As the Story Goes.

"Ar-y!"
her voice rolled thunderously
the stairs, across the tessellated
and into the dim and silent drawing-
"es, papa dear," came the silvery
ask that young man if he can tell me
time."
moment of silence followed; then
spoke again:
he says it's ten minutes to eleven,
then, ask if he doesn't think it's
at bedtime."
gain there was momentary silence,
then once more by Mary's dulcet
voice:
He says, pa, that he rarely goes to
before twelve, but it seems to him a
matter of personal taste. And he says
that, if he were in your place, he'd go
to bed now if you feel tired."

READ OF ASTHMA makes countless

relief is given the mind is still in tor-

this. Relief comes, and at once,
the future attacks are ward off.

A PILL THAT IS PRIZED.—There have
been many pills put upon the market
I passed upon public attention, but
none has endured so long or met with so
much favor as Parmelee's Vegetable Pills.
Widespread use of them has attested
their great value, and they need no
other advertisement than this. Having
firmly established themselves in public
esteem, they now rank without a peer in
the list of standard vegetable prepara-
tions.

DON'T BE BALD

Nearly Anyone May Secure a Splendid
Growth of Hair.

We have a remedy that has a record of
growing hair and curing baldness in 93 out
of every 100 cases where used according to
directions for a reasonable length of time.
That may seem like a strong statement—
it is, and we mean it to be, and no one
should doubt it until they have put our
claims to an actual test.

We are so certain Rexall "93" Hair
Tonic will cure dandruff, prevent baldness,
stimulate the scalp and hair roots, stop
falling hair and grow new hair, that we
personally give our positive guarantee to
refund every penny paid us for it in every
instance where it does not give entire satis-
faction to the user.

Rexall "93" Hair Tonic is as pleasant
to use as clear spring water. It is deli-
ciously perfumed, and does not grease or gum
the hair. Two sizes, 50c. and \$1.00. With
our guarantee back of it, you certainly take
no risk. Sold only at our store—The
Rexall Store.

CONCRETE watering-troughs and
feeding-floors help to keep your
live-stock healthy.

HORSES and cattle watered from a concrete
trough are less likely to contract disease.
Concrete is sanitary, easily cleaned—does not
rot or leak. Once built, a concrete watering-
trough will last forever. You need never
waste time "patching it up." Like all
concrete improvements, its first cost is its final
cost.

MANY diseases of hogs are directly due to
feeding from the filthy, unwholesome mud
of the barn-yard. This manner of feeding is also
wasteful, because the grain is trampled into
the ground, in such a condition that not even a hog will
eat it. Concrete feeding-floors, with concrete swill-
troughs are clean, sanitary. They keep hogs in
better health and save feed.

WATERING-TROUGHS and feeding-floors are only two of scores of valuable, every-day
improvements that may be made of concrete. All are fully described in our 160-page,
illustrated book.

"WHAT THE FARMER CAN DO WITH CONCRETE"
sent free to any farmer upon request. This book has shown thousands of Canadian farmers how to
make their farms more profitable. In asking for it, you do not place yourself under the slightest
obligation to buy cement, or to do anything else for us. Simply ask for the book, by letter
or post card, and it will be mailed at once. Address:

T. DODDS & SON

A QUAINY PHILOSOPHER.

He Deftly Turned His Little Faults
Into Real Virtues.

In August Strindberg's "Easter (a
play) and Stories," translated from the
Swedish by Velma Swanston Howard,
is a quaint bit of conscience easing
reasoning by a matter of fact philo-
sophical photographer. He had a
partner, who posed as a real, a fault-
less, philosopher. "But this matter of
fact chap was "full of little eccentrici-
ties. For instance, he smoked tobacco
all day long; he could never learn to
close a door after him; he stuck the
knife into his mouth instead of the
fork; he went about in the house with
his hat on; he manicured his nails in
the middle of the atelier, and at night
he had to have three mugs of ale. He
was full of faults."

To his faultless partner the matter
of fact one thus justified his short-
comings: "Just consider! I do not
drink to excess, therefore I attend to
the business. I don't steal, I never
speak ill of you, I never complain, I
never turn white into black, I'm never
uncivil to customers, I rise early in
the morning, I trim my nails to keep
the developer clean, I keep my hat on
my head so as not to shed hairs on
the plate, I smoke tobacco to clear the
atmosphere of poisonous fumes, I
leave the doors ajar to avoid making
a noise in the atelier, I drink ale at
night so as not to fall into the whisky
habit, and I shove my knife into my
mouth to avoid sticking myself with
the fork."

"Verily, thou art a great philoso-
pher," said the partner. "Now we
shall be friends, and thus we'll make
headway."

