Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. R is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing thm. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."
