The biggest help on the farm

IN a short time you will find this plant is the biggest thing on your farm. Big in value—big in the amount of drudgery it saves—big in its labor-saving for your wife—big in the comfort and conveniences it makes possible—and big in its economy.

It is driven by the famous "Z" engine which permits of the greatest possible saving in power because you can utilize the full power of the engine to drive other machinery.

It is so simple a boy can run it. It requires little attention and seldom needs adjustment or repairs.

Runs six hours to the gallon of kerosene. Saves time, labor, and enough money to pay for itself.

Come in and see a demonstration, or send a card for catalogue which gives full information.

40-Light Plant
\$495

Commencing Monday, August 1st, this price is increased to \$525. If you are thinking of installing a Light & Power plant this fall see us at once

A healthy body means healthy arteries. The railways are the arteries of Canada.

IN the operation of railways Canadians hold high reputations.

The chief Canadian systems are operated over great stretches of territory presenting widely different problems.

Their traffic obligations fluctuate rapidly with the seasons.

Climatic conditions are sometimes difficult. Unusual foresight, skill and determination are called for.

Yet the only unfailing highways for the heavy traffic across the New World from China to France during the war—were Canadian railways.

Canada alone among the allied countries had no war-time transportation crisis. When foreign roads choked under their load, she relieved them of millions of tons. At a time when ships were the need of the hour no ship lost time in any Canadian port through failure of the railways to deliver cargoes at the docks.

To-day the Canadian producer still commands the fastest, the most dependable and the cheapest railway service in the world.

But the foresight that made this record possible could do nothing without MONEY! The skill that kept terminals uncongested had to be backed with MONEY! The determination that drove crippled engines ahead in the face of 40-below gales and mounting snow would in the long run have been useless without MONEY!

Thus to-day the alarming fall in the net revenues of the railways is a menace to railway efficiency. It injures railway credit. It dissolves the reserves needful to meet the expanding needs of a growing country. It imperils national prosperity.

Increased freight rates are imperative therefore, not merely on behalf of railways but in the interests of Canada itself!

This is the first of a series of advertisements published under the authority of
The Railway Association of Canada
formerly the CANADIAN RAILWAY WAR BOARD

In July 1918 the Canadian roads were threatened with a general strike. To prevent this public catastrophe they agreed to follow the American scale of wage increases. The Government of Canada meantime allowed freight rate increases intended to make up the cost of these new wage rates.

Leaving aside all question of increased cost of material, the new wages cost the railways of Canada an extra eighty million dollars for the first year alone.

The new rates yielded them an additional forty-three millions!

The annual deficit on wages alone was thirty-seven millions and is constantly growing!

"--that certainly is Good Bread!"
[Whose make is it?]

"Why, LOVELL'S of course!"