Bound to Hit Something.
There is a cross eyed man in Cleve-
land who is an enthusiastic trap shoot-
er; furthermore, he is an expert. His
record is a thing to be proud of. One
day last autumn a nervous friend ven-
tured to question him thus:
"You are so horribly cross eyed that
I don't see how you are able to shoot
straight."
"I'll tell you my secret. I squint
along the left barrel with my right
eye, and I squint along the right barrel
with my left eye."
"Yes?"
"And then I fire both barrels."—

**OPERATION FOR
PILES FAILED**

Zam-Buk Was Then Tried and Worked
a Cure

Writing from Poplar, B.C., Mrs. C.
Hanson, wife of the proprietor of the
Commercial Hotel, says: "I suffered
for years with bleeding piles. The pain
was so bad at times that I could hardly
walk, and ordinary remedies seemed
utterly unable to give me any ease.
Finally I decided to undergo an opera-
tion and went to the Sacred Heart
Hospital in Spokane. There they per-
formed an operation and did all they
could for me. For a time I was certain-
ly better, but within 12 months the
trouble started again and the piles be-
came as painful as ever. I tried lini-
ments, hot poultices, various 'pile cures,'
and indeed everything I could think
would be likely to do any good, but
still I continued to suffer, and the
shooting, burning, stinging pains, the
dull, aching and wretched 'worn-out'
feeling that the disease causes continued
as bad as ever.

"One day I read about Zam-Buk and
thought I would try it. The first one or
two boxes gave me more ease than any-
thing else I had tried, so I went on with
the treatment. In a short time I began
to feel altogether different and better,
and I saw that Zam-Buk was going to
cure me. Well, I went on using it, and
by the time I had used six boxes I was
delighted to find myself entirely cured.
That was three years ago, and from then
to the present time there has been no
return of the trouble."

Zam-Buk is a sure cure for piles, ec-
zema, ulcers, abscesses, cold sores, chapped
hands, varicose sores, burns, scalds,
bruises, inflamed patches and all skin inju-
ries and diseases. Druggists and stores
everywhere, soc. box, or Zam-Buk Co.,

Dear Books.
The king of Northumberland in 600
gave for a history of the world 800
acres of land, and a countess of Anjou,
date not known, once gave 200 sheep
and a large parcel of furs for a volume
of homilies and 120 crowns for a sin-
gle book of Livy.

Ants.
To get rid of ants saturate rugs with
kerosene, and hang or lay these near
the places they infest and they will
soon disappear.

Postage Stamps.
The largest postage stamp ever is-
sued was a five cent stamp of the
United States intended for newspaper
postage. It was 4 by 2 inches in size.
The smallest postage stamp, on the
other hand, was a twenty-five pennig
stamp of Mecklenburg-Schwerin, issued
in 1856. It was one-fourth the size of
an ordinary postage stamp.

Newt'n.
Newton was so small and frail at
birth that his life was despaired of.
He lived, however, to be eighty-five,
which was also Voltaire's age.

Sea Snakes.
Sea snakes are very plentiful in the
south Pacific. They are widely distrib-
uted, stray individuals having been se-
cured on the coast of New Zealand.
When swimming close to the surface
they exactly resemble an ordinary
snake, except that the head is always
below water. At night they come
ashore and lie among the rocks. They
feed on fish, and, although their small
double fangs appear harmless, they
are reported to be very venomous.

Displaced the Hourglass.
The first accurate clock was set up
in England at Hampton Court in 1540.
Up to that time members of the royal
suit used hour glasses in their private
rooms.

Hair Brushes.
An experienced hand will by touch
tell if a broom or brush be all hair or
a mixture. But if ever in doubt pull
out or cut off a suspicious hair and
apply a match. However well doctor-
ed, the deception will be shown at
once. Hairs will burn, rolling up ball-
like, with the well known smell of
burned hair, while a vegetable substi-
tute will consume, leaving the charred
portion like a burned match.

Colored Goldfish.
The artificial coloring of goldfish to
meet prevailing tastes by keeping them
in water containing certain chemicals
is extensively carried on in Sicily.

Swedish Girls.
Every Swedish girl not born to wealth
is taught a trade.

Flexible Ivory.
Ivory may be rendered flexible by
immersion in a solution of pure phos-
phoric acid—specific gravity 1.13—until
it partially gains in transparency.
Then it is washed in cold, soft water
and dried. It will harden if exposed
to air, but may again be made pliable
by immersing in hot water.

Oldest Pipe Organ.
A church on the island of Gotland,
in the Baltic sea, has the oldest pipe
organ in the world, an instrument dat-
ing from 1240.
