most acute. He used Dodd's Kidney Pills, was cured, and his cure caused quite a sensation at the time. Mr. McDonald, speaking of his cure

recently, says: "I have had no return of my trouble ous for any. It is with pleasure I acknowledge that Dodd's Kidney Pills cured me. I found them just as repre- back to Canada. sented, and they did for me far more than I expected they would."

Anarchists Break Up Meeting.

Paris, Nov. 20 .- The anarchistic element among the striking coal miners are seeking to prolong the conflict, and at St. Etienne, where the negotiations for a settlement have reached an advanced stage, a band of anarchists broke up the meeting of the miners' federal committee, the members of which were obliged to take refuge in the town hall. A detachment of soldiers has been called out to guard the building. The strike has come to an end at most of the other points.

Ouit Work on Vanderbilt's House. New York, Nov. 20.-A sympathetic strike of unusual nature, involving 600 men, has tied up work on the residence of George W. Vanderbilt, Fifty-first street and Fifth avenue, in which extensive alterations are being made. The strike was ordered by the Building Trades Council on behalf of the Amalgamated Painters' Society, although no painters will be employed in the building for two months. The action was taken in an effort to force the contractors for decorations to discharge their workmen who are members of the Brotherhood of Painters and to em-

mated Society. Wood's Phosphodine The Great English Remedy

Is an old, well established and reliable preparation. Has been prescribed and used over 40 years. All druggists in the Dominion of Canada sell and recommend as being the only medicine of its kind that cures and gives universal satisfaction. Company to Take Over All the Extensive Gibson Properties.

St. John, N. B., Nov. 20 .- Yesterday the largest financial transaction which has ever been carried through in this province was completed by John F. Stairs and Max Aikin, of Halifax; Alexander Gibson, "the lumber king," H. H. McLean, solicitor, Bank of Montreal, and director of the H. Gibson Company, and D. Mac-Laren, of Jardine & Co., Liverpool, England, who is also a director.

These arrangements include the organization of a new company to take over the Gibson properties, which include the Canada Eastern Railway, 130 miles (the same line that Mr. Blair proposed to buy for \$1,000,000), the cotton mill at Marysville, said to be the largest single building of the kind in Canada, the whole town of Marysville, comprising about 200 dwelling houses, three churches two hotels, a public hall, various shops and a brickyard; also the lumber mills at Marysville, the largest in the province, with a lumber mill and grist mill at Blackville, and about 200,000 acres of freehold lumber lands.

The whole property is to be capitalized at \$6,000,000, including preference stock, common stock and bonds, probably \$3,000,000 of common, \$2,000,000 of preference and \$1,000,000 of bonds. Part of the stock will be offered to the public, and the securities listed on the Montreal Exchange.

It was practically decided last night that Alexander Gibson would be provisional president, and that other directors would include John F. Stairs and R. Heart failure was the cause, from further say that the city should not be Harris, of Halifax, and H. H. McLean, of this city. Negotiations for the sale of the Canada Eastern to the C. P. R. are suspended, but are not broken off.

Michigan Man Gives His Experience Regarding Mild Winters.

West Bay City, Mich., Nov. 20 .- P. N. Jones writes to the local paper. "It may seem very strange, but in 1863 when I was only eight years of age, my father came home from his first enlistment in the army. The winter beginning in 1863 was a very warm winter, rainy and soft, with some cold weather the last of February and the first of March. This was in Ohio. In 1878, thirteen years later, I was on the Northern Pacific Railroad in Minnesota. It was very warm until February and March then. There was some cold weather, but not long at a time, two or three days at the longest. Just thirteen years later, 1889, in Ohio, it did not freeze to exceed two inches at any time all winter. The years 1902 brings it thirteen years later. Now, when the sun crossed the line each of these years the winds was in the south or southeast. I have a perfect remembrance of these years. Why it comes every thirteen years is a mystery to me. I think some of the lumbermen will remember some of these dates, as in 1876 there were but few logs banked in Minnesota of Wisconsin. This fall the wind was about two degrees east of south when the sun crossed the line."

Trouble at Cranberry and Crystal Ridge Settled.

Old Hands To Be Reinstated and Work Resumed Monday.

Hazelton, Pa., Nov. 20. - The trouble at the Cranberry and Crystal Ridge collieries of A. Bardoe & Co., where the employes refused to return to work because they were asked to sign an agreement not to interfere with nonunion men, was settled today, and operations will be resumed on Monday. Instead of signing the agreement in-

dividually at the mines, the men decided in a body to abide by its provisions. They empowered a committee of their "local" to make written promise that all of the employes will comply with its conditions. All of the men but three, who are accused by the company of having unduly active during the strike , will be reinstated. The only collieries in this district where the differences have not been settled are those of Coxe Bros., & Co., whose men will meet this afternoon to receive a proposition from the company outlining a plan of settlement.

THE GREAT DEMAND for a pleasant, safe and reliable antidote for all affec-tions of the throat and lungs is fully met with in Bickle's Anti-Consumptive Syrup. It is a purely Vegetable Com-pound, and acts promptly and magically in subduing all coughs, colds, bronchitis, and is put at a price that will not exclude the poor from its benefits.

TIME HAS TESTED IT.—Time tests all things; that which is worthy lives, that which is inimical to man's welfare perishes. Time has proved Dr. Thomas' Eclectric Oil. From a few thousand bottles in the early days of its manufacture the demand has risen so that now the production is running into the hundreds of thousands of bottles. What is so eagerly sought for must be good.

FRIDAY AT THE GRAND. The story of "The Scout's Revenge," the attraction at the Grand tomorrow evening, is one that cannot fail to hold the interest of an audience. The comedy scenes are a little out of the general rut inasmuch as there is no resort to slang or slapstick work to get laughs. Those who go will be agreeably disappointed. Popular

They are the three English dancers who created such a furore in New York city when they first made their appearance there. Probably not since the best days of Lottie Collins has Europe contributed such dancers as the Rosebuds, who are graceful as they are pretty. The "Show Girl" will be seen at the Grand Saturday afternoon and evening.

Holden Bros.' production of "Nobody's Claim" is said to have eclipsed all the former successes they achieved with such popular melodramas as "The Sea," "Barrel of Money," Herne" and others.
