HALLOWEEN CONCERT GIVEN BY CHOIR BOYS

St. James Paris Hall Is Scene of Merry Program Put on Last Evening.

St. James' church, South London, choir boys gave a very much enjoyed concert in the parish hall yesterday evening. Humor was the keynote of the proceedings—the opening chorus and kazoo band, under the direction of William Stuart, being particularly amusing and well rendered. To add to the effect of the evening the boys all appeared in halloween costumes. The following boys all undertook solo parts in the form of songs or recitations: Tom Willis, Donald Stuart, Leonard Wood, Tom Gregory, Robert Stephens, John Dawson and John Prosser, all of which numbers were very well received by the audience.

Miss Minnie Dobbin added greatly to the enjoyment of the program by two readings, and Ralph Morrison displayed some fine work as the solo violinist. The humor of the evening was brought to its climax in a comic song by William Stuart, who showed himself to be a past master in the "art." The evening was brought to a conclusion by a grand finale, entitled "Boys' Pranks," which had been rehearsed under the direction of Mr. Anderson, the organist, is to be congratulated on the success of the concert. The proceeds will be devoted towards the expenses of next year's camp.

Walnuts were offered on the local market this morning for the first time this year, the quality being much superior to last year's crop.

According to one of the farmers the nuts are early, two or three weeks from now being the usual time for ripening.

Turvey's offerings were quickly absorbed.

The man who offered this morning's supply came from a little village east of London. He said the harvest of nuts in that district was bountiful.

BAPTIST REPORT BEST OF CHURCH IN 30 YEARS

Concluded From Page 1.

ment committee, read this morning, states that there are more pastors requiring the help of the committee than there are churches needing the services of pastors. The difficulty experienced by the committee in placing the men who are now without churches was emphasized, and it is expected that a committee of inquiry into the possibility of dealing satisfactorily with the whole question will be appointed during the presidential address.

URGES FRATERNAL SPIRIT.
Urgently appealing to Baptist ministers for a greater spirit of fraternity towards men, a union of Baptist churches from coast to coast, and their aid in the advancement of education, Albert Matthews of Toronto opened the twenty-sixth annual Baptist convention for Ontario and Quebec at Talbot Street Baptist church last night with a stirring presidential address.

Mr. Matthews exhorted members of the convention to focus and concentrate their efforts on the development of the colleges and universities. He appealed for their support in a broader consideration of the educational problem.

Mr. Matthews declared that the Baptist church this year had achieved the greatest spiritual results of any year in its history, but had failed to grasp an opportunity.

"We must deal with conditions as we find them. There is time for frank discussion of disturbing conditions which surround us. Spiritual forces are as varied as the powers of nature, and they don't always make for truth. Of all evil spirits, suspicion is the most dangerous in the world."

Destroy Suspicion.
"If we would destroy suspicion, we must come into close contact with our fellowmen. We must refuse to invent fears. Men of different temperaments have the opportunity of friendly intercourse. We need to rule our own lives by a watchful self-discipline, and to get the best out of people we must believe the best that is in them."

"Therefore let us come together in fraternal spirit to discuss those problems. It seems vitally important now that the Baptist people should have a large vision of their work here. We should join hands with our western brothers in a united body from coast to coast, making a united constitution."

"Although there is a crying need for reasonable superannuation and friendly school matters and young people's work clamor for our attention, I must confine my remarks to one single phase."

Mr. Matthews stated that as chairman of the board of governors he spoke on educational conditions which confronted the church as a problem with which he was familiar.

"If ever there was a time in the history of the world when education is a real necessity, it is now," he declared. "Where educational institutions flourish most the Baptist cause prospers most. There is no task so fundamental to our success as education."

"The Baptist cause is undereducated. If you would have able men in editorial offices and theological schools, how would you without education? At a time when the nation is calling for statesmen, how would you have us furnish such men? Now is the time for us to make the universities and colleges sufficient and worthy of the time in which we live."

"In Baptist colleges we have come

MRS. CUNLIFFE RE-ELECTED.
Mrs. J. W. Cunliffe of this city has been re-elected to the mothers' pension board of the Greater Western Veterans' association. Word to this effect was received by President Harry Wray from Toronto today.

to the time when funds from endowments fail to sustain the work. Universities and colleges belong to churches and conventions, and it is right you should know the position in which these institutions now stand."

\$25,000 Deficit.
Mr. Matthews pointed out that a deficit of \$25,000 had been suffered. From this amount \$21,000 might be deducted, this leaving the fourth year of the forward movement. The net deficit would then be \$3,500. "We shall be under the necessity of procuring \$25,000 from the annual income," Mr. Matthews said.

