LIVE STOCK MARKETS.

Toronto, Feb. 4.—Trade slow today, but prices steady at this week's decline for poor quality cattle, and firm for choice butchers. Very few export cattle were

offering, and the market for export bulls and cows is off a little. Choice heavy steers are steady, but the old country cables are weak, and this, of course, induces a more cautious feeling here on the part of the export buyers.

part of the export buyers.

The run for yesterday and today was 122 loads, with 1,963 head of cattle, 832 sheep and lambs, 102 calves and 900 hogs.

Eporters—The market is steady for choice steers, but bulls are easier.

Butchers—An active demand for choice butcher cattle; medium and common mixed butchers easier.

MORE HELP WANTED AT PUBLIC LIBRARY

The Work Is Rapidly Growing Librarian Carson Told the Board.

At the regular annual meeting of the members of the Public Library board, O. Jeffery, appointed chairman for the coming year. Mr. M. P. McDonagh was appointed chairman of the library committee, and W. H. Winnett, chair-

man of the finance committee. In presenting the fourteenth annual report, Librarian Carson showed that the expenditure of the year varied but LED COBALTS the expenditure of the year varied but little from that of the preceding year. The report in part was as follows:

Librarian's Report.

The most outstanding feature of the year's work was the introduction of open access to all departments of books, and separate stack-rooms for fiction and general works. This has proven an unqualified success. It brought a few difficulties which can be solved easily. The change in the location of the reference department has given an immeasurable stimulus to the use of reference books. Its use has increased over 100 per cent. The people are becoming acquainted with a wider range of reference works, and the department itself is under the surveillance of the staff.

Patronage Increasing.

It is gratifying to note that the pat ronage of the library has increased 29 per cent over that of the previous year, and that the number of new applicants for borrowers' cards shows an increase of 39 per cent. While the cirproportionate use, although the numhas increased by 10,000. A greater de-