Mr. Matthews stated that in the question of finance of the universities he would entirely trust the churches and provision for the young people would be made. He pointed out how the colleges and universities had performed in a previous service, "but they cannot live upon the past," he said.

"I plea to the churches to support the university from outside pressure from any of our churches. The strength of the administration of educational institutions in face of assaults might be maintained," he said.

"I appeal to the churches to support the work, who are doing a missionary work, but are making no effort or contribution as an organization to sustain the work of the colleges."

"Let us not seek outside help or look to non-Baptists to pay for educating our ministers, but rather let us have the opportunity of continuing our work so well begun. Let us think of the results to be realized; the greater efficiency that can be sent out."

A nomination committee composed of Rev. J. S. LaPlaire of Kingston, Rev. D. W. Terry of Sherbrooke, Rev. W. W. Ashmore of Aylmer, Rev. L. A. Terrien of Montreal, Rev. A. P. WORKERS' EDUCATIONAL PROGRAM IS PLANNED

Facilities for Extra Mural Study in University Subjects Extended.

A meeting of the executive of the Workers' educational association will be held on Thursday to organize the winter program. It is expected that a considerable number of classes will be commenced. This has been made possible through the increased teaching staff at the University of Western Ontario.

Extra mural work can now be handled more readily than heretofore, and extension work is rapidly being organized within reach of those who cannot attend a full course. To give the greatest amount of instruction with a minimum of inconvenience to the students, the lectures are brought to their doors. The lectures this winter will be given in the county as well as the city.

Several classes are being prepared for those who wish to pursue a definite course of reading.

COLLEGIATE WILL SECURE MUSIC HALL LICENSE

The collegiate committee of the board of education has decided to take out a music hall license for the auditorium of the new college building, the same as last year. The license cost \$10 per annum.

The committee only arrived at this decision after the report of Principal E. A. Miller regarding a conference he had with the amusement tax officials in Toronto recently.

The auditorium will be rented at the rate of \$15 and \$20 a night depending upon whether the organization conducting the entertainment has secured from the tax department exemption from the customary amusement tax for such concerts.

In cases where exemption cannot be secured by the organization the fee will be \$20 a night to cover additional costs in connection with having a man at the door to tear up the tax tickets instead of operation a "chopper."

Principal Miller was able to secure for the department a concession in this regard whereby the board will not have to purchase one of the chopping machines, which cost in the neighborhood of \$150.

MONUMENTS UNVEILED BY HISTORICAL SOCIETY

Burwell's Corners and Paynes Mills Scenes of Latest Activity.

Special to The Advertiser. St. Thomas, Oct. 24.—The Elgin historical and scientific institute visited Burwell's Corners and Paynes Mills this afternoon, where they completed their program of the year in marking points of historic interest.

Four monuments have been unveiled this year by the local society, the first being a stone cairn commemorating the 100th anniversary of the old English church on Walnut street, the second being a cairn on the site of the first high school, the Talbot seminary, which was built 100 years ago on the Griffin property.

Today's program was the unveiling of a cairn at Burwell's Corners, a side road two miles north of Elgin on Talbot street on the town line of Dunwich. It was on this site that Col. Mahlon Burwell, in 1814, erected the registry office of Middlesex county, and for a period of 29 years Col. Burwell kept the records of the county, which at that time included Elgin and other parts of the county.

Col. Burwell, who was one of the pioneer settlers of the district, as was Col. Talbot, was taken a prisoner in the war of 1812 to 1814 and was carried off to Kentucky, where he was held a prisoner, being released on the cessation of hostilities and was appointed to the position of registry in recognition of his services. The cairn was unveiled by Dr. Coyne, president of the Historical society, and bears the inscription "Registry Office of Middlesex, 1814."

APPLE OFFERINGS LARGE, THOUGH CROP IS POOR

On account of the poor crop of winter apples, comparatively few have been noticed on the local market lately.

But this morning all varieties were offered, snows, russets, pippins, and many others. The quality was excellent, the average in the market.

Early apples are nearly finished, numerous dealers explained, and recent frosts will kill those that have withstood the cold weather up to the present.

CAR OF CLIMBING AGE PAYS VISIT TO MARKET

With a huge load of apples and three people as an additional encumbrance, a little car, which, according to the owner, was purchased by his father in 1898, arrived on the market this morning.

The present owner explained that everything was the same as when purchased, except a new pair of tires and a more modern horn.

The headlights on the car were quite awkward, being nearly twice the size of a latest model, and the old-fashioned crank was a novel sight.

"Despite all these hindrances," explained the owner, "it is the best all-round car I have seen, hardly ever needing repairs, and in spite of her advanced age can travel thirty miles an hour easily."

"Watch her speed now," he said, as he opened the throttle to demonstrate his statement.
